Writes Mrs. W. McRoberts.

Mothers.

Women Made Strong and Happy

Catarrh of the Pelvic Organs is a Frequent Cause of Barrenness.

Pe-ru-na Eradicates Catarrh From the System.

O the woman of ancient Israel not to become a mother was regarded as the greatest of earthly calamities. To become a mother-more especially the mother of a strong, healthy boy-was the height of glory for the faithful woman of the good old Bible days. Even now, when maternity is not esteemed as of yore, the mother of healthy children is an object of admiration, and sometimes envy, by her neighbors. As compared with ancient peoples, the average American woman has a low appreciation of motherhood. There are, however, a great many exceptions to this statement.

The accompanying letters from grateful women who have been made atrong, healthy and happy mothers need no added words of ours to make them convincing. Catarrh had weakened and impaired their entire systems. Peruna made them sound and well.

Mrs. L. M. Griffith, Arco, Idaho, writes "Your medicine did me a wonderful amount of good. It cured me of barrenness. I am 30 years old and never had any

children; but since beginning your medicine I A YOUNG MOTHER'S LETTER.

Mrs. W. McRoberts, writes to Dr. Hartman from Delano, Miss., the fellowing:

Doctor S. B. Hartman, Columbus, Ohio:

Dear Sir: - "I feel perfectly well of catarrh. I did as you directed me to and took Peruna and Manalin. The third of March'l gave birth to a 10-pound baby girl and we are both well and happy. I am very thankful to you, and Peruna saved my life. I recommend it to everyone and can't praise it enough.

"I send you my own and my baby's picture. She is so sweet and good, -she is a Peruna baby. I have such good health now. I do all my housework and take care of my baby, and feel so good. "There are three or four of my neighbors using Peruna now, since it

CULABLE.

Millions Upon Millions Turned Out from American Factories Every Year and Immense Importations Come from Abroad-Various Woods Used.

Care of My Baby There is one article of manufacture that is used so extensively in the Unit-I Feel So ed States that no one has an idea of the annual quantity consumed, namely, wooden toothpicks. According to an expert the number is simply incaicutable. Millions upon millions of the tiny wooden slivers are turned out every year from American factories alone, and on top of this tremendous output come importations from Portugal and Japan and other countries nearly as large as the domestic prod-

> Most of the American toothpicks come from Franklin county, in Maine, near the forest home of the white birch, out of which 95 per cent of the domestic toothpicks are made. This wood is soft and pliable and of admirable resistance for the purpose for which it is used. Whole mills in Maine are devoted to supplying the country with toothpicks, and in the industry is to be found some of the finest and most intricate of machinery. So tremendous is the output of these machines that in a brief season, during the spring, enough teethpicks can be made to supply the markets of the

ern New York, but the real home of the toothpick is Maine.

forest oder and sweetness.

The felling of toothpick trees is only incidental to the regular lumber work of the Maine foresters. No especial men are sent out to hunt up suitable trees. But whenever the foreman of a gang of woodsmen comes across a tree especially adapted to toothpicks he orders it felled and laid aside. The branches of the tree are then trimmed and only the trunk itself is transported to the mills. There the bark is skinned and the naked trunk is run through a mac'ting which severs in into veneers.

"Veneers" is the technical expresment of your case and he will be pleased to sion for thin strips of wood no thicker than a piece of blotting paper and no wider than the length of a toothpick. Once the trunk has been cut into these sheets of wood, only one process remains to turn out the toothpicks fit for packing and shipping to market.

The veneers are fed into a second Where Savage Torture Was Inflicted machine supplied with sharp, rotary knives that whirl at tremendous high The most notorious part of the speed, snipping the veneers into toothwhole structure-and which yet repicks at the rate of hundreds of thousmain-was the press yard. Not Deserving of Sympathy. When we hear of some traveler who has been impoverished by sharpers on an ocean steamer we feel reasonably sure that he broke into their game expecting to rob them. Either that or he is an idiot pure and simple. The case is obviously a case of the biter bit. We waste no emotion upon these alleged victims. A fool and his money are soon partedwhy need we trouble ourselves as to assumption that in nine cases out of ten the fellow who loses his money hoped and expected to get the better of the others. He was not looking for congenial companionship, and when the would-be spoliator is despoiled he appeals to no sense of pity or indignation in the hearts of honest and enlightened men. Nobody cares whether he gets fleeced or not. No-
