

The Plattsmouth Journal

Weeping Water

Attorney C. E. Tefft is laid up with a severe case of rheumatism and as yet has found no law in the statutes which admits of serving an injunction restraining the same.

Hilton Wescott and Miss Clara Street furnished some splendid musical numbers at the recital of E. Gertrude Storer, at the Congregational church last Friday evening.

A. J. Roe informed us that Sunday May 17th they had their first chicken fry of the season, a two pounder that was hatched in March. Can anyone supply facts to prove a prior date?

On Monday, May 18th, John McGrady was married to Miss Clara Penn, at Ravenna. John is operator at Waverly where they are at home to friends. He surprised his father and mother very much as well as many friends.

There has been complaint made that several of the mail boxes along the routes are being filled with trash, and the children who did this are possibly not aware of the consequences if report be made. The fine imposed for such mischief is about \$200 or imprisonment.

We learn that Miss Ethel Thorgate has recently accepted a position at Lincoln as proof reader on the News. Miss Thorgate has fitted herself for this kind of work and we are glad to hear it is in the line of something better than the work connected with the mechanical part of printing which is in competition with machines.

G. W. Woodruff contemplates starting a skimming station here and expects to make all necessary arrangements soon. There is considerable cream being shipped away already, and it is his attention to have a cream separator and buy the milk or cream brought to town, separate the cream from the milk and the farmer's can take the latter home. If enough can be interested in the plan operations will begin before long.

Fred Gorder moved into his new home last week.

Born to Mr. and Mrs. E. H. Norris, a son on Saturday May 23, 1903.

Mrs. Maurer and family departed Tuesday morning for California where they will live in the future.

Miss McFall who has been teaching in the Chilton district closed her school Friday and returned to her home at Elmwood.

Frank Dickson selected the rainiest season thus far of the year, to have new shingles put on the roof of his house. The task was accomplished last week.

Alfred Ralston last week shipped six cars of fat cattle of his own feeding to Omaha. The number of beef cattle at present prices is worth a good deal of money. Mr. Ralston has seventy head yet on feed and three car loads of hogs. He expects to ship the remainder of the cattle in a few days.

Dr. Hingate was called out to see Gus Hansen, who is suffering with an attack of appendicitis. The doctor does not recommend an operation at present, but is trying a new treatment in medical science which is termed "starvation" treatment, which is being used with marked success in the treatment of this disease.

H. M. Worley, principal of the Avoca schools closed a very successful year's work Tuesday. He informs us that he has bought residence property in Lincoln and will move there this week. He expects to purchase an interest in the business of a wholesale hardware firm in that city. He was offered the position at Avoca for another year but decided not to teach any more at present.

Greenwood

Woodman log rolling, Greenwood, August 12.

Wm. Franks lost nine head of fine cattle by lightning Sunday evening.

Thos. Brittenham, who has been here from Missouri for the past few weeks, died Wednesday at the home of his brother. His father arrived Wednesday evening to attend the funeral.

Mr. M. C. Bryant, deputy state superintendent, came down Tuesday evening and in a very neat and fitting talk presented the class of '03 of the Greenwood school with diplomas. Considering the condition of the weather the exercises were well attended.

Complaints have been coming in about the killing of birds and the destruction of their nests by boys, who will omit to name now, and we wish to warn them in regard to it. The law is very strict and the fine is very heavy for this offense and should they persist in this wanton destruction of the feathered songsters and their homes they will be prosecuted by the authorities.

Louisville

Will Krecklow has erected a blacksmith shop on the rear of the lot just south of the Courier office. He will be ready for business shortly.

The Courier hopes to see some new rental houses erected in Louisville. There is not a single vacant resident house in town. Capitalists should investigate this matter.

Russell Myers, the five-year-old son of Rev. Myers, fell on the point of a knife blade Monday and his side was

pierced quite badly. Dr. Worthman dressed the wound and the boy is all right now.

Teed Ball, the Sarpy county capitalist, was in town this week and we understand he is dealing for some Louisville mining stock. Mr. Ball was considered a good horse trader years ago but we are unable to say how he would come out on a mining deal.

Paul Phelps a young farmer of Sarpy county, was kicked in the head by a horse Monday evening. His right cheek was cut open about four inches. Dr. Thomas was summoned and it required six stitches to close the wound. He is reported as getting along as well as could be expected and it is thought that aside from an ugly scar no serious results will follow.

On the 15th and 16th of next month the people of Louisville will be called upon to entertain about two hundred delegates to the annual convention of the Cass County Sunday School association which will be in session here. It is the duty of all our citizens to put forth their most strenuous efforts to see that the convention is a success and the delegates are provided with suitable places to stay while here.

Elmwood

There promises to be a fine crop of strawberries in this vicinity.

A daughter was born to Mr. and Mrs. W. S. Raker of Gretha last week.

Mrs. Henry Bornemier's daughter is rapidly convalescing from her attack of typhoid fever.

Barbary K. Heckler was born in Montgomery county, Pennsylvania, May 11, 1835, and was married to Jesse Y. Heckler, February 5, 1857. Died at her home in Alvo, Nebraska, May 25, 1903, aged 68 years and 14 days.

Wm. DelesDernier went to Lincoln Wednesday where he went through the terrible ordeal of becoming a Mystic Shriner. J. H. Rogge and C. W. Kraft went along with him to see that he was given all that was coming to him.

S. E. Greenslate, who is working on a barn at M. W. Waltz's farm sustained a severe fall Monday. The scaffolding gave way, precipitating him to the ground a distance of eighteen feet. His side and shoulder were badly bruised, but fortunately no bones were broken.

The Edwards & Bradford Lumber Co. have disposed of their large yards in this city to Mr. L. R. Vakiner, who took charge of the same yesterday. The new firm will be known as the L. R. Vakiner Lumber Co. Mr. Vakiner has been manager of this yard ever since it started here.

Frank Carnes, a box car tourist, tried to get on the west bound freight about a mile west of town Tuesday morning, missing his hold and fell, his face hitting the end of a tie, badly bruising his chin and fracturing his jaw. He walked back to town and Dr. Neely repaired the damages, and he left for Lincoln on the evening train. He was advised to pay his fare and not try to beat his way.

Our schools closed Friday but the promised picnic was spoiled by the heavy rains the night before. The children had been counting on a very happy day in the woods, and we are all very sorry they were disappointed. The teachers of the past year have given good satisfaction and proven their ability to handle, as well as instruct their pupils.

F. P. Sheldon and A. F. Sturm returned Friday night from Lincoln, where they had been to take a lot of Scottish Rite Masonic Degrees. Frank says they rode thirty-two different kind of goats. The boys are 32nd degree Masons now. This is a fine distinction for them; and we are glad they have the means and the inclination to take the degrees, for every man is made better as he gets more Masonary.

Mr. Joe Shrader has just had a barn 24x40 built on the Norris farm which he purchased last fall. He is also preparing to build another barn 40x40 on his home place. Mr. Shrader is an example of what push and pluck and hard work, and honest dealings will do. He came to Nebraska with very little and lived on a rented farm for years; but he had lots of faith in Nebraska soil and Joe Shrader, and he knew he would make it after awhile. Now he has hundreds of acres of land worth \$70 per acre; is out of debt, and is building big barns on his farms.

Mr. Joe Shrader has just had a barn 24x40 built on the Norris farm which he purchased last fall. He is also preparing to build another barn 40x40 on his home place. Young Plants

Every farmer knows that some plants grow better than others. Soil may be the same and seed may seem the same but some plants are weak and others strong.

And that's the way with children. They are like young plants. Same food, same home, same care but some grow big and strong while others stay small and weak.

Scott's Emulsion offers an easy way out of the difficulty. Child weakness often means starvation, not because of lack of food, but because the food does not feed.

Scott's Emulsion really feeds and gives the child growing strength. Whatever the cause of weakness and failure to grow—Scott's Emulsion seems to find it and set the matter right.

Send for free sample. Scott & Bowne, Chemists, 400 Pearl St., New York City, and all druggists.

ton bridge. Riley Eaton and Roy Upton, while hunting on the river Tuesday morning, caught two sections consisting of ten boats, and Wednesday morning another capture was made by James Trook and Harve Vanhorn, who caught five boats upon which was piled a quantity of lumber. Ye up-river people who have lost your pontoons should make a shout before Night Operator Welch appropriates these boats to put into the depot ponds for his bull-frog orchestra.

Wednesday evening at 6 o'clock a very pretty wedding took place at the home of Mr. and Mrs. Joseph I. Lynn near town, at which time their daughter, Miss Mable Lynn, and Mr. Earl H. Pickett were married. The invitations were confined to the relatives of the two families and there was a large number of them present.

Maple Grove

Ed Gansmeier and Henry Engelke were Plattsmouth visitors last Wednesday.

Annie Puls visited with Mrs. Minnie Puls last Thursday.

Andy Sutton made a visit to his brother, at Plattsmouth Friday and Saturday.

Ed Gansmeier and Otto Puls visited with Mr. and Mrs. W. H. Puls Sunday.

Mr. and Mrs. George Hill made a trip to Omaha Monday where they will visit relatives a few days.

W. H. Puls and Ed Gansmeier made a business trip to Murray.

More rain, more rest. That is the go in this neighborhood.

Friday afternoon this section was visited by the hardest rain of the season. Quite a number of bridges are badly maimed and acres of corn is washed out. The loss and damage is great.

Herman Gansmeier was a Maple Grove visitor Monday.

Our mail carrier has not delivered mail in this neighborhood for a few days on account of the damage to bridges.

Mrs. Julia Gansmeier visited with Miss Ida Boedeker Tuesday.

W. H. Puls and Albert Papp were among the Plattsmouth visitors Wednesday.

Worst of All Experiences.

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newton, Decatur, Alabama. "For three years" she writes, "I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and the result was miraculous. I improved at once and now I'm completely recovered." "Electric Bitters, Stomach and Bowel troubles. Electric Bitters is the only medicine. Only 50c. It's guaranteed by F. G. Fricke & Co., druggist.

To Cure A Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature on each box. 25c.

Fits

Baby Had Two to Six Every Day.

Suffered Terribly—Doctors Failed.

Dr. Miles' Nervine Cured Him.

Weak, nervous, fretful, puny children require a treatment such as only Dr. Miles' Nervine affords. When neglected these symptoms lead to epileptic fits or spasms. Every mother should strengthen her own and babies' nerves with Dr. Miles' Nervine, a trace specific in all nervous disorders. Read the following:

"When my little boy was 18 months old he had cramps in his feet and hands. They would be drawn out of shape for two or three days. At first I thought it was colic, but in about two weeks nothing did any good but the doctor gave him Dr. Miles' Nervine. One-half bottle stopped the fits and his limbs straightened, and another bottle cured him. He is now a strong, healthy boy going to school. I have waited to see if the old trouble returned, before writing you, but it never has. I cannot praise Dr. Miles' Nervine enough, as I know it saved my boy's life."—MRS. URIAH NELSON, Lansing, Iowa.

Rad Rhoden suffered the loss of two limbs by flood the other night. A sack of corn went along for company.

The man who invents an airship that works successfully will be hailed as a deliverer by all of mankind here, and we have no cellars to be flooded

either, but we have plenty of mud, just mud.

When anyone pretends to guess when the weather turns dry here, he is rudely turned down and when he repeats the offense, he is "rubbered."

E. Plurebus Unum. Yo No.

Cedar Creek

Mr. Editor—and also your Myriad correspondent: Now you well know that there is no use in asking that good looking Cedar Creek post to send items to the Journal for he is being coaxed too much, but still there is another writer. So here goes! "Let her go, Gallagher—Murphy is dead."

Miss Katie Stoehr returned from her trip to Cherry county last week.

Mr. White, living about three miles northeast of here is sick with appendicitis.

A good many bridges will have to be repaired as soon as possible.

H. J. Miller was badly bitten by a dog last Sunday.

Fred Horn and Henry Volk were among our Cedar Creek visitors this week.

Alas! the daughter cries, it seems that I can't make ptecalily. No matter how I mix up things they always pickle lily.

The wolf thinks he is safe as long as they dig for wolves in a mouse den.

Geo. P. Meisinger shelled corn one day last week.

Here's to your Myriad correspondent. What becomes of the hole in a doughnut?

A good many farmers are scratching their heads and worrying about their crops on account of the beautiful rain.

Maple Grove
