Iron Workers Forced to Leave Austria.

VIENNA.—There is a wholesale emigration of miners and workmen in the iron districts of Austria to the United States in consequence of the unprecedented stagnation of the iron industry. Hundreds of men have been discharged since the beginning of the year and the mines and iron works are operating short time. Wages have fallen and in many instances the men are earning less than 50 cents a day and their families are suffering severe-

RAILROADS HIT VERY HARD.

Losses From Flood and Fire Several Millions

KANSAS CITY, Mo .- The extent of the damage to the railroads operating in and out of Kansas City caused by the flood can scarcely be estimated. Outside of the very considerable item involved in the loss to freight in cars the river may amount to \$2,000,000 or \$3,000,000. By way of illustration, a dozen freight cars belonging to one company and standing on tracks in the west bottoms were washed down the river. The Burlington lost seventeen loaded cars by fire in Harlem and nearly three times that number were burned in the west bottoms.
