RETURN TO WORK

PRESIDENT ROOSEVELT AGAIN AT HIS DESK.

WAS ABSENT THIRTEEN WEEKS.

He expects a Long Season of Labor and Says He is Prepared for It—Close of a Very Busy Summer Vacation.

WASHINGTON—After an absence of thirteen weeks spent at Oyster Bay President Roosevelt returned to Washington Monday. His special train over the Pennsylvania road arrived at 4 o'clock in the afternoon. The president was accompanied by Mrs. Roosevelt, Miss Alice Roosevelt and other members of the family, and by Private Secretary Loeb. The president was greeted by several hundred people who cheered when he entered his carriage. He was also met by Assistant Postmaster General Gay, Chief Wikie of the secret service, and by other public officials. The president and family drove direct to the White House. The trip from New York was uneventful.

OYSTER BAY, N. Y.—President Roosevelt's summer sojourn at Sagamore Hill was concluded Monday when at 8:30 o'clock he boarded a train en route to Washington. He has been absent from the capital for thirteen weeks and two days and returns in the expectation of remaining there, practically uninterrupted, until next June.

When the president, accompanied by Mrs. Roosevelt and their children, Ethel, Archie and Quentin, arrived at the Oyster Bay station he was greeted with cheers from a great crowd of the townsfolk who had gathered to say farewell. The president acknowledged the greeting by tipping his hat and bowing as he passed across the platform to his train, a special of two cars. The president and his family occupied the private car of President Baldwin of the Long Island railroad. In addition to the president and family the party included Secretary and Mrs. Loeb, members of the executive staff, representatives of the press association and secret service officers. As the train pulled out at 8:30 it was followed by the cheers of the crowd, while the president stood on the rear platform of his car bowing acknowledgments.

It is the president's present intention to return to Oyster Bay early next summer. In the event of his nomination for the presidency he will remain here throughout the summer and autumn, until after the November elections. As yet he has perfected no plans for the presidential campaign. He has no intention of participating actively in it. It is likely, however, that he will deliver some addresses here.

TRAP IS SPRUNG.

Not, However, Before Victim Made a Speech.

CHEYENNE, Wyo.—James Keffer was hanged at Lander at 10:15 Friday morning. Everything moved off like clockwork. Keffer was on the verge of a collapse, but by a superhuman effort he calmed himself and walked bravely to the gallows.

Just before the trap was sprung Keffer made a talk and said he had no grudge against any one. He excused the jury, but said they made a mistake and would some day realize the fact. The judge of the supreme court and governor, he said, were no good.

Keffer's neck was broken by the fall and he was cut down in eight minutes. The crime for which James Keffer paid the penalty on the gallows is one of the most revolting in the annals of criminology in the state of Wyoming. He crept softly into the room wherein an aged and almost decrepit man lay sleeping peacefully and not even dreaming of the fate soon to descend upon him. Keffer at first did not deny the crime, but said he was under influence of liquor at the time the deed was committed.

Out of the total arrivals, 48,000 were at the port of New York. The increase in immigration for the first two months of the fiscal year is 43 per cent.

PAUL, Minn.—A special to the Dispatch from Helena, Mont., says: In addition to the threats which have been made against the Northern Pacific railroad by a gang of dynamiters, who demand \$50,000 cash, Chief of Police Travis has received notification from what is believed to be the same gang that unless the two men arrested in connection with the first dynamite outrage at Livingston are released the city jail will also be blown up.

CATTLE DISEASE

IT IS THOROUGHLY ERADICATED IN NEW ENGLAND.

SECRETARY WILSON IS PLEASED

No Country Before Has So Quickly Stamped Out Foot and Mouth Disease—Much Credit is Due Dr. Salmon, Chief of Bureau.

WASHINGTON.—Secretary Wilson said on Tuesday that the receipt through the state department of an official notice that Great Britain had removed its embargo on cattle and sheep from the New England ports was the conclusion of the great work in which the department had been engaged since December 1 for the eradication of foot and mouth disease from the New England states and the restoration of the traffic to the condition before this outbreak occurred. The secretary regards this as the most valuable piece of work the department has done for American agriculture.

"No country," he said, "before has succeeded in stamping out such an extensive outbreak of this disease in so short a time. The work was accomplished under great difficulties. The weather in New England last December was very inclement and the inspectors and their assistants were obliged to work in the open country with the thermometer four degrees below zero. Some of the men had their extremities frozen. Notwithstanding these obstacles, the work went forward constantly and rapidly. It is difficult even at this time to understand how the pits were dug in the frozen ground for burying the carcasses, and how the disinfectants were applied where everything of a liquid nature became frozen in a short time after it was exposed to the atmosphere. But the work was so thorough that in not a single case where the disinfection was conducted by the department's representatives, did the disease re-occur when fresh cattle were introduced."

"During this work 3,900 cattle and 500 hogs and sheep were slaughtered and paid for, and over 200 premises were disinfected. The total cost of the work was less than \$300,000. Since the last diseased herd was slaughtered all animals in the infected district have been carefully examined three times without finding any traces of the disease."

"Arrangements are now being made for forwarding cattle and sheep for export through the ports of Boston and Portland, and shipments will commence in a few days. The department has been working in connection with the state department since the first of July to secure favorable action from the British government and is much gratified that the trade can now be resumed."

Secretary Wilson gives much credit to Dr. Salmon, chief of the bureau of animal industry, and his assistants for the effectiveness of the work done.

LOWEST IN THIRTY-SEVEN YEARS

American Securities Drop Still Further.

LONDON.—Consols touched 87 at noon Tuesday, the lowest point since 1866, and then hardened somewhat. The whole feeling on the stock exchange was of extreme depression and nervousness. No disposition was shown to support prices and whenever stocks were offered the quotation was immediately lowered against the seller.

Americans showed a further decline in sympathy with Monday's movement in New York, the position of the United States Steel issues being given as the dominating influence.

NEW YORK.—Special cable and telegraphic dispatches to Bradstreet's this week show the following changes in available supplies, as compared with last accounts:

The negotiations have been under way for some time, but the matter is now settled.

Sack of Flour Too Heavy for Him.

MINNEAPOLIS, Minn.—The milling strike has claimed its first life. Preston Y. Dunwoody, son of John Woody, treasurer of the St. Anthony and Dakota Elevator company, is dead, aged 26. When the strike was declared young Dunwoody was among the young men from the office who went to work in the mills. While straining at a heavy sack of flour he ruptured a blood vessel and died two hours later.

BELIEVES GERMANY SEEKS WAR.

A Strong Undercurrent Against the United States.

CHICAGO, Ill.—In plain English, the attitude of the Germans toward us, the United States, is, "We like you awfully, but we've got to fight you all the same." This does not mean trade hammering with tariff regulations. It means sooner or later shooting to kill."

Prof. Albion W. Small, on arriving at the University of Chicago Tuesday, after a summer's tour through Europe, uttered these words and gave as the reason for this German intention of provoking war with the United States, Germany's desire for trade expansion in South America and the east.

"The Germans are making extraordinary efforts to please the Americans and if we want those efforts to continue we haven't a minute to waste till we have a navy a little stronger than theirs," he said.

ARE AGAINST CZAR'S VISIT.

Austrian Socialists Denounce Russian Monarch.

VIENNA.—A meeting of 2,000 socialists was held Tuesday night to protest against the visit of the czar of Russia.

Addressees of the most violent character were made. One speaker remarked: "The czar, whose only instruments of civilization are the gallows, the prison and Siberia, comes like a thief, affected by the stigma of his crimes, between the cordon of troops."

A resolution denouncing the czar's visit as an offense to Russia's liberal population was not allowed to be published by the official representative.

TURKS WITHDRAW TROOPS.

Supposed to Be in Compliance with Bulgaria's Request.

BURGAS, Bulgaria.—Despatches received here from the insurgent chief Gerjikoff, who has been conducting operations in the Kirklish strip, announce that the Turkish troops have been withdrawn from Zubernoro, Karlovo and Gradistocoo, three points on the Turkish frontier.

It is understood that this movement was in accordance with the request of the Bulgarian government that Turkey withdraw her troops from the frontier as a sign of the sincerity of her pacific declarations.

The positions vacated by the Turks are now occupied by insurgents.

WESTERN MEN NOT AFFECTED

Packing House Employees East Not in Same Organization.

DENVER, Colo.—Replying to rumors that a strike was brewing among the packing house employees of the west in sympathy with a possible strike of Chicago packing house employees, the representatives in Denver of the American labor union and the Denver Butchers' union gave out a statement denying that the butchers west of the Missouri river contemplated going on a strike. The butchers west of the Missouri are affiliated with the American labor union, while the eastern butchers are affiliated with the American Federation of Labor. Western butchers have no grievances.

Identified as a Murderer.

DETROIT, Mich.—Two Rockford, Ill., residents, Frank P. Kessler, a switchman, and Alexander Cope, a newsboy, identified Emil Waltz, who is held on the charge of killing little Alphonse Wilmes here a few weeks ago, as a man whom they had seen near Rockford a short time prior to the time of finding the mutilated body of the little newsboy in that city. This identification, the police believe, is significant in leading up to the circumstantial evidence they believe will connect Waltz with the crime in Rockford and the one in this city.

FEVER PREVALENT

IT IS ON THE INCREASE AT LOREDO, TEXAS.

EFFORTS TO PREVENT SPREAD

Nearly Four Thousand People Have Fled from the Infected City—The City Being Placed in a Thoroughly Sanitary Condition.

LAREDO, Tex.—The yellow fever seems to be on the increase in this city, despite the rigorous efforts that are being taken to stamp out the scourge. Two deaths and twelve new cases were reported at the close of Sunday.

Dr. Guiteras, in his house to house canvass saw many cases of fever and at the conclusion of the day's examination made the announcement that twelve of the cases were genuine yellow fever. The daughter of the Mexican boilermaker, Juan Cortinas, who died of the fever recently, died late Sunday afternoon, and another Mexican woman also died of the disease.

This city now presents a dead appearance, all those who could get away having departed for points north of the state of Texas and for points south. It is estimated by the authorities that nearly 4,000 people have fled from here since the beginning of the yellow fever scare. The city is now quarantined against it in all directions in the state, and no person can get beyond the limits of Webb county. Other Texas counties have established a shotgun quarantine and are turning all back who are endeavoring to get away in coaches, buggies and carts. The quarantine applies to all persons, freight, baggage, express, mail or other matter originating in the city of Laredo and points south, the only persons having authority to leave the corporation limits being the health officers of the state of Texas and of the United States.

The work of placing the city in a thorough sanitary condition is being carried on under the direct supervision of Dr. Guiteras and a corps of expert assistants.

The situation in Nuevo Laredo is unchanged, no deaths or new cases having occurred as far as can be learned. Dr. Mariano Trevino, a Mexican government yellow fever expert, is in charge. He believes that within eight days he will have stamped out the fever.

The Mexican custom house authorities have temporarily removed to Lampasas, where all incoming baggage and freight over the National railway is examined, thus permitting trains through to Laredo, Tex., without stopping at Nuevo Laredo.

TAMPICO, Mex.—Five new cases of yellow fever have appeared here, though they are of a mild form, apparently. Houses numbering 116 were disinfected and the authorities are uniting in their efforts to kill the plague.

MEXICO CITY.—Refugees from Valles, Victoria, Santiago, Linares and Tampico, fleeing through fear of the yellow fever, are making their appearance at Mexico City, and the capitol is the oasis for a throng of visitors.

Vatican at the Fair.

ROME.—The negotiations for the participation of the Vatican in the St. Louis exposition are proceeding satisfactorily. It is considered probable that the Holy See shall send as its representative an important cardinal of the curia. The chief difficulty is that the traditions and etiquette of the Vatican are against sending cardinals, except as delegates, to foreign countries and they are never sent to exhibitions or fairs. The difficulty will probably be overcome by sending a cardinal to America in connection with church affairs and he will afterward proceed to St. Louis, thus paying to the United States the papacy's highest tribute.

After the lynching the mob dispersed and quiet restored.

TRIED BY TIME.

Eugene E. Lario, of 751 Twentieth Avenue, ticket seller in the Union Station, Denver, Col., says: "You are at liberty to repeat what I first stated through our Denver papers about Doan's Kidney Pills in the summer of 1899, for I have had no reason in the interim to change my opinion of the remedy. I said when first interviewed that if I had a friend and acquaintance suffering from backache or kidney trouble I would unhesitatingly advise them to take Doan's Kidney Pills. I was subject to severe attacks of backache, always aggravated if I sat long at a desk. It struck me that if Doan's Kidney Pills performed half what they promised they might at least help. This induced me to try the remedy. It absolutely stopped the backache. I have never had a pain or a twinge since."

A FREE TRIAL of this great kidney medicine which cured Mr. Lario will be mailed to any part of the United States on application. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists. Price 50 cents per box.
