Consumption
The only kind of consumption to fear is "neglected consumption."
People are learning that consumption is a curable disease. It is neglected consumption that is so often incurable.
At the faintest suspicion of consumption get a bottle of Scott's Emulsion and begin regular doses.
The use of Scott's Emulsion at once, has, in thousands of cases, turned the balance in favor of health.
Neglected consumption does not exist where Scott's Emulsion is.
Prompt use of Scott's Emulsion checks the disease while it can be checked.
