

Mrs. L. C. Glover, Vice Pres. Milwaukee, Wis., Business Woman's Association, is another one of the million women who have been restored to health by using Lydia E. Pinkham's Vegetable Compound.

DEAR MRS. PINKHAM: I was married for several years and no children blessed my home. The doctor said I had a complication of female troubles and I could not have any children unless I could be cured. I tried to cure me, but after experimenting for several months, my husband became ill, and in twenty-two months a child came. I cannot fully express the joy and thankfulness that is in my heart. Our home is a different place now, as we have something to live for, and all the credit is due to Lydia E. Pinkham's Vegetable Compound. Yours very sincerely, Mrs. L. C. Glover, 614 Grove St., Milwaukee, Wis.

Women should not fail to profit by the experience of these two women; just as surely as they were cured of the troubles enumerated in their letters, just so certainly will Lydia E. Pinkham's Vegetable Compound cure others who suffer from womb troubles, inflammation of the ovaries, kidney troubles, nervous excitability, and nervous prostration; remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't allow any druggist to sell you anything else in its place.

An Indiana Lady Tells of a Wonderful Cure:— "DEAR MRS. PINKHAM: It is a pleasure for me to write and tell that your wonderful medicine has done for me. I was sick for three years with change of life, and my physician thought a cancerous condition of the womb. During these three years I suffered untold agony. "I cannot find words in which to express my bad feelings. I did not expect to ever see another well day. I read some of the testimonials recommending your medicine and decided to write to you and give your treatment a trial. "Before I had taken half a bottle of Lydia E. Pinkham's Vegetable Compound, I began to sleep. I have taken now two bottles and am so well I can do all kinds of work."—Mrs. LIZZIE HINKLE, Salem, Ind.

If there is anything in your case about which you would like special advice, write freely to Mrs. Pinkham. She can surely help you, or no person in America can speak from a wider experience in treating female ills. Address is Lynn, Mass.; her advice is free and always helpful.

FOR \$5000! If we cannot forthwith produce the original letters and signatures of these testimonials, which will prove their absolute genuineness. Lydia E. Pinkham Med. Co., Lynn, Mass.

Life is the laboratory of religion. A man begins to go down the moment he ceases to look up. Beauty is skin-deep, and few have thick skins. Storekeepers report that the extra quantity, together with the superior quality of Defiance Starch, makes it next to impossible to sell any other brand. God's holiness is the keystone of the bridge between earth and heaven. The decision for the right is always more difficult than the doing of it. Mrs. Winslow's Soothing Syrup. For children teething, soothes the gums, reduces inflammation, stops pain, cures whooping cough, cures colic, cures all the ailments of infants. Ridicule has torn down more than it has ever built. Straight character cannot come out of crooked living. Debt is the hangman's noose around prosperity. Dealers say that as soon as a customer tries Defiance Starch it is impossible to sell them any other cold water starch. It can be used cold or boiled. Many Trees in Books. It is stated that nine of the most successful recent novels aggregated a sale of 1,000,000 copies, and the paper which these books were printed on was made from pulp for the most part. Now pulp paper means the destruction of many trees in the great forests of the north, and probably 5,000 were sacrificed for these novels. It would have been better, the Springfield Republican thinks, to have left 4,999 of the trees standing, and put the other one into a composite modern agony. Fruit acids will not stain goods dyed with PUTNAM FADELESS DYES. Conscience Money. A strange case of bad conscience is reported from Lexington, Ind. A man there has just received a check for \$5 from a man in Washington, and in the accompanying letter the man states that about twenty years ago he lived next to him and stole three of his geese. No charges were ever brought and no suspicion was attached to him, but he claimed that he had been unable to sleep well recently, as a flock of geese haunted his dreams wherever he went to sleep, and he thought that it must be because he had never paid for the geese he had stolen years ago. FITS. Permanently cured. One of the most successful cures for epilepsy is the "Fits" cure. It is a simple, safe, and reliable remedy. It is sold by all druggists. The commutator who runs may read if he succeeds in catching his train. A man has no business with religion who has no religion with his business.

### SCENES INCIDENTAL TO FORMATION OF NEW REPUBLIC OF PANAMA

President Roosevelt has recognized the de facto government of Panama and served notice on Colombia that the peaceful traffic of the world across the isthmus shall no longer be disturbed by a constant succession of unnecessary and wasteful civil wars. This action is taken to mean that the isthmian canal is to be constructed and at Panama, and that the new republic will continue and be under the protection of the United States, as Cuba is.

The recognition of the de facto government is not a formal recognition of the republic of Panama. It is for the protection of American citizens and property. The provisional government is the only government there and the American consul will deal with it.

The message sent to Minister Beaure at Bogota is significant. Colombia's sovereignty on the isthmus will be again recognized when its rule has been re-established by peaceable methods but not by war.

Secretary Hay instructed Minister Beaure to say to Colombia that the president "holds that he is bound, not merely by treaty obligations but by the interests of civilization, to see that the peaceful traffic of the world across the isthmus of Panama shall no longer be disturbed by a constant succession of unnecessary and wasteful civil wars."

Colombia will not be allowed to make war to regain possession of the isthmus. If it can secure possession by peaceable means it may do so, but the United States warships will not permit an attack on the new government.

While it is true that the recognition of the provisional government is only conditioned on its ability to maintain the little domain it holds at Washington that the new republic will be of a permanent character. The new government will continue for about four months, when the isthmian congress, yet to be formed, will be called upon to form a government.

It will then be in order for ministers to be appointed between the United States and Panama, which will constitute full political recognition of the latter state. A treaty will be made with it, and under that treaty a new concession for the canal will be secured.

It is admitted that there may be necessarily some limitations on the independence of the new republic, because of its intimate relations with this government, the same as were fixed in the Cuban constitution by the Platt amendment. The necessity will be greater because of the necessity for the United States to have control of the canal and the entrances to it, including the cities of Colon and Panama.

To Acting Consul General Ehrman at Panama a message has been sent from the State Department on much the same lines as the one dispatched to Minister Beaure. When satisfied that a de facto government exists the consul general is instructed to enter into relations with it for the protection of citizens of the United States and the maintenance of traffic across the isthmus.

Consul Gudger, who has been on leave of absence at his home at Asheville, N. C., has left for Colon. Rear Admiral Coghlan, who commands the isthmian, sailed on the President's yacht, the Mayflower, his own battleship, the Olympia, being laid up for repairs at the Norfolk navy yard.

On his arrival at the isthmus Rear Admiral Coghlan will assume command of the United States naval forces until relieved by Rear Admiral Glass, who, as the former's senior, will be ranking officer on his arrival from Acapulco, with the ships Marblehead, Concord and Wyoming and the collier Nero.

From Commander Delano of the Dixie a message has been received announcing the officer's arrival at Colon, the landing of an adequate force of marines from his ship, and the recall of the bluejackets from the Nashville.

Commander Hubbard cabled that the isthmus from one side to the other was in the hands of the revolutionists. This statement is of the greater importance, showing a disposition on the part of the Colombian government toward the new republic of Panama becomes of little importance, for it is practically impossible for it to go to war with Panama.

Officials familiar with the country declare that it is impossible to move a Colombian army overland to the isthmus owing to the character of the country. On the other hand, if an attempt is made to bring troops either to Colon or Panama by water the United States naval officers at those points will interfere.

New Governor at Colon. The government of the republic of Panama has appointed Senor Porfirio Melendez civil and military governor of Colon, pending the appointment of new officials. Gov. Melendez has notified the old officials that they may remain at their posts for the present if they swear allegiance to the new republic. He has also notified the steamship agents that Colombia ports on the Atlantic are closed to all arrivals. This refers only to their nonacceptance of troops from coast ports.

A steam launch was sent to capture Bozas del Toro in the interest of the new republic. No difficulties are expected there.

The new republic doubtless is firmly established. There are no Colombian troops on the isthmus, and satisfaction is expressed everywhere over the new order of things. American employees of the railroad and others have been armed with rifles and revolvers supplied by the United States cruiser Nashville. Together with the latter's men the volunteers presented a bold front to the Colombians who were threatening the lives of Americans.

Panama Respects Treaties. The French foreign office has received a dispatch from the French consul at Panama confirming the dispatches from that city and from Colon. The consul says: "Colon has followed the course of Panama and is passing into the hands of the revolutionists. The transfer followed extended negotiations between the Colombian troops and the revolutionary element. This culminated when the Colombian troops surrendered and immediately embarked. The change occurred without bloodshed."

"The United States gunboat Nashville and the transport Dixie, with 450 American marines, are co-operating with the railroad company in maintaining order."

Another dispatch from the consul says: "Federico Boyd, Jose Aralain and Tomas Arias, representing the provisional government, have communicated to the consuls of the foreign powers that the new state has been constituted."

"The Province of Cauca shows no sign of revolution, nor has the revolution thus far spread to other provinces."

"The new state assumes all the former treaty and legal obligations of Colombia."

The last information is regarded by the officials here as being most important, showing a disposition on the part of the new Republic of Panama not to repudiate the canal or other property rights acquired from Colombia.

The city of Panama has a population of about 35,000, and is the capital of a department of the same name. Strange to say, the department, which now has begun a fight for autonomy, was also independent of Colombia from 1859 to 1861. It has an area of 31,571 square miles and a population of 290,000. Panama City, the chief town of the district, is the seat of a large export and transit trade. It was burned by Morgan's buccaniers in 1671 and rebuilt on its present site in 1673. The present outbreak follows the rejection by the national senate at Bogota, the capital of Colombia, of the treaty with the United States for the building of the interoceanic canal, and the people of Panama department resent this action as being extremely hurtful to their interests, both industrial and commercial. They strongly favor the treaty with the United States, and now have declared their intention of procuring the construction of the canal by this government.

A serious outbreak in the department of Bolivar is also reported. The district affected is near Baranquilla, and commands the mouth of the Magdalena river. This is a strategic point of great importance, and its capture by the insurgents would greatly hamper the Colombian government, which would be compelled to detach troops from the Panama district to meet the outbreak. The whole country is in a highly feverish state, the clique at Bogota who control affairs is mercenary and bent on making all they can out of "gratia" to make all they can out of the canal concession, and the fall of President Marroquin, who only assumed power in 1900 as the result of a revolution, may be looked for at any time.

### MARSHALL FIELD AND CO'S WAREHOUSE MANAGER Cured of Catarrh of Kidneys by Pe-ru-na.

HON. JOHN T. SHEAHAN, OF CHICAGO.

Hon. John T. Sheahan, who has been for seventeen years manager of Marshall Field & Co's wholesale warehouse, and is corporal 21st Regiment Infantry, U. S. A., writes the following letter from 2753 Indiana avenue, Flat Six, Chicago, Ill.

Peruna Medicine Co., Columbus, Ohio. Gentlemen—Last summer I caught a cold which seemed to settle in my kidneys and affected them badly. I tried a couple of kidney remedies largely advertised, but they did not help me any. One of my foremen told me of the great help he had received in using Peruna in a similar case, and I at once procured some. "It was indeed a blessing to me, as I am on my feet a large part of the day, and trouble such as I had affected me seriously, but four bottles of Peruna cured me entirely and I would not be without it for three months salary."—JOHN T. SHEAHAN.

Mr. Jacob Fleig writes from 44 Sumner avenue, Brooklyn, N. Y.: "I am now a new man at the age of seventy-five years, thanks to your wonderful remedy Peruna."—Jacob Fleig.

Catarrh inflammation of the mucous lining of the kidneys, also called "Bright's disease," may be either acute or chronic. The acute form produces symptoms of such prominence that the serious nature of the disease is not once suspected, but the chronic variety may come on so gradually and insidiously that its presence is not suspected until after it has fastened itself thoroughly upon its victim.

At the appearance of the first symptom Peruna should be taken. This remedy strikes at once at the very root of the disease. A book on catarrh sent free by The Peruna Medicine Co., Columbus, O.

The stock broker is usually in touch with his customer's purse. Hundreds of dealers say the extra quantity and superior quality of Defiance Starch is fast taking place of all other brands. Others say they cannot sell any other starch.

You cannot pray to your Father while you are flaring on preying on your brother. Stops the Cough and Works Off the Cold. Laxative Bromo Quinine Tablets. Price 25c.

Mummy Found in Colorado. The discovery of the mummy of a cliff dweller was made last week by Mrs. Jeannette R. Newcomer, wife of John Newcomer, assistant state attorney of Chicago, in an excavation made by her in a burial village in the Grand canyon of the Colorado. The mummy was taken to Chicago and is now at the Newcomer home. It will probably be given to a local educational institution. The mummy is said to be the most perfect of its kind ever found. It is that of a man about five and one-half feet tall. On one side of the head there is a mass of soft brown hair. All of the teeth are perfect. The lower portion of the body was wrapped in a coarse sackcloth. The right leg below the knee had crumbled away.

Kipling's Destroyed Writings. Kipling throws a great deal of his work into the waste basket, but it is some time since any of it went into such a receptacle owned by some other person. He feels that, having won reputation, it is his duty to write up to it. On one occasion, when in a heroic mood, he destroyed a whole book. The title of this unborn work was "Forty-five Mornings." After it was finished he asked Robert Barr to read it. "As good as 'Plain Tales,'" said Mr. Barr's verdict. "Not better," said Kipling. "I don't think it is," answered Barr. "Then it will never be published," was Kipling's unexpected reply, and it was destroyed forthwith.

The babyless go-cart is not yet in vogue. HAPPY DAYS. When Friends Say "How Well You Look." What happy days are those when all our friends say, "How well you look." We can bring those days by a little care in the selection of food just as this young man did. "I had suffered from dyspepsia for three years and last summer was so bad I was unable to attend school," he said. "I was very thin and my appetite at times was poor, while again it was craving. I was dizzy and my food always used to ferment instead of digesting. Crossness, unhappiness and nervousness were very prominent symptoms. "Late in the summer I went to visit a sister and there I saw and used Grape-Nuts. I had heard of this famous food before, but never was interested enough to try it, for I never knew how really good it was. But when I came home we used Grape-Nuts in our household all the time and I soon began to note changes in my health. I improved steadily and am now strong and well in every way. I am back at school, able to get my lessons with ease and pleasure and can remember them too, for the improvement in my mental power is very noticeable and I get good marks in my studies which always seemed difficult before. "I have no more of the bad symptoms given above, but feel fine and strong and happy, and it is mighty pleasant to hear my friends say: 'How well you look.'" Name given by Postum Co., Battle Creek, Mich. Look in each package for a copy of the famous little book, "The Road to Wellville."

WANTED—10 MEN IN EACH STATE to travel, make calls and distribute literature and samples of our goods. Salary \$50 per month; \$5 per day for expenses. KUHLMAN CO., Dept. C-4, Atlas Block, CHICAGO.

THRIFTY FARMERS are invited to write to the state of Maryland, where they will find a delightful and healthy climate, pure air, and abundant supply of food and recreation. Map and descriptive pamphlets will be sent free. H. BADENHOOP, Sec'y State Board of Immigration, BALTIMORE, MD. When Answering Advertisements Kindly Mention This Paper. W. N. U., Omaha, No. 46—1903.
