Weeping Water

From the Republican.
Born to Mr. and Mrs. Wm. Kennedy, a nine pound boy, Sunday, November 22, 1903.

Miss Josie Katen, who has been spending the summer here with relatives, left for her home at Hemmingsford, last Wednesday.

Mrs. G. E. Young, out northeast of town, while handling a gun Tuesday evening was accidentally shot in the foot. As no bones were broken, the wound is not considered serious.

Leo Tighe, the sixteen-year-old son of John Tighe, of Manley, is husking ninety bushels of corn a day this fall. Can any boy beat this record? Let's hear from our boys on the farm.

John Parish, an old-time resident of Weeping Water, passed through town Tuesday morning on his way to his home in California. He and his family have been visiting his parents at Auburn.

Edwin Richards has sold his town residence to Troy L. Davis, who gets possession in a short time. Mr. Richards will move onto his farm at Washash and will become a tiller of the soil once more.

The switch engine was two hours late out of Weeping Water Saturday evening. There was no coal in the chutes, and they had to wait till a car of coal coming on an evening freight was run up into the chutes and unloaded.

Mrs. Murphy of Manley has been in very poor health for the past few years, and last week at one time she was thought to be dying. Mrs. Murphy is advanced in years and her friends are very much pleased at a decided turn for the better in her condition at present.

L. Lacey and Tom Jameson have completed a barn 24x48 for Tom Cromwell, also the finest hog shed in the county. The latter is 18x64 feet, and is boarded up, covered with tar paper, and sided on top at that. It has a single roof and the brood sows will have a room which will be accommodated with a stove. Mr. Cromwell has 300 head of cattle in his feed lots and stock fields. About 250 head of hogs follow the cattle. He will have to buy 10,000 bushels of corn after feeding his home grown crop.

One of the most peculiar cases the doctors of this vicinity have ever had came under their notice in the case of Mr. Chas. Murphy, living north of town. A few weeks ago Mr. Murphy's jaw began paining him. He went to a number of physicians, among them being Dr. Allison, of Omaha. The physicians lanced his throat and his face, under his eye, and all of the time did not understand what was causing the trouble. A few days ago a grain of wheat came out at one of the openings, which the physicians say worked into a salivary gland sometime when Mr. Murphy was chewing a mouthful of wheat. The wound is healing rapidly now, and Mr. Murphy feels that he is almost entirely recovered.

Wallace Philpot, who was kicked on the knee by a horse recently, was in town Saturday, and says it works much easier.

Since placing their new dust collector in the City mill, the managers say they have increased their capacity, and also the quality of the flour.

Mrs. Olander is very sick with appendicitis. Her two daughters living in Denver have been sent for. Dr. Hungate has been attending the case the past few days.

A number of the friends of Mr. and Mrs. Chris Robertson paid them a farewell visit Sunday last. The couple leave Saturday for a winter's visit to Denmark, their old home.

Born to Mr. and Mrs. Will Kennedy Saturday, November 21st, an 8 1/2 pound boy. Will immediately paid off the corn husker he had employed, and was surprised later to find the new one laid in bed while he hustled around and did the chores.

Fred Race writes from Texas, that the yellow fever is so prevalent in many parts of the state, that it is much

like traveling in Russia. A certificate is required before entering a town to show that he has not come from an infected district, and also badges are worn. He has had to skip many towns on account of the epidemic.

Dr. Jensen reports that in his opinion farmers should be very careful this year, that the corn stalk disease is going to be quite prevalent, and he has been called to attend cases already. About the only thing possible to do for an animal after it has the disease, and has reached a comatose state, is to dig a hole and bury it.

Last Wednesday Mrs. John Ruge of Avoca, while preparing to scrub, placed a large pan of hot water on the floor, and while her attention was turned to something else her little two-year-old boy backed up against the pan and tumbled in. The child's flesh was terribly burned and although Dr. Brendel was quickly summoned and all care possible given, death ended his sufferings Friday. The parents are almost heart broken as he was their only child. The funeral was held Sunday at 1 p. m.

Fred Young says he wouldn't have us tell a lie for a thousand grains of corn, and calls attention to a little mistake in our figures last week. His ear (of corn) counted 1,254 instead of 2,254, just a printer's mistake of one figure.

Mr. and Mrs. H. D. Travis came from Plattsmouth yesterday, going to Weeping Water for the Thanksgiving dinner with friends. Their train from here was about two hours late, but that didn't take away Mr. Travis' appetite for turkey.

B. G. Watkins is very busy with his patent corn husking machine, and had only two seconds to devote to the solution of Ann's age, but he settled it in half that time. His answer is that Ann is a little older than her younger brother. Right you are, B. G., go up head.

Congratulations to the happy parents, and Charlie please forward two Colorado cigars.

T. J. O'Day came down from Nehawka on the noon train Wednesday, not particularly to meet his friends—the fellow he wanted to see was not even an acquaintance of his. He was looking for the burglar who entered the O'Day residence some time Tuesday night and stole therefrom as much clothing as he could carry away. Mr. O'Day hoped to get track of the burglar by watching the trains here, but his efforts were without success.

Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out.
Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scaling pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

RECTOR OF ST. LUKE'S

Ashburnham, Ontario, Testifies to the Good Qualities of Chamberlain's Cough Remedy.

ASHBURNHAM, Ont., April 18, 1903.—I think it is only right that I should tell you what a wonderful effect Chamberlain's Cough Remedy has produced. The day before Easter I was so distressed with a cold and cough that I did not think to be able to take any duties the next day, as my voice was almost choked by the cough. The same day I received an order from you for a bottle of your Cough Remedy. I at once procured a sample bottle, and took about three doses of the medicine. To my great relief the cough and cold had completely disappeared and I was able to preach three times on Easter day. I know that this rapid and effective cure was due to your Cough Remedy. I make this testimonial without solicitation, being thankful to have found such a God-sent remedy. Respectfully yours,
E. A. LANGFELDT, M. A.,
Rector of St. Luke's Church.
