Our nimrods have bagged scores of cottontails and jack rabbits since the snowfall of last week. Will Coglizer killed fifty-six in one day and several good shots have bagged as many as twenty-five in one day. Elton Woods killed nine in about as many minutes.

The editor was the recipient of thanks from a Cass county citizen last week for a kindly notice written in memory of one who departed this life. It is the first time in our experience such work has been remembered in this way. It did not cost a cent, there was no charges, and now we know the flowers are better appreciated when you receive them personally.

Mary Hingate received an ugly gash on the right eye brow Sunday, that required a couple of stitches to close. She was in a bob sled with several others going home from Sunday school and Charlie Gibson was driving. At the railroad track the runners struck the rails, the tongue pulled out and sudden stop threw her forward, striking the brake handle. The wound bled profusely.

Frank J. Davis has sold an interest in his clothing store at this place to Frank Lewis, of Iowa City. The latter arrived Monday, and now they are busy invoicing. Success to Frank J. Davis and Co., may the business continue to flourish.

Andy Sturm's family lunched Sunday of the biggest turkey that was ever butchered in this town. It weighed 38 pounds.

It will be remembered that Claude fell under the cars and his hand was cut off. Mr. Johnson did not find the claim agent, as he was in St. Louis.

A young man in our vicinity belonging to a good family stole a pair of shoes a few nights ago from the hotel. The hustling landlord got after him a day or two later and got the shoes back. It is learned since that a gold watch chain and some other things were missed about the same time, and it is supposed the same young fellow got them. Out of respect for his parents he was not arrested; but if something of this kind happens again, we serve notice on him now, he will get a term in the county jail.

At a meeting of the officers of the district Grand Army Reunion association held at Lincoln last week Elmwood was decided upon as the place for holding the next district reunion. Tax payers who are of the opinion that the Louisville bridge bonds were all taken up will doubtless be surprised to know that there still remains six bonds of \$1,000 each to pay. The bridge was built in 1890 and on March 1, 1900, we paid the first bond of \$1,000 and one each year from that date, the fifth will be paid the first of next March when we will have paid off one-half the indebtedness, the tenth annual payment not falling due until March 1, 1909.

**Perfect Confidence.**  
Where there used to be a feeling of uneasiness and worry in the household when a child showed symptoms of croup, there is now perfect confidence. This is owing to the uniform success of Chamberlain's Cough Remedy in the treatment of that disease. Mrs. M. J. Bastford, of Pooleville, Md., in speaking of her experience in the use of that remedy says: "I have a world of confidence in Chamberlain's Cough Remedy for I have used it with perfect success. My child Garland is subject to severe attacks of croup and it always gives him prompt relief." For sale by all druggists.

**PROFIT**  
The matter of feed is of tremendous importance to the farmer. Wrong feeding is loss. Right feeding is profit.

The up-to-date farmer knows what to feed his cows to get the most milk, his pigs to get the most pork, his hens to get the most eggs. Science.

But how about the children? Are they fed according to science, a bone food if bones are soft and undeveloped, a flesh and muscle food if they are thin and weak and a blood food if there is anemia?

Scott's Emulsion is a mixed food; the Cod Liver Oil in it makes flesh, blood and muscle, the Lime and Soda make bone and brain. It is the standard scientific food for delicate children.

**Send for free sample.**  
Be sure that this picture is the form of a light in the wrapper of every bottle of Emulsion you buy.

In a country school the teacher sought to convey to her pupils the idea of the use of the hyphen. She wrote on the blackboard—birds-nest—and pointing to the hyphen, asked the school: "What is this hyphen for?" One of the little boys raised his hand and said: "Teacher, it is for the bird to roost on."

The boy stood on the burning deck, The sparks fell down his little neck, His trousers soon burst into flame, And that's what made the boy so lame.

**Created Wealth.**  
Something from nothing—a garden from a desert. Such is the history of irrigated sections. Take land that sells for fifty cents an acre, put water on it, and it sells for—what? There are quarters of land in irrigated sections of Colorado that cannot be purchased for \$20,000 and which earn a remunerative interest on that valuation. And yet you can purchase irrigated lands where the soil is perfect beyond belief, where the water supply is plentiful and inexhaustible, where climatic conditions are healthful and exhilarating, where fuel is abundant and cheap, for from \$15 an acre up.

The reasons: The North Platte Valley, extending from Bridgeport, Neb., to Guernsey, Wyoming, and the Big Horn Basin, Wyoming, have been but recently made available for settlement by the extension of the Burlington railroad into those sections. The Irrigating Companies must have settlers along their ditches and they offer substantial inducements in the shape of low priced water rights and lands.

How long will this condition continue? None may say surely, but it won't be for long, and the sooner you invest the cheaper will you be able to do so, for the advance is just as sure as has been the advance in the price of similar lands in other sections. For further information write to J. Francis General passenger agent, Burlington Route, Omaha.
