PARKER'S SPEECH

Esopus, N. Y., Aug. 10 .- Judge A. B. Parker was today notified of his nomination for president by the Democratic national convention. The speech of notification was made by Champ Clark and the speech of acceptance by the nominee was as follows

Mr. Chairman and Gentlemen of the Committee:

I have resigned the office of chief First Ward Ed Fitzgerald, F. W. Ebinger Judge of the court of appeals of this Second Ward. Frank Buttery, W. C. At the very threshold of this re-

sponse and before dealing with other subjects, I must, in justice to myself and to relieve my sense of gratitude, express my profound appreciation of the confidence reposed in me by the convention. After nominating me and subsequently receiving a communication declaring that I regarded the gold andard as firmly and irrevocably esblished, a matter concerning which felt it incumbent upon me to make nown my attitude so that hereafter man could justly say that his suport had been secured through indiction or mistake, the convention diterated its determination that I hould be the standard bearer of the arty in the present contest. This ark of trust and confidence I shall ver esteem as the highest honor that ould be conferred upon me-an honor iat, whatever may be the fate of the impaign, the future can in no deree lessen or impair.

Liberty, as understood in this country, means not only the right of freedom from actual servitude imprisonment or restraint, but the right of one to use his faculties in all lawful ways, to live and work where he will and to pursue any lawful trade or business. These essential rights of life, liberty and property are not only guaranteed to the citizen by the constitution of each of the several states, but the states are by the Fourteenth amend-

SUMMARY OF CROP CONDITIONS

Blight Strikes the Spring Wheat Crop in the Northwest.

Washington, Aug. 10.-The weather bureau's weekly summary of crop conditions is as follows: Over the central and western portions of the corn belt corn has advanced favorably and continues promising. In the upper lake districts lack of warmth and absence of rain have checked growth, the crop being generally backward.

Fine weather for threshing prevalled over most of the winter wheat belt, harvesting of winter wheat having been completed in the more north-

erly districts. Reports of rust in spring wheat continue general in the Dakotas and in portions of Iowa and Minnesota and indicate that the crop has been greatly damaged, except in Minnesota, where only a portion of the area has been affected, a good crop being promised in other portions of that state. Harvesting is in progress in South Dakota and southern Minnesota, but has not begun in North Dakota, where the crop is ripening slow'y.

Harvesting and threshing of onts have continued under favorable conditions. Rust is reported in the more northerly sections and has proved very injurious in North Dakota and portions of Minnesota,
