FALL OF A GRIZZLY BEAR.

Without Warning a Tractable Beast Kills His Trainer.

A distinct type of a zoo regent is the beast that goes wrong owing to accidental temptation, like Shaggy, an exceedingly intelligent, tractable Rocky mountain grizzly who reverted to savagery and turned man killer in a twinkling owing to the unfortunate misstep and fall of his trainer. Shaggy was a big, handsome, gray old fellow, with a jungle thick coat and a lumbering, awkward gait and a funny twinkle that made him particularly adaptable for his part of clown in a remarkably trained group of fourteen bears. He had come under the hands of his trainer when but a helpless cub, had never lost his liking for caresses and, although the mightiest beast in the collection, was least suspected of being dangerous. Once when a striped hyena lung to the ankle of his friend he had run to the rescue, had cut loose right and left with his ponderous fore-paws and had bitten and torn and mangled the ugly beast to death before he could be beaten off. Among his accomplishments were that of turning admirably grotesque somersaults and the more difficult feat of balancing himself on his hind legs on a three foot wooden sphere. Not a scratch or a scar had his trainer to show for the years of work he had put in with the bear, and yet, without an instant's warning, this same beast attacked and injured his master so that when rescued he was semicomatose and so dreadfully cut and lacerated that the surgeons decided it useless to try to save his life.—McClure's Magazine.

ADOPTING A BABY.

Methods of the Society in Charge of the Tots in New York.

It isn't easy to get a baby for adoption from the organization which has charge of them in New York. On receipt of the application a blank is sent back containing some twenty printed questions, to be filled out by the would be parents and a request for three references. If the answers are satisfactory, further blanks go to the persons referred to, asking information on the applicant's character and circumstances, and reliable citizens of the neighborhood are privately consulted. Then the agent comes and inspects the family. If the home seems a good one, a baby as near the requirements as possible is sought. There is even an attempt to select a suitable temperament—a placid baby for a nervous woman or one who is not bored by attention. Every one calls for curly hair of course, and blue eyes are much in demand, but the new mother generally forgets all her specifications when she is confronted with the living candidate. The baby is taken to the home by the agent, who leaves written directions about food and care and comes back twice a year to note progress. Frequent reports are encouraged, and even after the child is legally adopted the society tries to keep in touch with it. The motive for this is of course scientific as well as humane.—Juliet Wilbur Tompkins in Everybody's Magazine.

FOLEY'S KIDNEY CURE Makes Kidneys and Bladder Right

TRADE REVIEW FOR THE WEEK.

Improvement is noted in the Business World.

New York, Aug. 13.—R. G. Dun & Co.'s Weekly Review of Trade says: Moderate improvement in mid-summer means more than an equivalent increase at any other season and the better trade reported during the past week is consequently most encouraging. Dispatches from all parts of the country are by no means uniform, in some cases the outlook showing no change, while at a few points there have been setbacks, but on the whole the improvement is unmistakable. Two labor controversies are particularly harmful, but others have been settled. The Fall River strike is partially broken and general threatened difficulties have been averted. Despite some injury to spring wheat, the agricultural prospect is very bright, while higher prices promise to neutralize the effect of such loss in quantity as occurred. Interior buyers have placed liberal fall orders in the leading dry goods markets, and confidence in a large spring trade is becoming general. The approaching presidential election is viewed with more equanimity than any other contest of recent years, both in financial and industrial circles. Not earliness of the railways are making favorable comparisons owing to the reforms made possible by preceding years of liberal expenditures. Agricultural implement works are preparing for a brisk fall trade, the railways are placing more orders for equipment and a better tonnage of structural steel is moving. Failures this week were 222, against 174 last year.

PACKERS DECLINE PROFFER.

Mayor Harrison's Intervention Plans Are Blocked.

Chicago, Aug. 17.—The packers sent a committee to Mayor Harrison and informed him it would do no good to arrange a joint conference with the strike leaders. The committee contended that the packers had already won the strike and had no reason to meet the strikers. The packers told the mayor that he should consider that they controlled Chicago's greatest industry and had such vast interests at stake that they could not be dominated by their employees; that they wanted to be fair; that prices of meat had not been raised and would not be raised because of the strike; that they could not accept anybody's intervention.

Cloudburst at Leadville.

Leadville, Colo., Aug. 13.—A cloudburst in the hills east of Leadville caused several thousand dollars damage here. A wall of water four feet high came down Strayhorn and California gulches, sweeping everything before it. The Kyle & Decker zinc mill was washed away. Stores were flooded and goods in the cellars were ruined. Much of the eastern part of the city was undermined, and a portion of the ground caved in. A crack almost a foot wide extends for several blocks in the thickly settled part of the city and several houses were damaged slightly. There is danger that this portion of the city will settle so seriously as to render it permanently unfit for residence purposes.

Rioting at Kansas City.

Kansas City, Aug. 13.—Two innocent persons were injured during a pistol fight between union and non-union packing house men near the Armour plant. C. F. Meade, a Missouri Pacific railroad clerk, was shot through the back and is in a serious condition, and John Mitchell, a negro, was wounded in the leg. A number of non-union men were leaving the plant when they were attacked by a crowd of strikers and their sympathizers. Stones were thrown, followed by shots. Meade, who was at work in the railroad yards a block away, and Mitchell, who was sitting on his front porch, 100 yards distant, were struck by stray bullets. Two union men were arrested.

Bryan Loses \$50,000 Bequest.

New Haven, Conn., Aug. 13.—A decision adverse to W. J. Bryan in his contest over the will of the late P. S. Bennett was handed down by the supreme court of errors after an all day session. The decision virtually denies that Mr. Bryan is entitled to the \$50,000 mentioned in the sealed letter written by Mr. Bennett and addressed to his widow, to be read by her after his death. By this letter the widow was asked to give \$50,000 to Mr. Bryan and his family. The decision sustains the opinion given by the superior court in the case last spring and also the decision of the probate court, before which the matter was brought up.

Meteor Strikes the Earth.

Meadville, Pa., Aug. 13.—A meteor, taking a northerly direction, struck the earth somewhere near Concord station, thirty-five miles east of this city. A terrific explosion accompanied the contact with the earth, followed by a high wind lasting fifteen seconds. Erie trainmen from Salamanca to Union City, eighty miles, saw the great light, which lasted from five to ten seconds. The explosion shook buildings in Titusville, twenty miles away.

Young Hess Arrested.

Lamar, Mo., Aug. 17.—George Hess, eighteen-years-old, was arrested on suspicion of having shot his parents, Mr. and Mrs. George Hess, at Irwin Sunday. Young Hess bought a pistol Saturday. He insists that he is innocent. Mr. and Mrs. Hess were shot as they lay in bed. Both are still alive.

Wm. Kirmse, a member of the bridge gang working near Littleport was taken suddenly ill Thursday night with cramps and a kind of cholera. His case was so severe that he had to have the members of the crew wait upon him and Mr. Gifford was called and consulted. He told them he had a medicine in the form of Chamberlain's Colic, Cholera and Diarrhoea Remedy that he thought would help him and accordingly several doses were administered with the result that the fellow was able to be around next day.
