Pickpocket Captured.

Sheriff McBride, of Cass county, was in the city yesterday, and when he returned to his home last night he took with him John E. Welsh, the man charged with picking the pocket of William Lefler of Elmwood of \$60. The robbery is alleged to have taken place near Walton on a train approaching Lincoln. Lefler ran the pickpocket across the country, but did not succeed in catching him. A short time afterwards Welsh was picked up on the state fair grounds by John De Long special agent for the Missouri Pacific railroad, who has been watching for him, and who knew him by descriptive When Sheriff McBride started to take Welsh last night the prisoner demanded to see the warrant on which he was being held, but the sheriff had none. Then Welsh refused to be taken from Lincoln, but the sheriff put him in irons and started away with him, promising to show the warrant after reaching Plattsmouth.—Lincoln Journal.

Sheriff McBride arrived the same evening with the prisoner, since which time Welsh has been languishing behind the bars. The charge against him is larceny from the person, and is a penitentiary offense. The prisoner claims he is innocent of the charge, but there has been no preliminary hearing yet to decide his guilt or innocence, and we are unable to say when it will be held.

Wreck Near Pacific Junction.

About five o'clock yesterday morning a wreck occurred just west of Pacific Junction, which blocked the roadway for several hours. It appears the engine of a western bound freight was engaged in doing some switching at the Junction and had placed a string of box cars onto the main line, and while waiting for a switch to be turned an extra eastbound engine and way-car run into it with a crash. Besides both engine being badly wrecked several cars were derailed.

The fireman (Pierce) of the extra, in jumping to avoid the collision, landing into a creek some twenty feet below, and was quite badly bruised by the fall. He was brought to the Perkins House in this city, and is receiving the attention of Dr. Livingston, who says he is getting along nicely, no bones being broken. The brakeman (Hook) had one of his shoulders injured as a result of being thrown from the car, while Conductor Davis's received a few slight bruises.

A wrecking crew, composed of a force from local car department went over to assist in clearing away the wreck.

Several trains were run by the way of Omaha and Council Bluffs. However the wreck was cleared for the traffic soon after dinner.

There was quite a heavy fog and this to a great extent seems to have been the cause of the crash.

I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." F. G. Fricke & Co.

Contemplated Improvements.

For some time it has been rumored that several handsome residences would be erected in this city but we have failed to learn anything definite until within the past few days.

Mr. E. A. Holyoke, who was until recently the manager of the Holdrege farm, near Louisville, has become the owner of Fitz's Forty on Chicago avenue, for several years past owned by C. C. Parmele. Mr. Holyoke, we understand, will commence the erection of a residence thereon immediately, and that H. C. McMaken has already commenced on the excavating. It will be a two-story building, 26x40, and containing all the modern improvements.

C. C. Parmele recently purchased the Stoutenborough and Beach properties on north Sixth street, and the Journal is informed that the buildings thereon will be removed and a new, up-to-date residence erected for Mr. Parmele's future home. If Charlie has concluded to make this his permanent home we'll bet he will put up a house that will excel anything in the residence line in Plattsmouth.

We learn of several other contemplated changes that will result in substantial improvements, but we are not at liberty to mention any names at present.

Educational Opportunities.

The Nebraska Business College, of Omaha, Neb., is one of the greatest institutions of its kind in the west today. The excellent equipment is new in every particular, and the recent additions to the faculty have served to strengthen the standing of the institution. This catalogue is one of the finest ever put out by any commercial college in the west. It is bound in alligator, elegantly printed, profusely illustrated and should find its way into the homes of all our readers. See advertisement on page five of this issue and write at once for their illustrated catalogue, kindly mention the Journal.

The pills that are potent in their action and pleasant in effect are DeWitt's Little Early Risers. W. S. Philpot of Albany, Ga., says: "During a bilious attack I took one. Small as it was it did me more good than calomel, blue mass or any other pill I ever took and at the same time the effect was pleasant. Little Early Risers are certainly an ideal pill." Sold by F. G. Fricke & Co.
