An incident has just come to our notice, which shows that trading at home is the best plan at all times and under all circumstances. Just before Christmas a lady of this city sent to a Chicago department store for six books for Christmas presents, paying fifteen cents each and thirty-five cents express, or \$1.25 for the lot. A day or two ago she found the same identical books in one of the stationery stores marked two for 25 cents. Now had this woman traded at home she would have saved fifty cents on a \$1.25 purchase, and besides showed a disposition to help build up the town in which she lives. But such is life.

**A Venerable Custom.** Most of us follow the old, good custom to make a resolution at the tide of the old into the New Year, usually promising to ourselves to abstain from some habit which, we believe, retards our aspiration for success in life. Some keep this promise, others forget it in a few days. Let us all resolve, to do our share toward the welfare of our nation and let us resolve, to preserve our health and strength by using Triner's American Elixir of Bitter Wine in order to be able to fulfill the first resolution. This Bitter Wine, composed of rich, red, wine and herbs, has a decided effect on the digestive system and on the formation of new blood. As soon as the stomach will refuse food, which always was readily accepted, the time for using Triner's American Elixir of Bitter Wine has arrived: as soon as your sleep will become disturbed or unrefreshing, as your ambition will decline, as your eyes will lose their lustre, or as your complexion will become pale or yellow, this remedy will positively help you. At drug stores. Jos Triner, 799 So Ashland Ave., Chicago, Ill.

## ...Stock Food...

All stock raisers admit that the feeding of a reliable brand of stock food is a paying proposition, especially at this time of the year. The stock food should be of the best, in order to get best results. Above all things it ought to contain a tonic for digestion and a laxative to regulate the bowels, especially when the stock is on dry feed. We carry on hand the following brands, which contain the above valuable properties, and we think they are the three best foods on the market:

**Pratt's Stock Food**  
**International Stock Food**, 3 feeds 1 cent  
**Hess's Scientific Compound**, 5c a lb in 100-lb lots  
**Hess's Poultry Panacea**, a guaranteed egg-producer
