Against Patent Medicines.
"Collier's Weekly had a shocking drawing—a skull, from which on one side flows poison, on the other crude alcohol into bottles of patent medicines, distributing death among the poor classes. We often called the attention of our readers to the fact, that neither poison nor alcohol should be contained in a family remedy. Whenever it becomes necessary to overcome a slight indisposition, loss of appetite and bodily weakness, Triner's American Elixir of Bitter Wine should be employed. It is a true household remedy, made of pure wine and bitter herbs, which has a decided effect in all maladies of the stomach, in nervousness, in poorly nourished blood. Indorsed by leading physicians who have thoroughly tested it, indorsed by thousands of families who have been cured with it. Guaranteed not to contain any poison, any drug, any addition of alcohol. At drug stores. Jos. Triner, 799 So. Ashland Ave., Chicago, Ill.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

This builds up and strengthens the entire system, overcomes and cures indigestion, dyspepsia, belching, sour stomach, etc. Sold by F. G. Fricke & Co. and Gering & Co.

A Live Two-Headed Calf.
Edward Mitchell, manager of the W. J. Davenport fruit farm just southeast of Glenwood, reports the birth yesterday of a genuine two-headed calf. It is a little brown fellow, and is a mixture of Holstein and Jersey. On account of the great weight of its head the calf is unable to stand on its feet and receive nourishment in the customary way, but every effort will be made to have it live. It will be fed warm milk from a bottle until it gains strength enough to stand up. The two heads are joined together near the eyes and through the center. There are two hungry mouths, two noses, four eyes, two foreheads, but only two ears. The two inside eyes are not perfectly formed. Mr. Mitchell will no doubt soon be receiving letters from museums and side show managers wanting to secure this queer freak of nature. Possibly Mr. Mitchell may tour the country himself. The calf should be on exhibition in Glenwood at the next market day, June 17.—Glenwood (Ia.) Tribune.

SYSTEMIC CATARRH SO LITTLE UNDERSTOOD

Claims Many Thousands. A Tragedian's Thanks to Pe-ru-na.

ROBERT DOWNING, THE FAMOUS TRAGEDIAN.

In speaking of Peruna, Robert Downing, the famous tragedian, says: "You may notice that persons in poor health always find the heat most intolerable; this I avoid by using Peruna. I know by the thermometer that the weather is hot, yet I have felt the heat less this summer than ever. I find Peruna a preventative against all sudden summer ills that swoop upon one in changing climates and water. It is the finest traveling companion and safeguard against malarial influences. The cooling action of Peruna on the mucous membrane makes it invaluable to actors and singers, as it does away with that tendency to sudden hoarseness so apt to overtake one on emerging from a hot dressing room to a draughty stage. To sum it up Peruna has done me more good than any tonic I have ever taken."—Robert Downing.

Dr. Hartman was the first physician in the United States to accurately describe systemic catarrh. His remedy, Peruna, the only systemic catarrh remedy yet devised, is now known all over the civilized world.

Write for a copy of Dr. Hartman's latest book, entitled, "Chronic Catarrh." Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.
