The New Wonderland Beyond Cody.

A new wonderland is now open to the hunter, fisherman and summer tourist—magnificent scenic region between Cody, Wyo., and Yellowstone Park. The Burlington has made practically half rates for summer trips from all points on its system to Cody and return, the gate way to this country.

From Cody west, the new road follows the north fork of the Shoshone River to Marquette, the location of the great government dam now under way for the storing of the waters of the Shoshone for irrigating 200,000 acres of Big Horn Basin lands. West of Marquette, two log cabin inns have been built by Col. Cody for the accommodation of tourists, one at Wapiti, 38 miles from Cody, and another at the Pahaska Tepee, at middle fork, 64 miles from Cody; from Middle Fork to Lake Hotel, Yellowstone Park, is 32 miles—the road crossing the Rockies at Sylvan Pass in the midst of some of the grandest scenery of the entire Rocky Mountain chain. The new region to be opened offers probably the finest trout fishing in the world, and, in season, ample elk and other game shooting.

The development of this country has been the work and pride of Col. Bill Cody, whose permanent home is at the Irma Hotel, Cody, Wyoming. Probably the most easiest and most natural way to arrange for a tour through this new region is to go direct to Cody, where all arrangements can quickly be made for the coach journey over the route, sojourning at the different log cabin inns, or for camp outfits, horses, teams, mules, guides and everything of this kind.

The Burlington has a special descriptive folder of this locality on the press, copies of which can shortly be obtained of the Burlington Agent.

For Your Protection

We place this label on every package of Scott's Emulsion. The man with a fish on his back is our trade-mark, and it is a guarantee that Scott's Emulsion will do all that is claimed for it. Nothing better for lung, throat or bronchial troubles in infant or adult. Scott's Emulsion is one of the greatest flesh-builders known to the medical world.

We'll send you a sample free.

SCOTT & BOWNE, 409 Pearl Street, New York.

The First district, outside of Lancaster, with a population of about one-eleventh of the state, has one-eighth of the senators. A comparison of the figures shows that the apportionment in the senate is more nearly equal than in the house. The six outside counties have fourteen representatives and four senators, or eight-eighths of the 133 members, or nearly 14 per cent, while they have but 9 per cent of the population. They have almost a seventh of the membership of the house, while but about an eleventh of the population of the state.

The trouble of being a candidate would make an interesting title for a work Judge Holmes might issue; when Judge Holmes won out in the Lancaster district convention it was not as a candidate of the Burlington. In that convention the Burlington element was impotent to accomplish what it desired, and after trying every plan was forced to choose between Holmes and Frost.

When he made up his delegation Judge Holmes took care to select, aside from his personal friends, men experienced in political warfare, who would be able to give advice that would be worth something. On the list were also a number of men who have been active in politics locally on behalf of the Burlington. When he got to Falls City one of the handicaps against him which he ran was the charge that his was a delegation of railroad men. When these railroad men tried to do any work for him, they were met by orders with the smiling assurance that their attitude was well understood, that it was known they were merely ostensibly working for Holmes and did not want him. On the Johnson county delegation were a number of men who usually work with the Burlington in that county. Some of these absolutely refused to believe that the Burlington men on Holmes' delegation were sincere in advocating his nomination. Candidate Allen told one of these men that he knew Holmes beat the Burlington fellows out in Lancaster county and that he believed the road did not want him. When assured that it was no longer a question of what the road wanted, but of the nomination of Holmes, he refused to believe that the men were in earnest in asking Johnson county to support him. In short, there were delegates who decline to have anything to do with Lancaster or its candidate because of the number of railroad men on the delegation, as they put it, and others who are usually counted upon to help out the Burlington who refused to do so because they were personally convinced that the road, because it was not for him in the Lancaster convention, did not want him nominated.

Yellowstone Whiskey

BOTTLED IN BOND.

THE BEST WHISKY is the Cheapest in the End!

Poor Whisky is not only disagreeable to taste, but undoubtedly injurious to the stomach. A little good Whisky is a fine tonic and helps instead of harming. Such Whiskies as Yellowstone, for instance, will do you just as much good as a doctor's prescription. If you don't know how good it is come in and try it.

PRICES:

Guckenheimer Rye, per gallon	\$4 00
Yellowstone	4 00
Honey Dew	3 00
Big Horn	2 00

Recommend PARACAMPH as a Most Reliable First Aid to the Injured.

Many people in this city are injured daily, and oftentimes serious results follow simply because the injury was not properly cared for in the beginning. It is not always possible to secure a physician at a moment's notice. Many deaths are caused by negligence and delay. Blood-poisoning often results from bad cuts, gun shot wounds, etc., because the wound is not properly treated promptly.

Paracamp is a simple, inexpensive remedy which every family should keep in their homes every day; every factory, manufacturing plant and large institution should keep Paracamp near at hand. It is conceded by medical authorities to be a most reliable, relieving, soothing and healing agent. It not only stops pain quickly, but it heals wounds without leaving ugly scars and absolutely prevents blood-poisoning.

Paracamp is truly a home remedy and every bottle is guaranteed to be pure, safe, clean, and to do exactly what is claimed for it. If you do not keep Paracamp in your home, get a bottle today. It is just as necessary in your home as good soap and water.

You will find it excellent for quickly relieving Rheumatism, Neuralgia, Sore, Tired Feet, Skin Troubles, Catarrh, or any form of Swelling or Inflammation.

Sold only in 25c, 50c and \$1.00 bottles by all good druggists.—The Paracamp Company, Louisville, Ky., U. S. A.

THE SWEETNESS OF REVENGE

Lincoln Politicians Indulge in Threats to Reduce Legislative Representation.

(From the Lincoln News.)

The fight begun by the outside counties, by which is meant the counties in the First district outside of Lancaster county, is to be carried on. The Lancaster county republicans politicians do not take kindly to the doctrine that nobody from Lincoln shall have the honor of representing the district in politics. They intend to give Mr. Pollard earnest and cordial support, and will send him out of Lancaster with the usual party majority. But there are other ways of playing even, and one of them is now in process of incubation.

"We don't propose to allow ourselves to be eliminated in this manner," said a member of the legislation delegation from this county, "without striking back. This can be done in an effective way. Hereafter Lancaster may be depended upon to aid North Platte and western Nebraska people in their efforts to get a legislative reapportionment. The southeastern portion of Nebraska has been playing the hog, just as they accuse us of doing, only their efforts have been in the way of getting more members of the legislature than they are entitled to. The present apportionment of legislative members was made away back in 1882, and notwithstanding the plain mandate of the constitution, the southeastern part of the state has been able to block all efforts to reapportion the state so that the representation may be fair. The last time this matter was up Lancaster was offered three additional members if she would join with the counties discriminated against, but loyalty to her political relatives in the First district, which, outside of Lancaster, would be hardest hit, kept her in line. We owe them no obligation except that of playing even, and if I am in the next legislature I shall help the good work. If I am not there are others who will do so."

The constitution provides that there shall be a state census every ten years, five years after that of the federal government and that at no other time than in the session immediately following such enumeration shall the reapportionment be made. This provision has not been obeyed in the taking of a census or the reapportionment of the state. It is claimed by good lawyers that this reapportionment can be made at any session where the preceding ones have failed to do their duty, and that the inhibition of "no other time" than immediately succeeding an enumeration is meant only as a limitation upon the number of times it can be done.

Practically all of the "outside counties" would be hit by a reapportionment, losing in the aggregate eight or ten members, possibly more. It is pointed out by those who have been investigating the matter that gross inequalities exist. Adams county with 18,840 population has a representative and a half, while Pawnee county, with 11,170 population, has two. Richardson with a population of 19,614 has three representatives, while Buffalo with 20,354, has but two. Otoe with a population of 22,238, has two and a half representatives, while Madison with 16,796, has but one. Nemaha, with a population of 14,952, has two and a half, while Phelps, with 10,772, has but one. Cass, with a population of 21,330 has two and a half representatives, while Custer and Logan with 20,718, have but one, Johnson with a population of 11,197, has one and a half, while district No. 53, consisting of Sheridan, Box Butte, Dawes and Sioux, with a population of 19,875, has but one.

Equally unjust, it is claimed, are the differences in the senatorial districts.

State Fair News.

Improvements on the State Fair grounds are well under way.

A new poultry building 60x110 feet will be built on the site of the present building. A part of the present building will be retained for the exhibition of poultry appliances, such as incubators, brooders, etc.

The contract for the new administrative building 38x90 feet has been let. The building will be of cement blocks, and will occupy space near the present headquarters building.

The present amphitheatre will be extended 160 feet to the west, thus adding fifty per cent to its seating capacity. The infield has been leveled and seeded and the track is in first-class condition.

A bid to erect the new live stock pavilion for \$9,439 has been accepted and the building will be ready for use at the opening of the fair. This building is to be 95x110 feet, built of cement blocks and brick, and will be the most expensive and imposing building on the grounds. It will probably be located immediately south of Merchants Hall, midway between the cattle and horse barns, one of the most slightly locations on the grounds, and in full view of the thousands of people who daily pass the State Fair grounds over the Burlington, North-Western and Rock Island railroads.

The State Fair premium list is now ready for distribution and may be had by addressing Secretary State Board of Agriculture, Lincoln, Nebraska. State Fair dates are September 1 to 8, 1905.
