Light for the City.

Work is being pushed as rapidly as possible on the new gas plant being installed by the Nebraska Lighting Company. The main tank is being built just north of the electric power house. It will have a capacity of 210,000 gallons of water and 25,000 cubic feet of gas. The system which is being installed is what is known as the Lowe water gas plant. Crude petroleum oil is used instead of coal for making the gas. 2100 feet of 6-inch pipe is on the street and is being put under ground at a depth of four and one-half feet. For the present the pipe will run only from the tank to Main street and up Main street to Sixth. From this main line branches can be run out as demand arises. The company expects to be ready to supply the business houses with gas by the first of August.

The Kind of Bride to Possess.

A couple was married in Auburn last week, in which the groom was successful in securing a Dollar-bride, at least that was the name of the young lady—Miss Ada Dollarbride. The circulating medium which will follow this marriage will no doubt be legal tender just the same. A Dollar-bride is a good thing to have around.

School Funds Apportioned.

Superintendent Wortman this week apportioned the moneys derived by the state from the rental, sale, and leases of public lands of Nebraska which was added to by some local lines and licenses. The total amount was \$8371.62 which is separated into two funds, a one-fourth fund and a three-fourth fund. The smaller one of these is divided among all the districts equally giving them \$21.03 each to whole districts. The larger amount is prorated among the districts in proportion to the number of pupils shown in the last school census. This gave each district a little more than eighty five cents per pupil. The Plattsmouth school district therefore leads the list with Weeping Water second and Louisville third. The amounts respectively are \$1542.78, \$420.68 and \$290.88. The smallest amount apportioned to any district is to district 30, near Cedar Creek, the school population being the smallest of them all. They received \$34.63.

Lincoln News: Chairman Teegarden and Secretary Clapp have opened headquarters at Lindell, and will be in active charge after this week. Some criticism has been heard locally because both chairman and secretary were selected from the same county as the candidate. Yes but the criticism don't stop at that. The greatest criticism in this county is the fact that Pollard has chosen a man for chairman who is the least qualified to carry on a campaign of any republican in Cass county. He was elected assessor two years ago by a fair majority over a man who had rendered himself very unpopular in the democratic ranks, and ever since then he has had to wear an iron band around his head to keep it from bursting with the big-head.

Huge Task.

It was a huge task to undertake the cure of such a bad case of kidney disease as that of C. F. Collier, of Cherokee, Ia., but Electric Bitters did it. He writes: "My kidneys were so far gone, I could not sit on a chair without a cushion; and suffered from dreadful backache, headache, and depression. In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach." Guaranteed by F. G. Fricke & Co., druggists; price 50c.

Dying of Famine

is, in its torments, like dying of consumption. The progress of consumption, from the beginning to the very end, is a long torture, both to victim and friends. A Happy Surprise.

While attending the funeral services of Miss Alma Goos on Tuesday afternoon Chas. Chassett and Conrad Schlatter chanced to be standing close together, when a conversation naturally occurred, during which they hit upon their native land. It was soon learned that both came from Germany and were born in or near the same town in the Fatherland, and that their families were well known to one another. Both seemed surprised that they had lived in Plattsmouth so long and never learned this before. Mr. Schlatter has lived in Cass county for forty years, and Mr. Chassett has lived in Plattsmouth for twenty years. The former has been a resident of this city for the past ten years, and the two have met frequently but knew one another only by sight. It was a happy surprise, and will result in a more friendly acquaintance in the future. May they enjoy many hours in reviewing the scenes of their childhood in the old Fatherland.
