FRANCIS W. BROWN

The Democrats Nominate Lincoln's Popular Mayor Amid Great Enthusiasm.

A BROAD-MINDED AND LIBERAL BUSINESS MAN!

Off for His Nomination.

The congressional convention that sembled in the First district. Every county was fully represented with the fully represented. All the delegates to represent the county were imposition. present except two-Mayor Gering of this county, and Lee Oldham of Murray-both of whom failed to get there on account of the train being late at this place, which also failed to make connection with the Lincoln train at Omaha. Otoe was out in full force, and then some, and was represented by such sterling democrats as Vincent Straub, Frank Marnell, R. H. Miller represented by the veteran democrats, Shrader, Frank Laughlin, Frank Massie and Herman Pankonin.

It would seem that as the delegates come to Lincoln for one purpose only -to nominate Francis W. Brown for congress-and as the convention was bear was so great that he finally yielded to their demands. This is the man and not the man the office.' ed mayor of the capital city only a few months ago.

He is honest, conscientious and a gentleman who would do his duty as a representative of the First district. While there is a large majority to overcome, when a comparison is made between the two candidates the people will decide in favor of Mayor Brown. Following is the platform adopted by the convention, and unlike the platform adopted at Falls City, it is explicit in every detail. It says what it means on the free pass question and does not confine the question to officeholders especially but it means to abolish the free pass system in its system in its entirety. If it is wrong for mankind would have to the railroads to favor one class with passes it is certainly also wrong to favor all classes, and that is just what the Lincoln platform means:

The Platform.

We, the democrats of the First congressional district of Nebraska, in convention assembled, send greeting to the Nerraskans whose duty it will be to select a representative in congress July

We reathrm our faith in democratic principles as enunciated by Thomas flerson and defended by William J.

We condemn the free pass system. We demand not only that public officials be prohibited under heavy penalties from accepting such favors, but that the entire free pass system be abolished. The free pass to the public official places him under obligation to the corporation extending the favor. The free pass to individuals generally not only enlarges the burdens upon the general public in maintaining the cor-poration, but tends to bring the private citizen accepting the favor under the political control of the corporation
