The Statesman is the name of a new paper just established at Greenwood by A. Veatch of the Havelock Times. The two papers bear the same appearance except in name. A man may run two papers successfully, but we have always found it that one was all we could attend to properly. Greenwood is a good town and ought to have a first-class paper, and we hope the Statesman will fill a long felt want.

They have many friends here who are delighted to see them after an absence of over 20 years.—Shreve, (Ohio) News.

The Evening Journal is a new venture over at Plattsmouth. We have very serious doubts whether Plattsmouth will support two dailies or not, and to our mind it is a question of the survival of the fittest. However, if the boys want to soak their good dollars in ventures of that kind it is none of our business, and we can heartily wish the new venture unbounded success. The Bates family are good newspaper men and will make a daily paper pay if anyone can.—Weeping Water Republican.

A farmer living near Murray was in town yesterday. He has just started to harvest his wheat crop and says it will make at least thirty-five bushels to the acre.

Some people who seem to be so much interested in saloon affairs are simply working for a little cheap notoriety—that's all. Morality and temperance should always begin at home, before attempting to sweep other people's door yards.

Three thoroughly overhauled mail cars were turned out of the shops today. They are just as good as new in every particular and in some respects are superior to any cars now in the mail service. They are lighted throughout by electricity. The cars will be put in service on trains Nos. 1 and 6.

The local Burlington officials say the freight car question is getting serious again. In the present instance there is a superabundance instead of a lack of cars as is usually the case.
