CLEMENTINA GONZALES,
OF CENTRAL AMERICA,
RESTORED TO HEALTH.
PE-RUNA THE REMEDY.

Miss Clementina Gonzales, Hotel Provincial, Guatemala, C. A., in a recent letter from 247 Cleveland Ave., Chicago, Ill., writes:

"I took Peruna for a worn-out condition. I was so run down that I could not sleep at night, had no appetite and felt tired in the morning.

"I tried many tonics, but Peruna was the only thing which helped me in the least. After I had taken but a half bottle I felt much better. I continued its use for three weeks and I was completely restored to health, and was able to take up my studies which I had been forced to drop. There is nothing better than Peruna to build up the system." --Clementina Gonzales.

Don't Forget Your Friends.

The following is from a Missouri farmer's address before a farmers' institute: "As a rule the farmer knows no firmer friend than the country press. The home paper is distinctly the farmer's own paper, supported directly or indirectly by the farmers who compose the backbone of the printer's subscription list, and largely for what the enterprising merchant advertises. Now, brothers, let us not forget our friends. Let us see that our subscription is paid before the first of January, and a year in advance if we can afford it. The man or the paper that fights my battles shall have my support. Another thing, the merchants who advertise are the ones who make it possible for us to get a good local paper; and the men or firms who are too penurious to advertise and help support the local press have no right to the farmers' patronage. I propose hereafter to go to a good, live, local advertiser, and a man who will do his share in supporting the local press, thus contributing to my support, rather than buy of the man who proposes to take all and give nothing in return."

There appears to be no material change in L. G. Todd's condition, and it is doubtful if he recovers, as there are other ailments besides the injuries he received two weeks ago. At intervals he appears to be gaining a little, but an occasional sinking spell almost shatters the prospects of his recovery.

The school building is being put in good shape for the next term of school, and Bert Carter and John Ross have been engaged several days plastering and cleaning up. L. R. Upton and Abe Rupley have been doing the new tin work, and with the papering that is to be done the building will be in good shape.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Jim Schwab shelled and delivered over 3800 bushels of corn, for which he received per bushel 45 and 45 cents, and the check called for \$1,755. Mr. Schwab has several hundred bushels of corn left. He had expected to feed his cattle, but concluded that the price of cattle was getting too low to feed at the price corn was worth, and marketed them sooner than he had intended.
