

THINK OF IT!

This Pretty Matron Had Headache and Backache, and Her Condition Was Serious.

PE-RU-NA CURED.

MRS. M. BRICKNER.

99 Eleventh Street, Milwaukee, Wis.
 "A short time ago I found my condition very serious. I had headaches, pains in the back, and frequent dizzy spells which grew worse every month. I tried two remedies before Peruna, and was discouraged when I took the first dose, but my courage soon returned. In less than two months my health was restored."—Mrs. M. Brickner.

The reason of so many failures to cure cases similar to the above is the fact that diseases peculiar to the female sex are not commonly recognized as being caused by catarrh. Catarrh of one organ is exactly the same as catarrh of any other organ. What will cure catarrh of the head will cure catarrh of the pelvic organs. Peruna cures these cases simply because it cures the catarrh.

If you have catarrh write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis. Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

Numerous and Worthless.

Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co. of Chicago discovered some years ago how to make a salve from Witch Hazel that is a specific for Piles. For blind, bleeding, itching and protruding Piles, eczema, cuts, burns, bruises and all skin diseases DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. The Union schools opened last week with Miss Mary Foster principal, Mrs. Nettie Turner intermediate and Miss Nina Lynde primary. The enrollment is 97, there being 28 in the principal's room, 32 in the intermediate and 37 in the primary. The enrollment is below what it should be—in fact the per-

cent of attendance ought to be 100, but the blame for non-attendance must rest upon the parents who do not see to it that their children are kept in school. With this excellent corps of teachers and the faithful co-operation of all the patrons, we have reason to expect splendid results from this year's school work.

J. I. Looker, seemingly, had visited Fulton's blacksmith shop and had one of his elbows "pointed" and was so pleased with the result that he concluded to "drill" a hole into one of the plate glass windows of F. P. Sheldon's store. He succeeded in doing the right thing to the window by "drilling" a comfortable hole in said glass. Some said a stone had been thrown through it, while others contended that a bullet had been fired through it. Anyhow a little hole and a paralyzed glass was the result, and Jim ordered a new "pane" to fit the aperture.

INNOCENT OF THE CRIME

Planning to Secure the Release of Mrs. Lillie from the Penitentiary.

Recent developments, it is claimed, show that a concerted effort will shortly be made to secure the release from the state penitentiary of Mrs. Lena Margaret Lillie, the Butler county woman who is serving a life term for the murder of her husband. It is understood among the friends of Judge Hamer, her attorney, says the Lincoln News, that he contemplates a further appeal to the supreme court for a rehearing hoping to secure a reversal on the ground of newly discovered evidence and prejudice in the minds of the jurors. Still another phase of the campaign for the woman's rehabilitation is the sympathy which has been aroused for her condition. This sentiment is being disseminated at a rapid rate by the visitors to the penitentiary, particularly those from out of town. When they leave the woman's ward, in nine cases out of ten, it is with a feeling that the matronly looking woman is not guilty of the crime of which she was convicted.

The growing feeling that the woman is not guilty is expected to serve as the basis for a free pardon, as soon as there is a change of administration. It has been intimated pretty strongly that an appeal to Governor Mickey would be fruitless as long as the case bears such recent impress of the supreme court's refusal to act. However, it is regarded as a certainty that he will not aspire to a third term and from that fact it is assumed that a new executive will be in office. To him the appeal for clemency will be made, it is said, and by that time, eighteen months hence, the federation of women's clubs is expected to be arrayed in support of the petition. As the time of the commission of the crime fades into the past the horror which was felt subsides, and the feeling of compassion for an alleged victim of circumstantial evidence grows much stronger.

Mrs. Lillie, the prisoner, spends much of her time sewing for various patrons outside of the prison walls. In nearly every instance, it is stated, these persons are firm believers in her innocence. Some of them are influential club women and help the movement along. No action in the shape of an appeal to the governor is anticipated, however, until the case is again laid before the court. Judge Hamer has kept his plans to himself, but the state's legal representatives are firmly convinced that he intends to make another effort to secure the attention of the supreme judges.

Recent reports from David City indicate a considerable variance in public opinion. It is said that the sentiment in favor of Mrs. Lillie is developing and the feeling against her is losing some of its bitterness as time passes. An argument that is doing service in her behalf is to the effect that the relatives of the murdered man do not believe her guilty, and that their attitude is strong evidence of her innocence, since they are those most severely aggrieved by the crime, and the ones least likely to forgive the criminal.

Pending further developments in her case, Mrs. Lillie continues to enjoy considerable liberties at the prison and is frequently seen outside the walls walking for recreation and exercise.
