Baking powders made from alum, phosphates and other harsh, caustic acids are lower in price, but they are injurious to the stomach.

"The injurious effect of alum on the mucous coat of the stomach is positive and beyond dispute; it is both an irritant and an astringent. The use of alum in any article of food or article used in the preparation of food should be prohibited."

J. M. Gardner returned from Illinois Tuesday evening. He reports that his daughter, Leah, who has been very sick with typhoid fever, is recovering now as fast as could be expected, but still very weak. The other members of the family where she is staying, who were sick, are also mending.

Last Sunday night George Oberle's saloon was broken into and about \$12 was taken from the cash register. Entrance was made by cutting the glass in the door and then taking the screws out of the lock. Venner's store was also entered and two of the cash drawers were broken off the counters and about 75 cents in small change was taken. Wm. Norris' blacksmith shop was also broken into where the burglars got some tools to assist them in their work. Mr. Venner thinks they must have entered his store while he and his family were at church for he has a night alarm on the door but heard nothing of it during the night. He had locked the door and left the key in the lock. Monday morning he found the door closed, but unlocked. It is not quite a year ago that this same place was visited by burglars. Mr. Oberle authorizes us to express his thanks to the gentlemen (?) for not blowing his safe as there was no money in it anyway.

Deafness Cannot be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed. Deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars.

CLERK BOARD OF HEALTH SAYS PERUNA HAS BECOME THE FAMILY MEDICINE OF THE WORKING PEOPLE IN HIS CITY.

Mr. C. D. Taylor has been Clerk of the City Board of Health, Jacksonville, Fla., for ten years, which position has afforded him amply opportunity for noting the best means of preventing and curing disease.

He expresses his approval of the use of Peruna as the most effective means of solving a problem of such vital interest to the community in the following letter:

"The health of the poor of a large city is always a question of vital interest, not only to the city officials but to every citizen. It has been a source of much satisfaction to me to find that so large a number of working people in moderate circumstances have accepted Peruna as their family medicine. It has cured a large number of cases especially of catarrh of the head, lungs and stomach and building up the general health it cannot fail to prove a help and blessing to any community where it is generally adopted and used. I have found it an honest, reliable remedy and am pleased to endorse it."—C. D. Taylor.

A Puzzler.

Here is something propounded by the Kingfisher, (Okla.) Free Press that is harder than "How old is Ann?" We have, right here in Kingfisher, a most unusual case of intermarrying. Two brothers marrying two sisters is not an ordinary happening, but it sometimes occurs. In this case the mother of the two girls married the father of the two boys. The two girls and the two boys finally settled the pleasant arrangement by marrying each other. What kin are they? Didn't those boys marry their sisters and didn't the girls' mother marry their father-in-law? Is the mother the girls' mother-in-law? The mother step-mother and mother-in-law to the boys.
