NEWS OF THE RAILROADS

Patrons of the Missouri Pacific Demand a Better Track.

RECENT ACCIDENTS AROUSE FEELING.

The condition of the track and roadbed of the Missouri Pacific lines in Nebraska is bad, says the Lincoln Journal. Sentiment of patrons along the line is said to favor some move being made by the company to make conditions better and to do as much at once. It is asserted that wrecks are of daily occurrence, almost, and that while few of these have been disastrous to life or have caused great damage to patrons, the delay in the service is such that the people have reason to protest.

Yesterday two slight wrecks were reported. One was between Bethany and Walton and the other near Murray. Neither accident caused much damage, but because of the wreck near Walton traffic on the line was delayed for several hours. This wreck was caused by the track giving away under a freight train. One car left the track and blocked the line. One report from the Murray accident said it was due to a broken car journal, while another said the track gave way.

In Nehawka and vicinity public sentiment against the company is strong. The coroner's verdict relating to the recent wreck at Nehawka censured the company and laid the blame for the accident on the condition of the bridge and track. Two men were killed in that wreck.

It is understood that representations along this line have been made to officials of the road in this state and that an organized effort may follow to get improvements said to have been needed long ago.

It is said that the company has a gang of about 100 Armenians at work near Walton, surfacing and leveling up the track. It is said that many of the ties are rotten and should be replaced.

A Voluntary Death.

It took a long time before the British government was able to suppress the common habit of India, to allow widows to die a voluntary death by being cremated with the body of their husband. Even the poor subjects of this horrible superstition tried to uphold it. We can hardly believe it, although seeing persons around us every day who voluntarily shorten their lives by neglecting the warning of nature. A change in the appetite, a slight feeling of discomfort are such warnings, being the usual forerunners of a disease. Triner's American Elixir of Bitter Wine will speedily put the whole body in perfect working condition, will make the digestive organs strong enough to accept and digest all food. The digestive system in natural activity means a life saved. Persons pale, weak, tired; those having a bad taste in the mouth, sour eructation, bad appetite, eruptions and any disorder of digestion will find in Triner's American Elixir of Bitter Wine the only reliable and most pleasant remedy. At drug stores. Jos. Triner, 739 So. Ashland Ave., Chicago, Ill.

Look Out for Him.

Chief of Police A. E. Bargren of Rockford, Illinois, has advised the police of all the principal towns and cities of Nebraska to look out for a confidence man who goes by the name of John Hoover and a number of other aliases. He is said to be a very skillful man and real estate dealers and money loaners are his usual victims. His method of procedure is said to be about as follows: He selects a farm for sale some distance from the county seat and opens negotiations with the farmer to buy it. He secures a loan of the abstract of title and gets an impression of a notarial seal by having a power of attorney certified to. He then goes to the county seat, has the borrowed abstract examined, gets a

real estate man or two interested and through them secures a loan on a forged deed to the property for which he has the abstract. Then he leaves town, leaving the money loaner holding the sack.
