

It takes a brave man to stand up to the rack and take his medicine uncomplainingly.

"PLATTSMOUTH first, last and all the time," should be the motto of every man and woman who make Plattsmouth their homes.

Now that the election excitement has about passed away let us buckle down to business and work for the best interests of Plattsmouth.

THE Journal is pleased to note that Judge McCarty has been re-elected in Nemaha county, and that W. W. Wilson has been elected judge in Otoe county.

MORE trouble in the Philippines. That is about all we are likely ever to get for the six or seven hundred millions of dollars the islands have already cost us.

STANDPAT Republican organs keep on talking about the "race problem." The only race problem that exists in the south is whether the negroes do the work and earn the wages that are offered them, or whether the work and the wages are to go to people of the white race.

SECRETARY TAFT says there isn't a word of truth in the rumor that he is going to quit the Cabinet to run for President. There is nothing better, though, than a denial of a false rumor now and then to keep alive a suggestion which might otherwise die for lack of nourishment.

NO MATTER who is elected today the Journal feels that it has done its duty to the democratic candidates without making one misstatement pro or con. We also feel that, in regard to the opponent candidates, the Journal has been free from abusing any one on the republican ticket.

If the democrats are going to nominate President Roosevelt in 1908, as many republicans now claim, the wisdom of Eric Johnson's recent political move will be apparent, providing he stands hitched till that time. For fifteen years or more Eric has been a populist, but recently flopped over to the republicans—making two republican papers now at Wahoo.

THE Council Bluffs Nonpartisan claims that a rarity in the animal world in the form of an albino opossum, was captured in a common steel trap a few nights since by William Manhood, living about 8 miles northeast of that city. The animal is pure white and has pink eyes. It is about half grown, has already become quite a pet and is as safe to handle as a cat or dog.

EVEN the big newspaper men sometimes see visions and have their pipe-dreams. Walter Wellman, correspondent of the Chicago Record-Herald, comes out in a statement that a "prominent Democrat" told him that the Democratic party would in 1908 nominate Roosevelt as their candidate. He adds that they will do this in advance of the Republicans, and thus not only take the wind out of the latter's sails but compel them to endorse their candidate.

Two republican "Roosevelt" factions met in Chicago a few days ago in different rooms. They had to meet in different rooms, because one crowd locked the other out. One faction endorsed Roosevelt and his railroad rate plan; the other endorsed Roosevelt and damned the railroad rate plan—and there you are. The representative from Cass county acted with the faction that damned the president's plan. It reminds one of what may be expected when congress meets to give us railroad rates.

JUDGE HARVEY D. TRAVIS,

Re-elected County Judge by a plurality of six votes.

THE OFFICIAL COUNT OF THE VOTES

The official count of the ballots which was completed at 4 o'clock this afternoon, shows that Judge Travis' majority was six—as was reported. Only two errors were found. In Mt. Pleasant, McBride gained four votes and in the Fourth ward of Plattsmouth he lost ten votes.

THE Journal expected to give the official vote of the county in this issue, but the result of the official count was not declared in time to enable us to do so.

Otoe county democrats fared remarkably well this year. They elected W. W. Wilson judge, Chas. Busch clerk, John Donovan sheriff, Henry Festenau commissioner, and C. W. Pierce surveyor.

THE citizen who spends money with home merchants when he has it can rely upon being accommodated when he is without means to pay for what he needs. Will the Omaha merchants do this?

W. E. ROSENCRANS, county clerk-elect, while in the city today was greeting his friends in the same manner that he did before election. "Rosey" will be the same with the people when he takes charge of the office.

ONE of the hopeful things indicated in Tuesday's election is the fact that it is getting easier for men to scratch their ticket than formerly. When the people reach the point that they will vote for men rather than for party, there is hope for the country.

THE result in Cass county shows that people are no longer voting the republican ticket simply because Roosevelt is at the head of the nation, as some of the hide-bound henchmen would have them do, and tried so hard to work up a sentiment to this end.

SAUNDERS county elected the entire fusion ticket last Tuesday, except coroner. Wonder if the selling out of Joe Lahpelle at Ashland and the flopping of Eric Johnson of the Wahoo New Era brought about this result? It certainly has that appearance, as both have been publishing populist papers until quite recently.

THE Nebraska City News truthfully says that the business of a town should take lessons from the bees, and when it is found that there is a drone in the commercial hive, manage in some way to get it out of the way. One chronic grumbler or scallawag of a storekeeper in a town can drive away trade from the place.

THE corn crop is so big that the farmers are going to have a hard time to get it in. Some of the men who have been actively engaged in political work during the past few

months, might now turn their attention to corn gathering to a very good advantage.

NEWS OF THE RAILROADS

Burlington Engineers Secure New Agreement From the Company—First Since Strike of 1888.

The brotherhood of locomotive engineers has secured a new agreement with the Chicago, Burlington & Quincy railroad company—the first agreement made by this company with the engineers since the great strike of 1888. The agreement became effective on November 1. Discussing this an engineer said to the Lincoln Journal:

"This is the first agreement we have been able to make with the company, although the road has been organized for three or four years. When the organization of the engineers on the road began there was some disposition on the part of minor officials to block the plan, but something from higher circles soon cooled their ardor and the men learned that there would be no objection to organization. The work went along quietly until now nearly every engineer on the lines in the west belongs to the brotherhood.

"The agreement does not bring an increase in wages. There has been a readjustment of the schedule and some men get better pay, but the men as a rule will not be benefited by the new schedule further than dealing with the men as a body by the road may benefit them.

"The agreement was secured without fear of trouble, and the relations of the brotherhood's representatives and the company's officials have been friendly. The brotherhood did not insist on an increase in the rate of pay."

New Missouri Senator Declares His Fealty to the President's Domestic Policy.

STANDS FOR RATE REGULATION

Believes in Protection but, Unwielded to a Schedule—Governor Hoch's Warning Against Corporations.

Kansas City, Nov. 9.—United States Senator Elbert Warner, the first Republican to be elected the senate from Missouri since Carl Schurz in 1869, was tendered a farewell banquet at the Midland hotel in this city. Six hundred Republicans from Missouri and Kansas attended, and toasts were responded to by several prominent politicians of this state. Gardiner Lathrop, of Chicago, general counsel of the Atchison, Topeka and Santa Fe railway, acted as toastmaster. Senator Warner spoke to the toast, "National Issues," and said in part:

Demand of the Hour. "The demand of the hour in official life is intellectual honesty; a demand for officials to act right, as well as think right; officials who how to the line of duty, as God gives the light to see their duty, letting the chips fall where they may. Today the man of all men in official life who leads the column of intellectual honesty is the president of the United States. I shall enter the senate as the personal friend of the president, as an admirer of his stalwart Americanism, and of his rugged official courage. No other president since Lincoln has trusted the people as Roosevelt trusts them, and no other president have the people trusted as they trust Roosevelt.

Approves the Rate Regulation Idea. "His efforts to secure legislation clothing the interstate commerce commission with power to insure a square deal between common carriers and shippers have my unqualified support. The rebate evil, which gives the dishonest dealer an unfair advantage over the honest one, should be driven from the channels of commerce, under the lash of the law. If this is not done it will be because the honest carriers and shippers of our country fail to co-operate with the national administration in enforcing law."

NOT BOUND TO ANY SCHEDULE

As to the Tariff and Life Insurance—Gov. Hoch's Warning.

Speaking of the recent insurance exposures Senator Warner said: "Life insurance companies are, to a great extent, the savings banks of the people, and should by legislation be placed under as strict a surveillance as national banks, and the misappropriation or embezzlement of funds by their officials should be declared to be a felony punishable by imprisonment in the penitentiary." Of the tariff question he said: "Grounded as I am in the protective tariff faith, I am not inseparably wedded to any schedule." Senator Warner declared strongly for "a navy that should be second to none in the world" and favored the admission immediately of Oklahoma and Indian Territory as one state bearing the name of Oklahoma.

Governor E. W. Hoch, of Kansas, who responded to the toast, "Kansas' Message to Missouri," said in the course of his remarks: "I want to say to you, not as an alarmist, but as a slight contributor to the American awakening, that unless we find some effectual remedy for the control of the great trusts and corporations in the interest of all people a tidal wave of socialism will sweep over this country one of these days that will do incalculable damage. It will not come to stay—if it comes at all—because its wrecks which strew the pathway of human history for 3,000 years attest the fact that it is not a stayer. To avert such a calamity, conservative corporation people as well as the wisest and the most distinguished statesmen should bend and are bending every energy."

Thomas J. Atkins, Republican national committee man for Missouri, responding to the toast, "The Responsibilities of the Hour," declared that Missouri Republicans having pitched their tents upon the field recently wrested from the dominant party in the state would never sound a retreat.

Youngster Is Hard to Kill. Kokomo, Ind., Nov. 9.—Esther, 2 years old, daughter of Mr. and Mrs. W. O. Finch, while playing in the nursery on the second floor of the Finch home, rolled out of the window to the ground below, a fall of twenty feet. Springing to her feet she ran into the house, uninjured by her experience.

His Denial Is Discredited. Benzil, Ind., Nov. 9.—Edward Gardner, 37 years old, shot himself through the lungs with an old musket at the home of his father in this city. Gardner denies having shot himself with suicidal intent, but a note was found in a book near where he was lying, in which he told his family good-bye. Physicians say he cannot survive.

Globe-Democrat His Bonanza. Standish, Mich., Nov. 9.—George Dubois, a veterinary surgeon, well known here and in various towns, has fallen heir to \$50,000 by the death of his cousin, a shareholder in the St. Louis Globe-Democrat.

Jacks and Stallions

Percheron, Belgian & German Coach Stallions Both Imported and Home-Bred. I will sell you a full blooded American-bred stallion as good as were ever shown in Europe, and better and more profitable breeders at prices from \$200 to \$1000. I have horses of all ages, 2 to 7 years old, from 1550 to 2200 in weight, all sound and good, and will, besides paying for themselves in one season, put \$200 in the owner's pocket. Many a Nebraska farmer has reached the point where he has several fine brood mares and is able to keep a nice stallion for his own and his neighbors use. Don't let the boys leave the farm; raise more horses and mules. It pays better than anything you can do. Now is the time to raise good horses. Come to the Cedar Rapids Jack Farm and buy a better stallion than you have ever seen for \$200. I also have a large assortment of HOME-CROWN JACKS and bring four importations per year from Spain. Mules three months old are selling nearly every where this season at \$100 each. W. L. DeGLOW, Cedar Rapids, Ia.
