THE TUCKER JURY LAW BURLINGTON'S NEW HEAVY RAIL LAYING

The Supreme Court Declares the Same to be Unconstitutional.

The supreme court has held that the new Tucker jury law affecting all counties outside of Douglas, Lancaster and Gage counties is unconstitutional and has denied the application of Gov. Mickey for a mandamus to compel the canvassing board of McPherson county to proceed under the law in the preparation of a jury list. The governor acted on the advice of the attorney general for the purpose of testing the law, which has been found to be so defective that it could not be applied. The opinion in the case will be filed later by the entire court.

The main defect in the statute which was offered in the legislature by Senator Tucker of Richardson county, was the provision requiring the division of the number of voters by the number of precincts in the county to obtain the quotient which was to serve as the basis for the selection of names from a list. The state legal department claimed that in most instances this resulting quotient would be a fraction and that it was physically impossible to use it in picking out the names on the list. Other features of the act were also found to be inoperative because of vagueness.

The invalidation of this act will leave the counties affected free to resort to the old law in choosing juries. Because of the uncertainty as to the act practically all criminal prosecution have been delayed in the eighty-seven counties effected, so as to permit the court to pass on the validity of the act.

During the legislative session, Tucker claimed that the jury bill was backed by the state bar association, but local members denied any responsibility. The attorney general was unable to find any precedent in other states throwing any light on the peculiar method adopted by the framers of the act in selecting the jurors.

In Memory of Former Plattsonian.

The Lincoln Journal says: "Bishop Bonacum celebrated pontifical requiem mass Tuesday morning at 9 o'clock in memory of John Fitzgerald. Father Maurice O. S. F. officiated as deacon. Father O'Brien sub-deacon, assisted by Father Shine and Father Agius. Mass is celebrated annually at St. Theresa's pro-cathedral in memory of Mr. Fitzgerald, who was for many years a prominent factor in the up-building of Lincoln, and Nebraska, and who was a staunch supporter of the church." Mr. Fitzgerald was for many years a resident of Plattsmouth and did his share toward building up this city. The Coates block, for many years called the Fitzgerald block, is one of the evidences of his enterprise while a citizen of Plattsmouth. John Fitzgerald's name will remain in the memory of many of our citizens for years to come.

grades with old rails, it would not be surprising should a great deal of new and heavier steel be placed upon the auxiliary main lines during the year to come. It is said that a system like the Burlington can always find use for its old rails, and that none of them go to the scrap pile or back to the mills until they are worn out.

Japanese in the United States.

The government of Japan sent several experts to the United States to study the handling of meat in the stock yards, wishing to induce the people to eat some beef in place of rice which forms the invariable diet there. The opposite condition prevails here, our people eating too much meat, more than the body needs and wants. This causes dyspepsia, blood diseases, nervousness and premature decline. It is true that we have here Triner's American Elixir of Bitter Wine which speedily relieves and cures all these difficulties, but still we wish to impress upon our countrymen to eat less meat, especially those not working physically or in the fresh air. Triner's American Elixir of Bitter Wine stimulates and strengthens the stomach to stand more work. It gives good appetite, a healthy sleep, a thorough digestion, strong nerves and muscles, a pure and rich blood,—perfect health. At drug stores. Jos. Triner, 799 So. Ashland Ave., Chicago, Ill.
