The management have decided that the old one is altogether inadequate to care for traffic, passenger or freight, which must pass through it every day. As soon as the arrangements can be perfected the depot is to be moved back to give more platform room, raised two feet higher from the ground and rebuilt completely, also enlarged to sufficiently and easily handle the business of the road as such a business should be handled. Mr. Skinner said "Weeping Water is one of the best business points on the system and we are going to build you a depot of which you will not be ashamed."

CHARITY HOSPITALS AND NURSES

RELY ON PE-RU-NA TO CURE COUGHS, COLDS, GRIP, CATARRH.

Charitable Institutions All

Over the United States and Canada are Curing their Patients of Catarrhal Ailments With Pe-ru-na.

WONDERFUL RESULTS EXPERIENCED—PE-RU-NA A FAVORITE MEDICINE.

From a Catholic institution in Ohio comes the following recommendation from the Sister Superior:
"Some years ago a friend of our institution recommended to us Dr. Hartman's Peru-na as an excellent remedy for the influenza of which we then had several cases which threatened to be of a serious character. We began to use it and experienced such wonderful results that since then Peru-na has become our favorite medicine for influenza, catarrh, cold, cough and bronchitis."—Sister Superior.

A Letter From Detroit.

Dear Sir:—"The young girl who used the Peru-na was suffering from laryngitis, and loss of voice. The result of the treatment was most satisfactory. She found great relief, and after further use of the medicine we hope to be able to say she is entirely cured."—Sisters of Charity.

This young girl was under the care of the Sisters of Charity and used Peru-na for catarrh of the throat, with good results as the above letter testifies.

Pe-ru-na of Great Service.
Another recommendation from a Catholic institution in one of the Central States reads as follows:

"A number of years ago our attention was called to Dr. Hartman's Peru-na, and since then we have used it with wonderful results for grip, coughs, colds and catarrhal diseases.

"For grip and winter catarrh especially it has been of great service to the inmates of this institution."—Sister Superior.

These are samples of letters received by Dr. Hartman from the various orders of Catholic Sisters throughout the United States and Canada.

The names and addresses have been withheld from respect to the Sisters, but will be furnished upon request.

In every country of the civilized world the Sisters of Charity are known.

Not only do they minister to the spiritual and intellectual needs of those with whom they come in contact, but they minister to their bodily needs.

They are as skilled as trained nurses in their treatment of diseases and are looked upon as messengers of good cheer by countless patient sufferers.

Praise From Canada.
Another prominent Canadian institution writes:

"We are happy to tell you that Peru-na has given us satisfaction.

"Three patients have tried it, one sixty-eight years old, Renouil Dupuis, afflicted with catarrh, is much relieved, more than he has been for a number of years.

"A young girl, fifteen years old, had an obstinate cough, which half a bottle of Peru-na caused to disappear.

"As to myself, two bottles have convinced me that Peru-na is magnificent as a tonic. Before the treatment I could not walk for a quarter of an hour without experiencing much fatigue. Now I can walk a mile easily.

"Through these three cases we desire to make known to the public the efficiency of your remedy."

Another letter received from the same institution reads as follows:

"Three weeks ago I wrote to tell you how satisfactory we found Peru-na. We recommend it highly for colds, coughs, catarrh and neuralgia.

"I have used it myself as a tonic with the best results, taken as directed half a teaspoonful every half hour."

A remedy that would act immediately upon the congested mucous membrane, restoring it to its normal state, would consequently cure all these diseases.

Pe-ru-na Contains No Narcotics.

One reason why Peru-na has found permanent use in so many homes is that it contains no narcotics of any kind. Peru-na is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peru-na does not produce temporary results. It is permanent in its effect.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh. There are a multitude of homes where Peru-na has been used off and on for twenty years. Such a thing could not be possible if Peru-na contained any drugs of a narcotic nature.

THE SPECIAL SESSION.

By Which Railroads Hope to Pass Laws That Will Help Them Out.

The Lincoln News says reform Republicans believe that the insistent demand for a special session emanating from Omaha is fostered by the railroads which have an interest in allowing the present corporation controlled majority of membership to trifle with the legislation demanded, rather than to allow the next session, which is expected to be thoroughly popular and representative, to act. Lieutenant Governor McGilton, whose demand for a special session is published in the dispatches from Omaha, is known as a corporation man and in the recent state convention was the active agent of the allied corporations in an effort to control that body. Representative Dodge was listed among the strong Union Pacific supporters in the last legislature.

A peculiar feature of the present demand for a special session is that it is predicated almost entirely on the need for constitutional amendments to increase salaries, provide for the investment of the school funds and to give the state an elective railway commission. No mention is made of the need for direct primary, anti-pass, and maximum freight rate laws, which were at the beginning of the agitation for a special session, the main considerations advanced. However, it is believed that the railway friends plan to consider these measures too.

The friends of the governor have announced that he would not hesitate to call a special session of the legislature should he be convinced that it would result in the legislation demanded by the people of the state. His scruples have been based on the belief that a legislature which failed to accomplish something at a regular session would fail to do anything at a special session. The governor believes in the enactment of legislation which will free the state from the grip of the railways, but he insists that the legislation shall be effective. He fears that the enactment of abortive measures would give the cause of reform in Nebraska a serious setback, greatly hampering the work of the next legislature.

Failed.
All efforts have failed to find a better remedy for coughs, colds and lung troubles than Foley's Honey and Tar. It stops the cough, heals the lungs and prevents serious results from a cold. J. N. Patterson, Nashua, Iowa, writes: "Last winter I had a bad cold on my lungs and tried at least half a dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world. F. G. Fricke & Co.

We'll Wait and See.
According to an old saying we are not to have any more snow this winter. It is said that as many days left in the month, after the first snow, we are to have that many days snow during the winter. The first snow fell this year on October 30th and since then we have had a second snow. According to this old saying this is the only snow we will have. Last year the first snow we had was on November 16th and there were fourteen snows after that during the winter.
