A Word in Time. Every season characterized by rapid changes of temperature and many slight or grave diseases brings before the people a hoard of medicine for a quick oppression of the most pronounced symptoms. In many instances just this violent arrest in the body of the germs of disease is the foundation of a chronic and often mortal form. Ordinarily nothing else is needed for the destruction of these germs than building up the vital forces. This is in every instance accomplished by the use of Triner's American Elixir of Bitter Wine. It acts on the digestive organs primarily and makes them able to accept and digest all food the body needs. It will make a powerful fortress of your stomach which will easily withstand all attacks of diseases. It will give your intestines a comfortable warmth, it will push digestion and assimilation, it will cure all diseases of the digestive organs and of the blood. It will uphold your health and strength and increase your working capacity. At drug stores. Jos. Triner, 799 So. Ashland Ave., Chicago, Ill.
