An Explanatory Communication From Dr. The Board of Police Commissioners of St. Jensen, One of the Leading Veterinarians of the State.

And Thinks There is But Little Fear for the Recovery of the Afflicted.

Dr. H. Jensen, one of the leading and most successful veterinarians of Nebraska, will give further details of the lock-jaw victims near Murray:

Evidently our neighbor on the south, Nebraska City, is in the throes of a light that is bound to result in much bitterness. The fight is augurated by that class of people who are ever ready to attend to other people's business before looking after their own affairs. A special from that city says: "The anti-saloon league served notice on Mayor Kressen some days since to close all saloons on Sunday and stop this city on that day. This request was complied with and now the league has served notice that all blinds, screens and other obstructions before the windows must come down and all signs or samples of goods must be removed from the windows.
