The Petition Signers.

The temperance people of this city have issued another pamphlet this year containing all the saloon-petition signers. This must be a great deal of consolation to these people. It was done for the purpose of coercion, but if they did but know it the party who signs a saloon petition would far rather have his own name on a saloon petition than to see it on the books of a "bad debts collecting agency," as some officious temperance people we know of. People who sign petitions for saloons are open in what they do, and never do things sneakily.

South Dakota The Land of Plenty

Rich soil, a mild climate, and abundance of water have made South Dakota one of the best agricultural states in the Union. The soil of Lyman County is unusually rich. It is a black loam with a yellow clay subsoil. The extension through Lyman County recently built by the

Chicago, Milwaukee & St. Paul Railway

has opened up a part of that state hitherto sparsely settled. Land is now selling at the rate of from \$8 to \$15 an acre, and it is altogether probable that valuations will increase 100 to 200 per cent within a year. South Dakota offers great opportunities for the small investor. A book on South Dakota for two cents postage.
