In Saving Money

The Start is a Very Important Part.

WHEN the habit of saving is once firmly rooted, results of saving will manifest themselves. Many persons say it is no use to start a saving account at the bank because they can save so little. If you can save but little you ought to be more anxious to save. By persevering you will presently be surprised at the amount of your savings.

A bank account is a great help to the saver. It puts system into his savings. Come in and let us open up an account with you.

Upon several occasions his condition has been very dangerous. Miss Mysterom, a trained nurse from Omaha, is constantly at his bedside, and hopes are now entertained for his recovery.

Horses Still High.

Good every day work and driving horses are still climbing higher, and if you do not think so just come into this locality and make an effort to purchase a desirable horse for either purpose. This week Nick Klaurens bought a fine work horse of Wm. Lewis, for which he paid \$100, and later Mr. Lewis bought a fine brood mare from Steve Copenhaver for which he paid \$175. This seems as though the boys were paying plenty, but what else can they do, they must have them?

A large crowd of Murray people will attend the Sunday game, and there is no doubt but what Plattsmouth will be well represented.

Inheritance Tax Valid.

The supreme court has denied a rehearing in the inheritance tax law which it recently held valid. The men who were always willing to accept enterprises of the bologna sausage factory dimensions are still on earth and doing business at the same old stands, and no doubt will give about as much for substantial enterprises today as they did then—nothing.

"Some of the enterprises that are being offered Plattsmouth now," continued the old resident, really reminds us of the good old boom days, "when everybody was made rich by the voting of bonds and increasing taxes." The old fellow added in conclusion, "I will give as much as any other man of my means for manufacturing establishments, such as I detest the skinflint actions of these men who will get more benefit from such enterprises than I would, and without giving a cent. A few first-class funerals is the only way Plattsmouth will ever get rid of these drawbacks to the welfare of Plattsmouth."

Looks Good to Him.

A special from Washington says: "Congressman Pollard has returned to Washington after a close examination of the political conditions in the First district of Nebraska. Mr. Pollard was on the floor of the house today and had the satisfaction of seeing the bill he introduced granting a pension of \$24 to L. D. Bennett, of Plattsmouth passed.

"I am perfectly satisfied with the political situation in the First district," Mr. Pollard said in reply to an inquiry. "The only opposition to me comes from the railroad politicians of Lincoln and a man here and there over the district who is willing to do their bidding. Reports that come to me from all parts of the district indicate clearly that the people are in favor of my return to congress. I feel confident that this year the people will dictate the nominations of all their candidates. In their hands I feel that my interests are safe."

Just received a car of the American fencing. If in need of any please give us a call before buying.

IT LOOKS LIKE OLD TIMES

An Old Pioneer Furnishes the Journal a Reminiscence of Boom Days.

As the city is making desperate efforts to regain its foothold among the enterprising cities of Nebraska, the public-spirited residents begid once again to look around for enterprises that will promote the development of the town.

An old resident and former business man remarked to the Journal man last night, as we were discussing the future of Plattsmouth, that in the early days they had a board of trade here and at one of its meetings, a promoter who carried a full line of enterprises for the development of towns was present. He was engaged in furnishing any kind of an enterprise the people wanted if they had the money to pay for it. He told of a watch factory that we could secure for \$50,000 bonus. This was discussed, and the amount being too high, he suggested a shoe factory that we could have for \$30,000. And as this still seemed to be beyond the reach of some, he dug down into his pocket and found a carriage factory that he could send us for \$15,000. Finally, one man in the audience asked him what he had that we could "take in" for \$1,000 or less, and the promoter, being equal to the emergency, went down in his memorandum book and dug up a bologna sausage factory that would employ two men and a boy and create a demand for dogs. The men who were always willing to accept enterprises of the bologna sausage factory dimensions are still on earth and doing business at the same old stands, and no doubt will give about as much for substantial enterprises today as they did then—nothing.

"Some of the enterprises that are being offered Plattsmouth now," continued the old resident, really reminds us of the good old boom days, "when everybody was made rich by the voting of bonds and increasing taxes." A few first-class funerals is the only way Plattsmouth will ever get rid of these drawbacks to the welfare of Plattsmouth."

Old Timers Here.

A couple of former residents of Plattsmouth were here today looking over the old town and renewing old acquaintances. Mr. Frank J. Carruth, of Denver, arrived in Lincoln a few days ago to visit his old friend, George W. Chapman, and they took a run down here. Mr. Chapman was in the drug business here, and removed from here to Lincoln to engage in the same business which he has continued since. Mr. Carruth went from here to Denver, where he has since resided. The latter gentleman erected the building now owned by the Westcott's on the corner of Main and Fifth streets. An old settler tells a good story on Mr. Carruth which happened while the building was in the course of construction. As usual in the construction of such buildings, a great many questions are generally asked. In order to save the trouble of answering them he constructed a bulletin board, telling who was putting up the building, who was going to occupy it, and various other questions. About this time Mr. Carruth was a candidate for Mayor, and was defeated. "One of the boys" underneath all these answered question early next morning after the election wrote: "And run for Mayor and got beat like h—ll."

Decoration Day.

Memorial Day will soon be here again, and as each succeeding year approaches more attention should be given to the important duty of decorating the graves of the dear ones that rest in silent cities. The Journal would like to see every citizen take an active part in the ceremonies on Wednesday, May 30th. Lay aside your farm work for this day and come to town and assist in decorating the graves of the fallen braves, many of whom sleep in Oak Hill cemetery. More old veterans are buried there perhaps, than at any cemetery in Cass county. Then why not suspend business generally in the city on that day also, at least from 10 o'clock in the morning until 4 o'clock in the afternoon, and all attend the exercises at the cemetery and the exercises at the opera house in the afternoon. It will not be many years until all those who fought to save this republic from total destruction, will have passed away, and of which only a few of them remain.

"Human Hearts."

Strong, stirring dramatic situations, thrilling climaxes, a love story of absorbing heart interest, amusing, natural and unforced comedy scenes, allied with a plot that can be followed by everybody, are the really component parts of a successful melodrama. Add to the above a wealth of scenic splendour, new and intricate mechanical devices and a company of superior excellence, and the reason for the universal success of "Human Hearts" is found. "Human Hearts" is possibly the most successful and meritorious melodrama on the stage today, and it will be shown to our play goes on April 23
