Havelock.

(Times.)

A. A. Hyers has resigned his position at the shops, and will give his entire time to the office.

Carl Nelson and wife visited a few days the first of the week with friends at Plattsmouth.

Victor Sherwood, of Plattsmouth, has accepted a position in the Havelock shops and will move to our town at an early date.

K. M. Stangland, piece work inspector at the shops, has resigned his position. He and his family will move to Denver early next week.

Frank Boehme, who went as far as Chicago with his wife and daughters on their way to Germany, has returned and resumed his work at the shops.

J. H. Stansberry, who recently came with his family from Ohio, has bought the John Caldwell residence and will reside permanently in Havelock. Mr. Stansberry is one of the late additions to the skilled force at the shops.

Mr. Bowers, a boilermaker from Pittsburg, will move his family to our city and work in the local shops. As we have pointed out before, the scarcity of houses is a serious drawback to securing men of families for the work in our town. There ought to be a united effort along this line until the demand is met and the disadvantage removed.

D. A. Lucas, foreman of the boilermakers, will leave next Sunday evening for Milwaukee, where he will attend the annual meeting of their national association of which his brother is president. Under the supervision of Mr. Lucas the Havelock boilermakers hold one of the best records in the United States for rapid work, which is something for himself, his men and the shop to be proud of. Mr. Lucas has well earned this little vacation and we wish him a pleasant trip. He will be gone about one week.

WESTERN FARM MORTGAGES

Prosperity Modifies the Exactions of the Money Lenders.

Western farmers have grown rather particular about the indebtedness. One of the common requirements of the modern mortgage is that the mortgagor shall accept any portion of the principal at the time of any interest payment. This means that the harvesting of a good wheat crop or the fortunate sale of a bunch of cattle may wipe out the debt, and the loan agent must find another borrower. However, one insurance company has \$40,000,000 in western farm mortgage loans, and the interest thereon is sufficient to pay all its debtless. Another company has \$99,000,000 in these loans, scattered over the Mississippi valley. The large sums are in Illinois, with about \$23,000,000; Minnesota, with \$10,000,000; Missouri, \$11,000,000; Iowa, \$10,700,000; Ohio, \$8,000,000, and lesser amounts in a dozen other states. It places approximately 4,000 farm mortgage loans every year, and has in its history loaned \$250,000,000 in this way, with practically no loss. A report in the Annals of the American Academy of Science gives the amount of mortgages held by the life insurance companies at \$490,632,508 or 27.7 per cent of the companies' assets. This, however, includes loans of city property as well as those on farms. The percentage is second only to that invested in bonds, indicating the partiality for this form of investment by the most conservative of investors.

The insurance company loan is safeguarded in every possible way. The interrogatories of the application cover four large pages and includes everything from the size of the borrower's family to the use he proposes to make of the money. They even inquire into his habits and his standing in the community, for the well-informed investor realizes that the best part of his security is the personality of the borrower.

Thus it happened that the insurance companies have few foreclosures and practically no losses on this class of investments. Of recent years the value of land has increased so rapidly that every loan—made, as these investments are, on a basis of 40 per cent on real value—became "glit-edged" and was the best possible security.—Review of Reviews.

Sciatica Cured After Twenty Years of Torture.

For more than twenty years Mr. J. B. Massey, of 3222 Clinton St., Minneapolis, Minn., was tortured by sciatica. The pain and suffering which he endured during this time is beyond comprehension. Nothing gave him any permanent relief until he used Chamberlain's Pain Balm. One application of that liniment relieved the pain and made sleep and rest possible, and less than one bottle has effected a permanent cure. If troubled with sciatica or rheumatism why not try a 25-cent bottle of Pain Balm and see for yourself how quickly it relieves the pain. For sale by F. G. Fricke & Co. and A. T. Fried.

NEBRASKA CITY'S SENSATION

"Scandal in High Life," by Bankers Catron of Nebraska City and Butterfield of Hamburg, Iowa.

When there is a woman in the case, it can be depended upon to result in something most sensational in the end. Following are some of the developments which have made their appearance in the celebrated Butterfield-Catron suit which has been the talk of our neighboring city on the south for the past few weeks, and which is liable to culminate in something very serious before it is fully settled. Speaking of this "celebrated case" the Tribune of last Saturday says: "Sensational developments occurred today in the \$30,000 damage suit instituted in the district court several weeks ago by Charles D. Butterfield, of Hamburg, Ia., against M. E. Catron of this city. Butterfield sued for damages for the alienation of his wife's affections. Butterfield was in the city today and this morning claims to have held a conference with M. E. Catron in the law offices of John C. Watson, one of Catron's attorneys. The results of this conference were quite sensational.

"A few minutes before noon this morning the following order of dismissal was filed in the court clerk's office: 'Clerk of District Court: Please dismiss action that I have brought against M. E. Catron for thirty thousand dollars as I made an error in bringing said suit and I herewith dismiss same without prejudice. (Signed) C. D. Butterfield.' The signature was acknowledged as Mr. Butterfield's voluntary act and deed before Max Cohn, notary public.

"Meanwhile Butterfield had repudiated his signature to the paper of dismissal and retained Pitzer & Hayward as attorneys. Mr. Butterfield's version of the affair is that he signed the purported dismissal rather than have great bodily injury done him by the defendant, that he had no intention of dismissing the suit and will prosecute the same vigorously. Butterfield also swore out a peace warrant against M. E. Catron in the county court.

"Butterfield, through his attorneys, has filed in the district court a long affidavit purporting to give the narrative of his experiences in the interview with Catron in the law offices of John C. Watson. He alleges that he was intimidated by Catron into signing a paper after Watson had left the room in which the conversation commenced; that Catron threatened to kill him and that he (Butterfield) did not acknowledge the signing of the alleged dismissal of the suit before Max Cohn, notary public. Based on the foregoing affidavit Butterfield, through his attorneys, filed a motion to strike from the files of the case the papers purporting to be a dismissal of the original damage suit. In the peace warrant case in the county court Catron's attorneys secured a continuance for thirty days. A bond of \$300 was ordered by the court and was signed by Geo. W. Hawke and Cal Chapman.

"As a climax to the difficulties between Catron and Butterfield, Catron through attorney L. F. Jackson, this afternoon filed in the county court a complaint against Butterfield, charging Butterfield with criminal blackmail. The warrant was placed in the hands of the sheriff for service."

It is Dangerous to Neglect a Cold.

How often do we hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurrence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency of a cold to result in pneumonia, and has gained its great popularity and extensive sale by its prompt cures of this most common ailment. It always cures and is pleasant to take. For sale by F. G. Fricke & Co., and A. T. Fried.

MRS. ANNA N. KAISER, Had Suffered Severely From Pelvic Catarrh—Cannot Praise Peruna Too Highly—Read Her Letter.

MRS. ANNA N. KAISER, Two Rivers, Wis., was a sufferer from pelvic catarrh to such an extent that she could scarcely do her own work. In describing her symptoms, she wrote: "I have such terrible backaches and pains below my shoulder blades, way down my back and across my hips, and at times pains in the pelvic organs, so that I am not able to lie down or sleep. I also have pains through my left side and am afraid I may be getting heart trouble." After taking Peruna and following Dr. Hartman's instructions for several weeks, Mrs. Kaiser reported as follows: "I feel much stronger and do not get nervous as I used to. The pain is entirely gone, except when I work a little too hard. The medicine has done me wonderful good. I am taking Peruna and Manalin. My bowels are also in good condition."

Reports Her Cure.

After continuing the treatment a short time longer, Mrs. Kaiser reports her cure, as follows: "I must drop you a line to let you know that I am well now and cured with your medicine. I must thank you for the advice you gave me. 'The medicine is something wonderful. I cannot praise it enough for the good it has done for me and I hope many others will be freed from their suffering.' 'I have advised others who are suffering as I did to consult you and many are taking my advice. If ever I need medicine again, I know that Peruna will help me.'"

Dr. Hartman's Advice.

To every woman suffering from the symptoms above indicated, Dr. Hartman extends an earnest invitation to write to him for medical advice.
