The Murray and Mynard ball teams crossed bats last Sunday in what might be termed a ball game, that is if you knew nothing of the game, which resulted in a score of 14 to 16 in favor of Mynard. One of the citizens of Murray tells us that if there was a law against Sunday ball playing, the same would judge a person from his acts not the intent, so the ball players would be excused on this ground.

Death at Weeping Water.
A special from Weeping Water says that Norton, son of Mr. and Mrs. A. Z. Kleppner, died at that place a little after noon yesterday aged 9 years. Little Norton was taken with scarlet fever several weeks ago, but rallied and was in a fair way of recovery when he was taken with a relapse, but was again better and hopes of his final recovery were entertained until a very short time before his death.

Just What Hurts Plattsmouth.
When I was a kid we used to play ball a good deal and I remember that there were several of us who wouldn't play unless we could be pitcher. Since I have grown up I find that many of us have not gotten over the habit. If we can't be the whole works we won't play. It crops out in churches, in the lodge, in politics, and in public enterprises. As long as we can run and boss things we will stay in the game. When some other fellow gets hold of the lines it's different. The trouble is too many of us imagine we are out for generals, when the Lord intends us for privates. Sometimes the wrong man gets to be general but it rarely occurs that the wrong man is a private. In every town you will find men sulking in their tents, like Achilles of old. But just inquire into the thing a little and you will find out their grievance is because they can not run everything. About the only consolation a sulker gets is in seeing some other fellow take his place and do the work a little better than he could. Don't be a sulker. If you can't pitch, get out and play right field and if you can't do that carry the bats. If you are the best pitcher in town the people will soon find it out and you won't have to carry the bats any longer.—Exchange.

—If your stomach troubles you do not conclude that there is no cure, for a great many have been permanently cured by Chamberlain's Stomach and Liver Tablets. Get a free sample at F. G. Fricke & Co., and A. T. Fried's drug store and give them a trial. They also cure constipation and biliousness.

If Every Person Who

ought to keep a bank account had one now there would be a decided change in the conditions of the community. Every person who keeps a bank account raises his standing among his fellows and with the banker. He also helps to make conditions better in his town.

Ninety per cent of the commercial business is done by means of paper. Money represents property. A check means there is money deposited in the bank to the credit of the one who writes the check. If you have credit at the bank your check is just as good as Uncle Sam's Money.

The check system, where safety and convenience are assured, is much better than handling the money when there is risk of error or loss.

STATE SENATOR SHELDON AND THE RAILROADS

Bids Defiance to Railroads and Says Only Form is Representative Government.

A special from Nehawka says that State Senator Sheldon, an aspirant for governor, tonight made a statement of his views. He bid defiance to the railroads and declared that representative government exists in Nebraska in form only.

It is understood that the platform of Sheldon is distasteful to Senator Burkett and is radically opposed by Congressman Pollard.

In his ultimatum Senator Sheldon said:

"As it seems to me the most important work of the people of Nebraska now is to assume and take active control of the state government and the public affairs.

"I mean that the thing most needed in Nebraska is a complete establishment of a true representative government—one that will carry out the will of the public untrammelled by railroad domination. We have a form of representative government in this state, but we need more of the spirit and the power of it and the force of it coming directly from the people. We need in the conduct of our public affairs more of the influence of the disinterested citizen and less of the influence of the self-seeking railroad politician."

"We have too much of the railroad government in Nebraska."

The Greatest Artist.

The whole world looks in admiration at the vitality of the greatest dramatic artist, Mrs. Sarah Bernhardt, who lately captured Chicago audiences. Although past sixty years, she moves with the easiness and elegance of a young lady. How many people are able to preserve such vigor to the old age? The cause of a premature decline is to be found either in negligence of the first symptoms of it or in improper eating. By using Triner's American Elixir of Bitter Wine we can easily dispel such symptoms, as loss of appetite and weakness, and prevent an early decline of strength and vitality. It will preserve the activity of the digestive organs. It will make elimination natural and keep the blood pure and rich. In all diseases of the stomach, the intestines and the blood, in bodily weakness and nervousness, in all cases where you need strength and appetite, Triner's American Elixir of Bitter Wine is the only reliable cure. It does not flag the organs, but cures them and makes them able to work. An occasional dose will uphold your health and strength. At drug stores. Jos. Triner, 799 South Ashland Ave., Chicago, Illinois.
