Louis Langhorst has purchased from Clay Conner and others a part of lot 1, block 21, Elmwood. Consideration \$800.

Two of our citizens agreed to disagree Sunday evening, and had it not been for interference a fight to the finish would no doubt have resulted. As it was, one of the participants had to have a doctor patch up his head. Out it out, boys.

Henry worked pretty hard for two weeks out at Beaver City putting on a tin roof and his sick spell is attributed to overwork.

Mrs. W. L. Stuck returned to her home at Johnson, Monday evening. Charles Adams accompanied her for a visit with her friends there.

Mrs. E. M. Pollard has arrived home from Washington, where she spent the winter with her husband, Congressman Pollard.

The report has somehow got started that we have sold the Register. We desire to state that this is not the case, and that we are not on the market for sale. We are very well satisfied with Nehawka and shall continue to do the best we can get out a good newsy paper.

Dr. Elster, Dentist,
Waterman Block

J. M. Gardner has finished taking the census of the children of school age in this district and reports a total of 131, a gain of 8 over last year, 57 males and 74 females. The daily average attendance for the past year was 92.

Dr. Dihel reports that Johnnie Weaver who was kicked in the head by a horse about six weeks ago to be well enough now not to need his services any longer. There is no sign of pressure on the brain and the doctor thinks there will be no serious results.

Havelock.

(Messenger.)

C. L. Hempel, in the U. P. employ in Omaha, visited his brother, Henry, a few hours between trains Thursday afternoon.

Postmaster Hyers has returned from Roca and was seen riding about the streets of Havelock in an automobile yesterday afternoon.

Three new engines have arrived in the B. & M. yards direct from Philadelphia. They are large 4D compound engines of the most modern make, designed particularly for passenger service. They will be put in shape at once and after a thorough test on the

Havelock trial track, will be pressed into the Burlington passenger service in Nebraska.

Roy Lobdell, employed by the B. & M., has been transferred to Plattsmouth. While moving his household effects to the car yesterday a large cooking range dropped off the wagon and was almost completely ruined.

Work in the shops is somewhat slack at present. Only six engines stand in the yards awaiting cleaning and repairs. There is some talk of a reduction to an eight-hour schedule, with a full day lay-off on Saturdays. If this regulation is instigated it will merely be temporary and of short duration.

The B. & M. shops are requiring all minors in the company's employ to sign and to have their parents or guardians sign an agreement to the effect that should any severe accident or death come to them while in the B. & M. employ, they will not bring suit against the company for damages. Every summer as soon as the universities and schools are out large numbers of boys come to the shops for work and, being inexperienced in this kind of labor, their chances for accidents are greater than those of a regular workman. Generally minors are also very careless and reckless in their use of farm machinery and tools. Thus many accidents happen among this class of workmen, and the railroad company cannot stand good for them. Therefore, if minors wish to work they must go in under this agreement.

A Tragic Finish.

A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province of Holland. In like manner Kenneth McIver, of Vanceboro, Me., permitted a little cold to go unnoticed until a tragic finish was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation, caused by a neglected cold; but Dr. King's New Discovery saved my life." Guaranteed best cough and cold cure, at F. G. Fricke & Co.'s drug store. 50c and \$1.00 Trial bottle free.

POSITIVE PROOF

Should Convince the Greatest Skeptic In Plattsmouth.

Because it's the evidence of a Plattsmouth citizen. Testimony easily investigated. The strongest endorsement of merit. The best of proof. Read it:

John S. Hall, residing on Rock street, says: "For three or four years I have had attacks of kidney complaint, some of them so bad that I could scarcely attend to the most trivial matter of business. If I contracted a cold it always settled just across my kidneys, and untold suffering ensued. When the spells were at their worst I was compelled to use standard remedies, but if I had obtained any permanent relief I would never have gone to Gering & Co's drug store for Doan's Kidney pills. It only required one box to absolutely cure the trouble. I think this remedy should be known wherever kidney complaint in any of its various forms causes annoyance and suffering."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y. Sole agents for the United States.

Remember the name—Doan's—and take no other.

The Anti-Pass Law.

Railroad have sent out to persons who have previously ridden on passes requests that they return their passes, which the roads promise to renew if they are not excluded by the law. Bruce, of Farmville, Va. Best for old Ulcers, Cuts, Burns and Wounds. 25c at F. G. Fricke & Co. druggists.

Mr. Bryan's Wealth.

The assessors of Lancaster county have made their returns, and according to the Lincoln News, the material wealth of William Jennings Bryan of Lancaster precinct is over \$50,000, while down town he has a \$22,000 property, according to the assessor. Upon this he will pay about \$600 taxes into the county treasury during the coming year.

The home property at Fairview and the adjoining tracts of land, six in number, are assessed at \$49,025.

Mr. Bryan's personality is fixed at \$10,050, on the return by his agent. Mr. Bryan had \$3,000 in cash or in bank, one of the few persons in the county who seems to have any considerable sum in the vaults, according to the sworn returns. Other items on his personal list are: Sixteen head of cattle, \$800; hogs, \$65; bees, \$5; corn, \$5; hay \$10; jewelry, diamonds and silverware, \$500; household goods, \$3,000; firearms, \$150; dogs, 10; watches and clocks, \$300; carriages and wagons, \$700.

Aside from this property in Lancaster precinct Mr. Bryan owns the Commoner in Lincoln. This is on the assessment rolls at \$22,250. On this Mr. Bryan will have to pay, for all purposes, city, county, state and school, in the neighborhood of \$650 as taxes.

Home for a Few Months.

Otto A. Wuri, who has been attending the National school for Turner at Milwaukee, returned home last Thursday night to spend a few months before departing for Indianapolis, Ind. Otto was one of the fourteen to graduate from the school this spring, and has recently accepted a position as instructor of gymnastics in the two high schools in Indianapolis, Ind. The two schools are the Normal Training and Shortridge high schools, but these do not open until the first of September, and Otto will remain in Plattsmouth for a visit with his many friends here, before assuming charge of his work in the east. Mr. Wuri was reared in Plattsmouth, and where he is a favorite with everybody who takes any pleasure in athletics. He is a very close student to the profession, and his friends all rejoice over his success.

Lincoln Flooded by Water.

Plattsmouth seems to be lucky on floods so far this season, although it has been by a tight squeeze on one or two occasions. Last night the storm was quite severe, but we escaped damage, while Lincoln enjoyed its turn in receiving a down pour that did considerable damage. The Journal of this morning says:

"Between the hours of six and seven o'clock last evening Lincoln was visited by one of the worst and most destructive wind and rain storms in its history. A terrific downpour of rain started at 6:30 and lasting about thirty minutes, completely flooded downtown streets, pouring into the basements of large retail houses and entailing losses running all the way from a hundred dollars to several thousand. In the residence districts the damage was even worse. Antelope and Salt creeks rising within the space of a few minutes to a height never before registered. Holmes and buildings in the south and east parts of town were completely surrounded by a surging flood of water, and in places the city seemed to have been transformed into a veritable Venice, with the beauty and picturesque-ness eliminated, and misery and discomfort substituted in their stead."

Cedar Creek Camp Prospering.

The local Woodman foresters and a number of the members drove down to Cedar Creek Tuesday night and assisted the lodge of that place in initiation of a candidate. On account of the rain the attendance was not very large, but what they lacked in numbers they made up in—well, in other things to numerous too mention. After the work was completed the guests were invited to the dining room where a neat lunch was served. On account of the heavy rain the Louisville boys were compelled to remain all night but arrived home safe and sound early Wednesday morning. Cedar Creek camp is taking on new life, after two or three years of inactivity and now have work in the initiatory degree almost every meeting night.—Louisville Courier.

Modest Claims Often Carry the Most Conviction

When Maxim, the famous gun inventor placed his gun before a committee of judges, he stated its carrying power much below what he thought sure the gun would accomplish. The result of the trial was therefore a great surprise instead of disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea remedy. They do not publicly boast of all this great remedy will accomplish, but prefer to let the users make the statements. What they do claim, is that it will positively cure diarrhoea, dysentery, pains in the stomach and bowels and has never been known to fail. For sale by F. G. Fricke & Co. and A. T. Fried.

Motion Filed With Clerk.

Motion was filed today with the district clerk to require the plaintiff in the case of Mapes vs. Fitzgerald, chief police, et al., to state names of parties to whom property involved in the case was deeded and names of subsequent grantors and grantees.

In the case of Sylvia F. Wrenn vs. Edgar L. Wrenn, defendant filed motion that injunction be dissolved on ground that he is one of the owners of the Plattsmouth Steam laundry.

"I Owe My Life to Pe-ru-na," Says Mrs. Huffaker.

Mrs. Mittie Huffaker, R. R. No. 8, Columbia, Tenn., writes:

"At first I could not notice any benefit, but after taking several bottles I was cured sound and well."
