After Bathing.

During summer it is of the greatest importance to bathe very often, either at home or in the fresh air, in order to keep the pores of the skin open. The body will then always feel comfortable and be free from disagreeable and painful eruptions. If we will also use Triner's American Elixir of Bitter Wine regularly, the summer will be unable to attack us with its dangerous diseases of the digestive apparatus. This remedy is absolutely reliable in all maladies characterized by weakness, loss of appetite and paleness and it will always help, if taken in time. Even in chronic diseases of the digestive organs, which resisted all treatment, Triner's American Elixir of Bitter Wine had the best results. We highly recommend it to nervous, sickly people and to those who wish to have perfect digestion. At drug stores, Jos. Triner, 799 So. Ashland Ave., Chicago, Ill.

Nervous Worn-Out

If you are in this condition, your nerve force is weak—the power is giving out, the organs of your body have "slowed up," and do their work imperfectly. This failure to do the work required, clogs the system and brings distress and disease. When the nerves are weak the heart is unable to force the life-giving blood through your veins; the stomach fails to digest food; the kidneys lack power to filter impurities from the blood, and the poisonous waste remains in the system to breed disease. Nerve energy must be restored. Dr. Miles' Nervine will do it, because it strengthens the nerves; it is a nerve medicine and tonic, that rebuilds the entire nervous system.

"Several years ago I was all broken down. I was nervous, worn-out, could not sleep, and was in constant pain. I doctored for months, and finally the doctor said he could do nothing for me. I began taking Dr. Miles' Nervine, and used altogether eight bottles, and I became strong and healthy, and now weigh 170 pounds!"
