

GEO. W. BERGE AT COLUMBUS

Opens the Campaign With a Fine Speech and an Enthusiastic Attendance.

A special from Columbus, Neb., in speaking of the opening of the campaign in Platte county Monday, says: "Before an audience which packed the North opera house to the doors George W. BERGE of Lincoln opened the democratic campaign in this city last night. Not only was every voter possible seated in the hall, but the stage and every bit of standing room was occupied by men who believe that the state should be wrested from the grasp of corporations.

"Judge Graves was followed by Mr. BERGE, who delivered one of the soundest and most appreciated speeches on state politics which has been heard in Columbus in years. He handled without gloves the iniquities of the pass system and gave the inside of its workings and told of the bribing of legislatures through this means. Every few moments Mr. BERGE was interrupted by deafening applause. His entire speech was grand and the meeting will prove the entering wedge into the domination of republican misrule in Nebraska and in Platte county.

"Fully 500 out-of-town people came in on the train from the north and by vehicles from the surrounding country, many of them, unable to find seats, standing throughout the entire meeting. Many prominent Platte county democrats were given seats upon the stage."

Breeding a Case in Court.

The Missouri Pacific R. R. is breeding a big case in court, in endangering the lives of railway men and passengers. They take no heed of the past wrecks and killings, but seem determined on wholesale work. Of late the heavy engines are being run over the road through here. It is said one of their big engines pulled the excursion train down from Lincoln. Not a railroad man but fears them and knows they are unsafe, and are not afraid to say so openly. The track is unsafe for small engines, and as the late "Peggy" Young said, who went down with the battleship, "Boys, I will make one trip too many with this engine," so others feel in driving these monsters over rotten timbers and light rails. The road is a paying one, does all the business they can handle, and yet pays little attention to keeping the track in repair.—Weeping Water Herald.
