A LESSON FOR NEBRASKANS

"Turn the Rascals Out!" That the People May Know for Once in Six Years Where the Money Goes.

For six years the republican party has controlled the legislative and executive affairs of this state. They have made the appropriations, equalized the assessments, made the levies, collected the state taxes, and spent the money. They have absolutely controlled the finances and must be held entirely responsible for the low taxation on railroad property, the high taxation on other property, increased state taxes levied upon the various counties of the state and the extravagant appropriations made by the various legislatures.

In 1900 the amount of taxes charged by the state board of equalization for the maintenance of state government was \$1,208,984.94; this year, 1906, the present state board (of which Searle and Eaton, who are running for reelection, formed a part) have increased the state taxes to the enormous sum of \$2,191,421.85; nearly a million dollars more. No reasonable argument can be advanced for this high taxation and it is doubly aggravating when it is noted that \$1,856,744.48 is contributed by all other property and the balance is assessed and will probably not be paid, but fought by the railroads as in 1903, and later. State taxes are steadily increasing year by year, with no decrease of the outstanding indebtedness. Look at the figures as shown by the state auditor's report:

State taxes, 1900	1901	1902	1903	1904	1905	1906
\$1,208,984.94	1,232,391.92	1,131,194.61	1,513,316.38	1,768,675.24	2,131,296.69	2,191,421.85

So much for partisan politics, as may be claimed, but there is no disputing the above figures unless the official books at Lincoln are wrong.

In Missouri there is a lively fight on between the democrats and republicans, and taxation is one of the leading questions. The Jefferson City Tribune has ascertained the state levy for the states in this immediate vicinity, and here is the result:

Iowa, republican, 35 cents.
Nebraska, republican, 65 cents.
Illinois, republican, 52 cents.
Kansas, republican, 52 cents.
Missouri, democratic, 17 cents.

Is not that a lesson for the taxpayers? Nebraska the youngest state in the group, pays by far the largest tax, and almost four times as much as Missouri. Think of it, you who pay taxes.

When the fusionists were in power in this state they reduced the state debt and put the outstanding warrants at par. Since the republicans have had charge of affairs they increased the debt. If the people want to continue this system of financing all they have to do is to vote the republican ticket. If they want the taxes reduced then vote for the democrats. "By their fruits shall you know them."

It is full of quick action from start to finish, there are no long stories to weary the audience, its dialogue is at all times crisp and unlike the majority of farce comedies, it contains a reasonable plot which holds its interest until the last word is spoken. Songs, dances and other specialties are plentifully distributed into each act.

America is the Land of Nervous Women.

The majority of women are nervous because they suffer from some form of pelvic catarrh.

The greatest obstacle in the way of recovery is that they do not understand that catarrh is the main source of their illness.

Women who are in doubt as to their ailments should write to Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio, who will give their letters prompt attention, without charge.

Miss Anna McGinn, 161 Plain street, Providence, R. I., writes:

"I wish to let you know of the good your medicine has done for me."

"I had what the doctors called heart trouble. I had been doctoring for a year before I tried your Peruna."

"I got a bottle of your Peruna and after a week's use of it I began to feel better. I could not eat, sleep, or work, but I have at last found that the medicine that will cure me is Peruna."
