Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. E. S. Ball, of Ravenswood, W. Va., says: "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Kodol Digests What You Eat. Bottles only \$1.00 Size holding 2 1/2 times the trial size, which sells for 50 cents. Prepared by E. C. DAWITT & CO., CHICAGO, Gering & Co.

Consumption

There is no specific for consumption. Fresh air, exercise, nourishing food and Scott's Emulsion will come pretty near curing it, if there is anything to build on. Millions of people throughout the world are living and in good health on one lung.

From time immemorial the doctors prescribed cod liver oil for consumption. Of course the patient could not take it in its old form, hence it did very little good. They can take

SCOTT'S EMULSION

and tolerate it for a long time. There is no oil, not excepting butter, so easily digested and absorbed by the system as cod liver oil in the form of Scott's Emulsion, and that is the reason it is so helpful in consumption where its use must be continuous.

We will send you a sample free.

The picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

On the Eve of Striking. Thirty-five thousand switchmen in the railroad yards between Pittsburg and the Pacific coast are believed to be on the eve of a strike which will paralyze for a time at least, the transportation facilities of the country. Committees of the yardmen's unions in all the cities are presenting the demands, which are for a general eight-hour day with the same pay as on the ten-hour basis. The crisis in the situation is expected in the next few days.

How much the country would suffer from such a strike may be estimated by considering the fact that with every man and with every car and engine employed night and day it is impossible to take care of the immense traffic that is forced by commerce upon the railroads. The car shortage has already fallen heavily on the grain trade and centralized industries, like coal, iron and sugar. The companies have nearly all met the employees in the spirit of friendliness and have offered to make concessions, particularly in regard to increased wages. The men, however, demand shorter hours also, and that seems to be the prospective impediment. It is, of course, of the highest importance that there be an adjustment before a strike is called. The demands of the men range from 10 to 20 per cent in wages and the shortening of the working day by an average of an hour. What shall be a fair increase constitutes matter for arbitration.

FROST'S THRILLING RIDE

Man Who Was Beating Way Home in Blazing Car, and Escaped With Severe Burns.

A thrilling story comes from Omaha in the following taken from the World-Herald: "Caged in a burning and loaded furniture car traveling at forty miles an hour, H. E. Frost of Waterloo, Ia., spent a half hour of awful suspense Tuesday night while trying to beat his way from Simon to Omaha with four tramps. The car was set on fire by tramps. Frost says, before his very eyes and the five only escaped by wriggling through a small ventilator opening at one end. Frost's hands were badly burned, Police Surgeon Harris dressing them when he arrived in Omaha Wednesday morning.

"An effort is being made to locate the four tramps who were in the car with Frost, since the Emerson police think it a case of incendiarism. The car and furniture was completely destroyed, the train arriving at Emerson just in time to put the blazing rolling stock on a siding to save the rest of the train. The whereabouts of the four tramps is not known, but Frost caught the next train for Omaha to furnish the police here a description of the men.

"Frost is a painter by trade and was doing job work over Northeastern Nebraska. He became stranded and without funds and so started in to beat his way home. When he entered the car at Simon he found four tramps there, smoking and singing. He says that one of the tramps threw a match into a pile of excelsior just after the train started. The other three pitched in and tried to extinguish the blaze, but it soon got beyond control. It then became a battle for life, and the five men escaped just before the train reached Emerson, the burning car leaving a trail of flames like a comet.

"Frost is being held by the police for further investigation and possible developments."

Eight Town Killers.

There are about eight kinds of town killers and every town is afflicted with one or more of them. First, those who go out of town to do their trading; second, those who are opposed to improvements; third, those who imagine they own the town; fifth, those who deride the public spirited men; sixth, those who oppose movements not originating with themselves; seventh, those who oppose every movement that doesn't appear to benefit them; and eight, those who seek to injure the credit or reputation of others.—Enid (Okla.) Wave.

FOR FLOAT REPRESENTATIVE

DR. C. W. JESTER.

When you go to vote next Tuesday see that your ticket for float representative reads like the above before you mark the square.
