# \$5,000 Reward

will be paid to any person who can find one atom of opium, chloral, morphine, cocaine, ether or chloroform or their derivatives in any of Dr. Miles' Remedies.

This reward is offered because certain unscrupulous persons make false statements about these remedies. It is understood that this reward applies only to goods purchased in the open market, which have not been tampered with. Dr. Miles' remedies cure by their strengthening and invigorating effect upon the nervous system, and not by weakening the nerves.

"I consider that there are no better remedies put up than Dr. Miles' Nervine, Anti-Pain Pills, and Nerve and Liver Pills. We have used them for years, and recommend them to many others. My wife is using the Nervine, and considers it the best medicine in the world. A lady friend of mine, who was almost a total nervous wreck, through my earnest solicitation has used several bottles of the Nervine with wonderful results."

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails, he will return your money. 25 doses, 25 cents. Never sold in bulk.

Movement Begun by Government to Prevent This Class of Advertising.

The postoffice department proposes to get after the coupon advertisement scheme appearing in some periodicals and newspapers and knock it out if possible on the basis that the publication of such advertisements is contrary to the rules of the postal service.

An order to this effect from the postoffice department relative to detachable coupon advertisements in publications, requires publishers issuing them to pay a higher rate of postage. The order states:

The law provides for the insertion of the advertisements only and requires that they be permanently attached. There is no authority for the inclusion of coupons or order forms or the like concerning the advertisements or the advertisements to be detached. The periodical itself, entitled to the second class rates, is by law made subject to the higher rate to which any matter not of that class enclosed with its subject.

Blank forms and order coupons or forms are not permissible parts of a periodical, for sheets or portions of sheets, whether large or small, designed to serve as the means of future correspondence between the reader and the advertiser are not advertisements, but writing paper furnished the reader for his convenience. As such they constitute merchandise and are subject to the rate of 1 cent per ounce or fraction thereof. Printed coupons providing no space for signature or insertion, and advertisements intended to be detached, are third class matters and are subject to the rate of 1 cent per ounce or fraction thereof. It is unlawful and detrimental to the postal revenue to place such higher class matter in periodicals and transmit the same in the mails at second class rates. The fact that such articles serve the convenience of advertiser or others gives no warrant for waiving the lawful postage on them, or on any periodical with which one or more may be enclosed.

However, in view of the prevalence and the desire to avoid necessary hardship, inconvenience and loss to publishers and advertisers, and that it has grown up through a misapprehension of the limits of the publishers' privileges, the practice will not be interfered with before March 7, 1907.

Postmasters are asked to immediately notify publishers of periodicals within their jurisdiction of this ruling that they may adjust their business to the conditions.

For Rent.

Two five-room cottages near the shops; also a seven-acre tract with a fair little house, barn, all necessary outbuildings, for rent. Call on J. P. FALTER, Coates Bl'k.
