## It Costs Nothing

To find out for a certainty whether or not your heart is affected. One person in four has a weak heart; it may be you. If so, you should know it now, and save serious consequences. If you have short breath, fluttering, palpitation, hungry spells, hot flushes; if you cannot lie on left side; if you have fainting or smothering spells, pain around heart, in side and arms, your heart is weak, and perhaps diseased. Dr. Miles' Heart Cure will relieve you. Try a bottle, and see how quickly your condition will improve.

"About a year ago I wrote to the Miles Medical Co. asking advice, as I was suffering with heart trouble, and had been for two years. I had pain in my heart, back and left side, and had not been able to draw a deep breath for two years. Any little exertion would cause palpitation, and I could not lie on my left side without suffering. They advised me to try Dr. Miles' Heart Cure and Nervine, which I did with the result that I am in better health than I ever was before, having gained 14 pounds since I commenced taking it. I took about three-tenths of the two medicines, and haven't been bothered with my heart since."  
MRS. LILLIE THOMAS,  
Upper Sandusky, Ohio.

**Who Pays the Advertising Bill?**  
An unknown exchange asks: "Did you ever think about it? Who pays for the advertising of merchants and other business men? Not the advertiser, for the cost is returned to him twofold in increased profits. Not the purchaser, for he buys cheaper from advertiser and has a better assortment and fresher goods to select from. Who, then, really pays the advertising bills? The non-advertiser, of course. A just proportion of the money he loses by his lack of initiative and enterprise finds way eventually to the printer, to advance the cause of education and the interests of the community. Who pays for that advertising which attracts the people of this town to other towns? The home merchant not only loses that trade, but in that loss pays for the other fellow's advertising. Isn't it plain? The "store keeper" is a relic of the past, the merchant is an active being of today."

Tomorrow the farmers' institute begins, and will continue through Saturday. Two sessions will be held tomorrow—morning and evening—and it is not only essential that farmers who come to town should be present, but the merchant, the lawyer, doctor and every other business man in the city should make it a point to attend. If you can't be present at all the sessions, attend one, two or three, just as your time will allow. Let the business men show by their presence that they feel highly honored by the managers of these meetings favoring our city with a two-days session of the institute. **Worse and More of It.**  
In speaking of the condition of the Louisville bridge across the Platte river, the Lincoln Journal says: "More than a year ago the bridge across the Platte river near Louisville was swept away by the ice and since that time people living on the Sarpy county side of the river have been using the Missouri Pacific structure for a foot bridge. There has been delay in the building of a new wagon bridge and this offered the only means of getting across the river. Yesterday morning the Missouri Pacific authorities stationed a watchman at the Sarpy county end of the bridge and refused the use of that structure to all applicants. It is said this action will hasten the rebuilding of the wagon bridge."
