It Costs Nothing

To find out for a certainty whether or not your heart is affected. One person in four has a weak heart; it may be you. If so, you should know it now, and save serious consequences. If you have short breath, fluttering, palpitation, hungry spells, hot flushes; if you cannot lie on left side; if you have fainting or smothering spells, pain around heart, in side and arms, your heart is weak, and perhaps diseased. Dr. Miles' Heart Cure will relieve you. Try a bottle, and see how quickly your condition will improve.

"About a year ago I wrote to the Miles Medical Co., asking advice, as I was suffering with heart trouble, and had been for two years. I had pain in my heart, back and left side, and had not been able to draw a deep breath for two years. Any little exertion would cause palpitation, and I could not lie on my left side without suffering. They advised me to try Dr. Miles' Heart Cure and Nervine, which I did with the result that I am in better health than I ever was before, having gained 14 pounds since I commenced taking it. I took about thirty bottles of the two medicines, and haven't been bothered with my heart since."
MRS. LILLIE THOMAS,
Upper Sandusky, Ohio.

Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.
