From the Leader-Echo.

Dr. Munger's little girl has been very sick with pneumonia the past week.

Ben Hoffman was severely kicked in the side by a colt Wednesday. Fortunately no ribs were broken.

Ida Bauer, who has been very sick with pneumonia, passed the crisis Sunday night and is now convalescing.

Grandma Swarts, who fell several days ago, severely spraining one of her ankles, is able to get around again, with care.

Geo. Adams has been suffering greatly from a bruised finger, which he hurt while laying rock. It was feared blood poisoning had set in, but the injured finger is doing nicely now.

The six-year-old son of Bart Hopkins is very sick. He is suffering from inflammation of the mastoid cells of one of his ears, and an operation may be necessary to relieve him of the trouble.

Clark Shreve cut one of his thumbs one day last week with rusty barb. His hand pained him a great deal and swelled badly. Fortunately blood poisoning did not set in, and he is now feeling much better.

Louisville

From the Courier.

C. E. Wood has secured a position as assistant cashier and bookkeeper at the Bank of Commerce, the increase in business making it necessary to have extra help.

Glen Dorsey fractured the bone of one of his arms one day this week while at school. He and Eugene Mayfield were scuffling, Glen falling on his arm in such a way as to fracture the bone.

Mrs. Ed. Hester, wife of the foreman of the clay pits west of town, is probably the best of-hand rifle shot of anyone in this part of the state, who does not claim to be a professional. Tuesday morning she killed a large goose while standing in the kitchen door, and had it dressed and nicely roasted when Ed. came in for dinner. She has killed four or five this fall.

John Larson, an aged man, living in the southeast part of town, walked off a bridge crossing a dry ditch, near H. E. Pankonin's barn last Saturday night while on his way home from town. The ditch is quite deep and the old gentleman fell on one of his shoulders, dislocating it. He was taken to an Omaha hospital Tuesday morning.

The Missouri Pacific Railway company have a gang of bridge men here, under the management of Fay Kested, driving piling and riprapping the north bank of the Platte river, at a point one hundred yards above the bridge, by which they hope to check the cutting away of the bank and injuring their roadbed. In addition to the piling a huge blanket is being woven of willows on which will be dumped a number of cars of rock. For several years past the river has gradually cut into the bank at this point and when an ice gorge formed the bottom would overflow and threaten to change the channel of the river, which would mean a great expense to the railroad company.

No Opium in Chamberlain's Cough Remedy

There is not the least danger in giving Chamberlain's Cough Remedy to small children as it contains no opium or other harmful drug. It has an established reputation of more than thirty years as the most successful medicine in use for colic, croup and whooping cough. It always cures and is pleasant to take. Children like it. Sold by F. G. Fricke & Co. and George D'Ment.

For chapped and cracked hands nothing is quite as good as an application of DeWitt's Witch Hazel Salve. Put it on before going to bed, use an old pair of gloves and see what a difference the morning will bring. Sold by F. G. Fricke & Co.

Nehawka

From the Register.

Mr. and Mrs. Jacob Gruber have been under the doctor's care the past week.

Born, Tuesday, December 11th, to Mr. and Mrs. George S. Holmes, a daughter.

Gladys, the five-year-old daughter of Fred L. Burdick, broke her collar bone one day last week by a fall from a table.

Mr. Charles Stocking, of Henry county, Ill., and Frank Young, of Murray, both old army comrades of E. A. Kirkpatrick, visited at his home last week.

C. W. Snyder got his chest badly pinched last Friday between a hayrack and the corner of a barn. Fortunately no bones were broken, but he was laid up a few days.

Mr. and Mrs. Samuel Johnson, of San Jose, California, who have been the guests of their nieces, the Misses Clee and Gene Berger, returned home the latter part of the week.

Mrs. Olive Moore, president of the Cass county W. C. T. U., was here Friday to attend the silver medal contest, and remained over Saturday to be present at the "Anti-Narcotic" meeting held at the home of Mrs. Johnson.

A Miraculous Cure

The following statement by H. M. Adams, and wife, Henrietta, Pa., will interest parents and others. "A miraculous cure has taken place in our home. Our child had eczema 5 years and was pronounced incurable, when we read about Electric Bitters, and concluded to try it. Before the second bottle was all taken we noticed a change for the better, and after taking 7 bottles he was completely cured." It's the up-to-date blood medicine and body building tonic. Guaranteed. 50c and \$1.00 at F. G. Fricke & Co.'s drug store.

Union

From the Ledger.

Mrs. T. G. Barnum has been very ill for several days, but is reported to be improving.

Mr. and Mrs. William Klarens went to Nebraska City on Wednesday to make some of their relatives a visit.

Mrs. G. S. Upton departed last Sunday for Craig, Mo., to see her brother, Joseph Reynolds, who was reported to be dangerously ill.

Wade Porter and family are now residents of this village, moving in from the farm last Friday. They occupy the Lloyd residence in the north part of town.

Mrs. A. R. Eikenbary arrived yesterday from Akron, Colo., for an extended visit with her parents, Mr. and Mrs. G. F. McNamee, and other relatives and friends in her girlhood home.

Comes now one T. J. O'Day and solemnly declares that he is something of a corn raiser himself, and produces the goods to prove it. He brought in seven ears of white corn that weigh 9 pounds, 11 ounces, and their total length is 74 inches; laid side by side they measure 18 inches across. That's some corn.

Charles McNamee, of Akron, Colo., arrived Monday to spend a few days with his parents and other relatives and friends. He looks as if the Colorado climate and "feed" agree with him, and reports that all the other ex-Union people out there are happy as Alabama "coons" in watermelon time.

Mrs. Abbie J. Klepser arrived home last Friday from Junction City, Oregon, where she had been visiting her son, John Klepser, and family. On the return trip, Mrs. Klepser had quite an exciting experience, being a passenger on the Union Pacific train that was wrecked near Church Buttes, Wyo., and was somewhat bruised about the hips and back and still feels some effects of the accident. The newspaper reports at that time gave the list of injured, including "Abbie J. Klepser, postal clerk, Union, Neb.," but Mrs. Klepser wants it distinctly understood that she has not abandoned her home and friends to become a railway postal clerk.

King of all Cough Medicines

Mr. E. G. Case, a mail carrier of Canton Center, Conn., who has been in the U. S. Service for about sixteen years, says: "We have tried many cough medicines for croup, but Chamberlain's Cough Remedy is king of all and one to be relied upon every time. We also find it the best remedy for coughs and colds, giving certain results and leaving no bad after effects." For sale by F. G. Fricke & Co. and George D'Ment.

New Cure for Epilepsy

J. B. Waterman of Watertown, O., Rural free delivery, writes: "My daughter, afflicted for years with epilepsy, was cured by Dr. King's New Life Pills. She has not had an attack for over two years." Best body cleansers and life giving tonic pills on earth. 25c at F. G. Fricke & Co.'s drug store.

Long Tennessee Fight

For twenty years W. L. Rawles, of Bells, Tenn., fought nasal catarrh. He writes: "The swelling and soreness inside my nose was fearful, till I began applying Bucklen's Arnica Salve to the sore surface; this caused the soreness and swelling to disappear, never to return." Best salve in existence. 25c at F. G. Fricke & Co., druggists.

Lots of our people have been criticizing me for buying the Maury stock saying it was old and dead. This is not true, though the store has never paid. The facts are it is only a few years old and in good condition, much to the credit of its managers. I have bought this stock for less than half price and am going to close it out the same way at the old stand. H. E. Weldman.

NEBRASKA AT STOCK SHOW

University Cattle Exhibit at the International Live Stock Exposition.

All Nebraskans will be interested to know that the exhibit of fat cattle sent to Chicago from the State University farm was again successful in winning several of the highest prizes offered by this, the largest live stock show in the world. Of the nine steers exhibited by our university, six were prize winners, one of them a nine-months calf, bred on the university farm, winning the Grade Angus Championship over all ages, and another, the College Championship over the cattle of all breeds and ages exhibited by the various state universities and agricultural colleges. Had Mr. Turner, who came from Herfordshire, England, to judge the grade steers and award the Grand Championship, judged the pure-bred steers, the university would have won on "Ruby"—a two-year-old Angus (pure bred)—the same honor that came to Challenger in 1903, viz: the Grand Championship plum. "Ruby" under the English judge in the College Classes was placed ahead of the two steers that had defeated him under a Chicago judge and was pronounced by the English judge the best steer in the show. This, however, was after the Grand Championship had been awarded to a breeder from Illinois. "Ruby" was sold to "The Fair" department store at fifteen cents per pound live weight, the top price of the show for single individuals, bringing for beef \$273.00. On the yearling steers entered in the carcass contest, the university of Nebraska won both first and second prizes, which is a strong testimonial for the system of feeding practiced at our state farm.

The exhibit this year, nine head, was the largest ever made by the university of Nebraska and a total of \$450.00 in prizes was won, to say nothing of the high prices received for the beef. One of the prize winners was selected from a car load of calves at the South Omaha stock yards nearly two years ago when a party of students were being instructed by Prof. Smith on the selection of feeding steers.

During the past few years the university has won \$1,500 in prizes at the International Stock Show on fifteen steers, one of the number, Challenger, winning \$430.00 in 1903. The high prices received for the beef have more than paid the expenses for exhibiting and the prize money has therefore been net profit to the state. The steers being fed for next year are even better prospects than those shown last week. These cattle are kept primarily for use as models in the student judging classes. Considerable care is exercised in their selection thought many of the steers are purchased at low prices. The Champion Challenger, selected from a Nebraska farmer's feed lot, cost the university five cents per pound, six months later selling for twenty-six cents per pound. The university of Nebraska has been further recognized by the fact that the book on judging and feeding live stock recently written for farmers and stockmen by H. R. Smith, professor Animal Husbandry, has been adopted as a textbook in the universities and agricultural colleges of twenty states and the Dominion of Canada.

In Praise of Chamberlain's Cough Remedy

There is no other medicine manufactured that has received so much praise and so many expressions of gratitude as Chamberlain's Cough Remedy. It is effective, and prompt relief follows its use. Grateful parents everywhere do not hesitate to testify to its merits for the benefit of others. It is a certain cure for croup and will prevent the attack if given at the first appearance of the disease. It is especially adapted to children as it is pleasant to take and contains nothing injurious.

Mr. E. A. Humphreys, a well known resident and clerk in the store of Mr. E. Lock, Allee, Cape Colony, South Africa, says: "I have used Chamberlain's Cough Remedy to ward off croup and colds in my family. I found it to be very satisfactory and it gives me pleasure to recommend it." For sale by F. G. Fricke & Co. and Geo. D'Ment.

Fell From Load of Hay.

A neighboring farmer was in town today, who reports that a few days ago our old friend, John Habscheidt, while engaged in hauling hay, accidentally fell from the load to the hard frozen ground. While Mr. Habscheidt was pretty badly shaken up, the Journal is pleased to learn that nothing of a serious nature resulted therefrom.

E. C. DeWitt & Co. of Chicago, at whose laboratory Kodol is prepared, assure us that this remarkable digestant and corrective for the stomach conforms fully to all provisions of the National Pure Food and Drug Law. The Kodol laboratory is a very large one, but if all the sufferers from indigestion and stomach troubles could know the virtues of Kodol it would be impossible for the manufacturers to keep up with the demand. Kodol is sold here by F. G. Fricke & Co.

AFFLICTED WITH CATARRH— LIFE HAD BECOME A BURDEN.

Pe-ru-na, Used As a Last Resort. Affords Complete Relief.

MRS. F. CARR.

The Relief Experienced By Mrs. Carr Through the Use of Pe-ru-na, After Having Tried the Best Professional Treatment in Va., is a Matter of No Small Wonder Among Her Many Friends.

Mrs. F. Carr, Vineland, Ont., Can., writes:

"For several years I was afflicted with catarrh, which made life a burden.

"The coughing and hacking which accompanied the disease was terrible.

"The complaint finally extended to the stomach and I was in a wretched condition.

"I tried different remedies and the best professional treatment all in vain.

"Finally, as a last resort, I tried Pe-ru-na upon the recommendation of my sister in Hamilton.

"I could see steady improvement and after using four bottles of that precious medicine I was feeling well again, my

old trouble being completely a thing of the past.

"To-day I would not take one thousand dollars for what this grand medicine has done for me."

Many women owe their lives to Pe-ru-na. A great many more owe their health to Pe-ru-na.

A multitude of women throughout Canada are using Pe-ru-na as a preventative and a relief from catarrhal coughs and colds.

We have in our files a great number of letters from grateful women who have been benefited by Pe-ru-na, with permission to use these letters in public print.

Catarrh would not be such a curse to the human race if people thoroughly understood its nature.

Catarrh is a disease which never improves of its own accord, but becomes deeper seated the longer it is neglected. It should be treated at once to prevent it from making inroads upon vital organs.

Would Make Law Definite.

A special from Washington under date of December 17, says: "Representative E. M. Pollard today introduced a bill in the house proposing to amend section 51 of the revised statutes of the United States relating to the pay of members of congress to fill vacancies. The text of the bill follows:

"Whenever a vacancy occurs in either house of congress by death or otherwise of any member or delegate elected or appointed thereto, the person elected or appointed to fill such vacancy shall be compensated and paid from and including the date of his election or appointment."

A man with a sprained ankle will use a crutch, rest the ankle and let it get well. A man or woman with an overworked stomach can't use a crutch but the stomach must have rest just the same. It can be rested too without starvation. Kodol will do it. Kodol performs the digestive work of the tired stomach and corrects the digestive apparatus. Kodol fully conforms to the provisions of the National Pure Food and Drug Laws. Recommended and sold by F. G. Fricke & Co.

Female Weakness

"Last Fall," writes Mrs. S. G. Bailey, of Tunneton, W. Va., "I was going down by inches, from female disease, with great pain. After taking Cardui, Oh! My! How I was benefited! I am not well yet, but am so much better that I will keep on taking Wine of Cardui till I am perfectly cured."

Despite the envious attacks of jealous enemies and rivals, Cardui still holds supreme position today [as in the past 70 years] for the relief and cure of female diseases. It stops pain, tones up the organs, regulates the functions, and aids in the replacement of a misplaced organ.
