A man is going at a dangerously high rate of speed when he travels at a twelve horse-power gait on a two horse-power income. man who travels at a six horse-power gait on an eight horse-power income can appreciate the speed, and has a clear idea where he will land. At the same time, he is not using up all his energy, but is creating a reserve which will see him over the rougher places.

It is a pretty good thing to be prepared for a rainy day. The man who has a bank account possesses an assurance that when misfortune or sickness comes, he will be prepared.

A bank account is a reserve that a man can draw upon at any time. The money is always available. We invite you to start an account at the

John Hobscheidt has sold his fine farm to N. Slocum and is now looking for something new in the line of a farm. The price he received brings to light the fact that Cass county land is still going skyward, also the number of deals that are at present in the wind. Frank Wiles has purchased the old Churchill farm at \$68 per acre. This place is located southeast of Murray. A short time ago N. Slocum conditionally purchased the Dan Kiser place near Mynard, and paid some money on the deal, which was made in this manner: If Mr. Kiser could find something that suited him in the way of a home the contract would be held good. Mr. Kiser failed to find what he wanted and returned to Mr. Slocum the amount advanced, and will continue to reside on the old home place. The purchase price was \$100 per acre, which amount Mr. Kiser is not sorry that he refused.

Uncle James Root has sold his town residence property to F. M. Young, sr., who, we understand, will in the near future, move from his farm into town. Mr. Root contemplates removing to Lincoln. Uncle Jimmie has a good farm which he has an opportunity to dispose of at a good figure, but the present lease will prevent him from doing so unless satisfactory arrangements can be made with the present occupant, Mr. Copenhaver. Mr. Copenhaver is willing to move if he can secure a place as good for the coming season, or in the simple words if he can be placed in as good surroundings as he is at present. The people of Murray are pleased to welcome Mr. and Mrs. Young and their estimable family to their little city.

Mr. Young is one of the prosperous farmers of Cass county, but from the many years of hard work, and at his

WOULD ENJOIN CASS COUNTY

Suit to Prevent Road Overseer Austin From Tearing Down Fence.

RESTRAINING ORDER ISSUED BY JESSEN

Hearing on Application For Injunction Set For January 16 at Office of Judge In Nebraska City.

In the district clerk's office an injunction suit entitled Hattie I. Taylor, and infant, by her guardian, Barbara A. Taylor, vs. Road Overseer E. Austin and Cass County was filed today by the plaintiff's attorney, John C. Watson. The action is brought to enjoin the defendants from tearing a fence on the plaintiff's property, in order to open up a public highway.

On the 11th of December, 1906, Road Overseer Austin notified the plaintiffs that the fence is in the public highway, running north and south on the half section line through the center of Section 25, Township 10 and Range 13 and that the fence forms an obstruction therein. At the same time he further notified the plaintiffs to remove said fence, and in event of a failure to comply with this notice by the 10th of January, 1907, he, as road overseer, would remove fence as provided by the law in such cases.

The 10th day of January is today, and therefore the plaintiffs, through their attorney, John C. Watson, of Nebraska City, instituted proceedings against the road overseer, and Cass county, and sought to secure an injunction. A restraining order was issued by Judge Jessen, who has set the 16th day of January as the date on which a hearing will be had in regard to application and issuing of the injunction. The hearing will take place at 2 o'clock of the above date in the office of the judge at Nebraska City.

ONCE WAS REPLETION

Grosvenor Doesn't Want Any More Military Manoeuvres Near Athens, O.

ROAST FOR THE REGULAR ARMY

Charged with Cold-Blooded Murder While Acting Unlawfully.

Crumpacker Asks a Suggestive Question—Senate to Vote on a Service Pension—Railway Work Hours.

Washington, Jan. 10.—By a vote of twenty-seven to fifty the house in committee of the whole, having the army appropriation bill under consideration, refused to strike out an item of \$1,000,000 for the purpose of paying the expenses of regiments, battalions, squadrons and batteries of the organized militia to participate in such brigade or division encampments as may be established for the field instruction of the troops of the regular army. Hay of Virginia insisted that the manoeuvres did not amount to much, and said that so far as the manoeuvres held in Virginia were concerned they were a farce.

Grosvenor Prepares a "Recess."

But the feature of the debate was the speech of Grosvenor, who treated these military manoeuvres very warmly. He related the story of the encampment held last summer near his home, Athens, O. He said that after getting the regulars and militia into camp they had two or three days of manoeuvres and then a sham battle. He said he had served four years and upward in the army at a time of active war, and that with a single exception he had never seen any regiment, brigade, division, battery or squadron manoeuvre, either in camp or in battle, upon any of the magnificent plans and details they undertook to perform at his home.

Always Irritation and Conflict.

"I do not know," he said, "what other people's experience at the town where I live was, but I know that we never want to see any regular conglomerate performance such as that was come near us again." He said there was always an irritation and conflict between farmers' sons and merchants' clerks and men of the regular army. Some trouble happened in Athens, and a soldier of the regular battery was arrested for being drunk and disorderly. A friend located him in jail.

MURDER AND NO PENALTY

Regulars and War Department Accused by Grosvenor.

That night fifty to seventy-five members of the battery to which the prisoner belonged slipped out of camp, organized themselves, marched up to town and into the jail, and as they were about to attack a guard of infantry commanded by a young officer, a corporal or a sergeant of the state guard, ordered them to halt. Fifty or sixty shots were fired and he (the young officer) fell dead in the street.

"There never was a man punished for anything connected with it," said Grosvenor. "There never was an officer called upon to report, and there never was any report made by the captain or other commanding officers of that regular battery, and the feeble attempt of the local authorities to punish the men who committed that cold-blooded murder was utterly futile for reasons that I do not care to go into just at this time under the surrounding circumstances."

He charged that the war department, in addition to the regular officers and men, had taken up the cudgel in opposition to the militia and in opposition to the militia of the state. Crumpacker asked if there were any colored soldiers at that encampment. "Not one," replied Grosvenor.

Heburn thought the million appropriation was an absolute waste of money. He was in favor of greater efficiency in target practice. He said the 10,000 men in Coffee's brigade at New Orleans were worth more than the whole regular army when it comes to the use of the musket. During the Mexican war, Heburn said, seventy cartridges were expended to produce a result; at the battle of Murfreesboro 119 cartridges were expended to produce a result; at the battle of Santiago 500 cartridges were used to produce a result, he had been told by an officer who participated in that battle.

Senate and House in Brief.

Washington, Jan. 10.—After a general discussion a tentative understanding was reached in the senate justifying the expectation that a vote on the general service pension bill will be taken tomorrow. There was a discussion of the bill limiting the hours of railway employes, and an executive session was held.

The house began the consideration of the army appropriation bill by sections under the five-minute rule. Before adjournment thirty-one of the forty-five pages of the bill were completed. The fortification appropriation bill was reported.

President Preparing Hot Message.

Washington, Jan. 10.—President Roosevelt, who is said to have obtained conclusive evidence that the negro troops alone were guilty in the Brownsville affair, is preparing a new and hot message for transmission to the senate.
