Dangers of a Cold and How to Avoid Them.

More fatalities have their origin in or result from a cold than from any other cause. This fact alone should make people more careful as there is no danger whatever from a cold when it is properly treated in the beginning. For many years Chamberlain's Cough Remedy has been recognized as the most prompt and effectual medicine in use for this disease. It acts on nature's plan, loosens the cough, relieves the lungs, opens the secretion and aids nature in restoring the system to a healthy condition. Sold by F. G. Fricke & Co. and A. T. Fried.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundations of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & Co. Toledo, O. "Before we can sympathize with others, we must have suffered ourselves." No one can realize the suffering attendant upon an attack of the grip unless he has had the actual experience. WOMEN'S WOES

Plattsmouth Women are Finding Relief at Last.

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must "keep up," must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only that helps and cures the kidneys only that helps and cures the kidneys and is endorsed by people you know.

Mrs. Joseph H. Smith, living at corner Second and Diamond streets, Wintersteen Hill, Plattsmouth, Neb., says: "Owing to a rearrangement of the kidneys, I have suffered a great deal for years from pain in the small of my back. I was troubled the most when on my feet or from any over-exertion. Difficulty with the secretions annoyed me and especially at night when my rest would be disturbed. My husband had his attention called to Doan's Kidney Pills and he brought home a box for me from Gering & Co.'s drug store. I used them according to directions and the treatment did me an infinite amount of good. The pain was relieved and there was much improvement generally. I pronounce Doan's Kidney Pills a most excellent kidney remedy." For sale by all dealers. Price 50c. Foster-McBarn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Nearly every person who is subject to attacks from the stomach suffers from a morbid dread of a dietetic treatment for relief, that is three-fourths starvation, and one-fourth toast and milk. On the other hand you can eat as you please and digest the food by the aid of a good digestant, thus giving the tired stomach equally as much rest. Eat what you please and take a little Kodol For Indigestion after your meals. It digests what you eat. Sold by F. G. Fricke & Co.

A special from Havelock under date of January 4, says: "While 'Red' Cornell, a man thirty years old, was working at a press drill in the Burlington shops yesterday, the coat sleeve on his left arm was caught in the drill and before he could pull loose wound him up in such a shape that his left arm was broken, the right leg broken in six places and the left leg in two places, three ribs broken, his ear nearly severed from his head and a dozen or so scalp and face wounds. The machine was stopped by his partner who was only ten feet away. Dr. Ballard was summoned and a special train took him to Lincoln to the hospital. He is still alive and with some hope of recovery if not injured internally. He has a wife and one child and had only been working in the shops since September."

One Bad Fall.

While coming from school this morn Bemie, the eight-year-old son of M. Fanger, lost his footing on the slippery sidewalk and fell, striking the pavement with much force. The greater part of the blow was on the forehead, where the little fellow received a bad gash. He was taken to Dr. E. W. Cook's office, where several stitches were required to close the wound. That there were not more accidents of this nature today is wonderful, considering the number of hard falls that have occurred.

John Covert, a Burlington brakeman, was injured in a peculiar way one morning last week. He was leaning from the window of the engine cab as his train was passing Balfour. He was struck in the head by a hanging mail pouch and knocked senseless. He regained consciousness after the train reached Pacific Junction, and was sent to his home at Creston.
