

CAUGHT BY THE GRIP-- RELEASED BY PE-RU-NA.

La Grippe Is Epidemic Catarrh.

THE disease now known as "grip" is to be called "influenza."

It very closely resembles a cold, but is more tenacious in its hold upon the system and produces more profound disturbances.

Grip is in reality epidemic catarrh. When it once begins it spreads over the country very rapidly.

People do not catch the grip from each other, but each one catches it from the atmosphere.

"Most Effective Medicine Ever Tried for La Grippe."

Robt. L. Madison, A. M., Principal of Cullowhee High School, Painter, N.C., is chairman of the Jackson County Board of Education.

He is a writer of occasional verse and has contributed to a number of leading papers and magazines,—religious, educational and secular.

In speaking of Peruna, Mr. Madison says:

"I am hardly ever without Peruna in my home. It is the most effective medicine that I have ever tried for la grippe."

"It also cured my wife of nasal catarrh. Her condition at one time was such that she could not at night breathe through her nostrils.

"In consequence, an inflamed condition of the throat was brought about, getting worse and worse and yielding to no remedy until Peruna was tried."

Healthy Mucous Membranes.

Those who are fortunate enough to have perfectly healthy mucous membranes ordinarily do not catch the grippe.

The mucous membranes lining the nose, throat and lungs, when in a normal state, are an effectual barrier against the invasion of grippe.

But, if there happens to be the slightest catarrhal derangement of the mucous membranes, then the victim becomes an easier prey to the grippe.

This in part explains why some people get the grippe, while others do not. The rational thing to do is to keep the system free from catarrh. In attempting to do this most people have found Peruna to be invaluable.

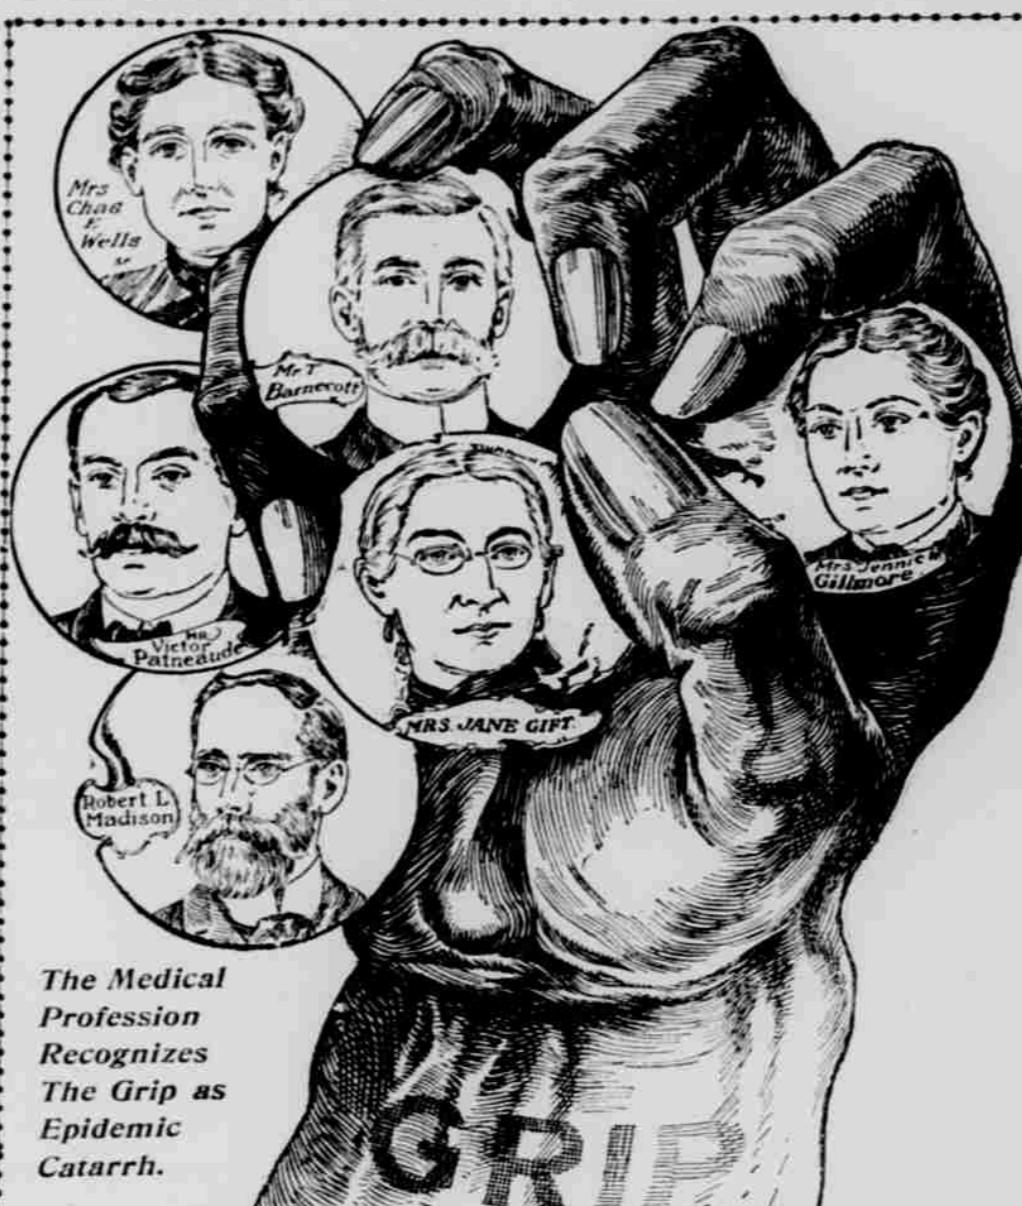

Systemic Catarrh, the Result of La Grippe. Pe-ru-na Receives Credit for Present Good Health.

Mrs. Jennie W. Gilmore, Box 44, White Oak, Ind. Ter., formerly House keeper for Indiana Reform School for Boys, writes:

"Six years ago I had la grippe, which was followed by systemic catarrh.

"The only thing I used was Peruna and Manalin, and I have been in better health the last three years than for years before.

"I give Peruna all the credit for my good health."

During an epidemic of grippe Peruna should be used. The doses recommended on the bottle are sufficient.

After the grippe has once been acquired, Dr. Hartman recommends the use of Peruna in teaspoonful doses every hour during the acute stage, after which the directions on the bottle should be followed.

Experience has shown that the people who use Peruna as a remedy for grippe generally recover sooner and are less liable to the distressing and long-continued after-effects of the grippe.

When Peruna has not been used during the course of the grippe and the patient finds himself suffering from the after-effects of this disease, a course of Peruna should be resorted to.

Suffered Twelve Years From After-Effects of La Grippe.

Mr. Victor Patneau, 328 Madison St., Topeka, Kan., member of Knights of Ladies of Security, writes:

"Twelve years ago I had a severe attack of la grippe and I never really recovered my health and strength—but grew weaker every year, until I was unable to work."

"Two years ago I began using Peruna and it built up my strength so that in a couple of months I was able to go to work again.

"This winter I had another attack of la grippe, but Peruna soon drove it out of my system. My wife and I consider Peruna a household remedy."

Pneumonia Followed La Grippe.

Mr. T. Barnebey, West Ayler, Ontario, Can., writes:

"Last winter I was ill with pneumonia after having la grippe. I took Peruna for two months, when I became quite well, and I can say that any one can be cured by it in a reasonable time at little expense."

Pe-ru-na—A Tonic After La Grippe.

Mrs. Chas. E. Wells, Sr., Delaware, Ohio, writes: "After a severe attack of la grippe, I took Peruna and found it a very good tonic."

Mrs. Jane Gift, Athens, Ohio, writes: "Six years ago I had la grippe very bad. I read a testimonial of a woman who had been cured of grippe by Peruna. My husband bought me a bottle of Peruna. I was soon able to do my work. I continued using it until I was cured."

FAREWELL SURPRISE PARTY

I. O. O. F. Lodge Entertains Complimentary to "Barney" Miller Last Evening.

The rooms of the Independent Order of Odd Fellows was the scene of a very social gathering Thursday eve. when the members assembled at their hall and held a farewell surprise party, complimentary to their fellow member, Henry Miller, who is preparing to move during the fore part of next week to his farm in Davies county, near Jamesport, Missouri. The surprise was complete in every detail, and proved to be a thoroughly enjoyable affair that will long be remembered by all the participants.

"Barney" has resided in this city many years and has always been one of the most active lodge workers, and it is with many regrets that the lodge loses a valuable member, and the community a popular citizen. For a number of years "Barney" has tended bar for Phil Theirof, where through friendly and courteous manners he has made friends with all whom he came in contact.

Observe Last Tributes.

At 10 o'clock Friday morning, the last tributes in memory of the late Miss Julia McElroy, were observed at the St. John's church. The services were conducted by the pastor, Rev. W. F. Bradley, in the presence of a large gathering of relatives and friends, whose many beautiful floral offerings silently attested the esteem in which the deceased was held during life.

After an impressive service at the church, the remains were conveyed to the Holy Sepulchre cemetery, followed by a long procession of friends.

The pall bearers were Messrs Conrad Gillespie, Chas. Guthman, Orville Kinze, August Bach, Henry Styne, and Chas. Neile.

Miss Julia McElroy was born in Hastings, Nebraska, on the 23d day of August, 1883, and has been a resident of Plattsmouth for quite a number of years, during which time she has won the respect and admiration of all whom she met. During this hour of grief, the relatives of the deceased receive the entire sympathy of the community.

The out-of-town friends who attended the funeral were the following: Mrs. Kate Bagley and daughter and Miss Mary O'Fallon of Nebraska City; Mrs. S. P. Morrison and son of Omaha.

OVERTAXED.

Hundreds of Plattsmouth Readers Know What It Means.

The kidneys are overtaxed: Have too much to do.

They tell about it in many aches and pains:

Backache, sideache, headache,

Early symptoms of kidney ills.

Urinary troubles, diabetes, Bright's disease follow.

A Plattsmouth citizen tells here a certain cure.

J. W. Hickson, employed with the Plattsmouth Water Co. and living on Oak street, between Seventh and Eighth, Plattsmouth, Neb., says: "My experience with Doan's Kidney Pills warrant me in giving them the strongest kind of recommendation. Off and on for twelve or fourteen years I was subject to attacks of pain in my back and other symptoms which gave evidence of derangement of the kidneys. Procuring Doan's Kidney Pills at Gering & Co.'s drug store, I used as directed and the benefit derived was so pronounced that I am able to attest to the remarkable value and merit of this remedy. Not only did it give me entire relief from the pain and other irregularities but toned up and invigorated my system generally. I can vouch at all times for the great good to be had from using Doan's Kidney Pills."

If the legislative season lasts much longer someone may introduce an amendment to the unwritten law.

There is now more tonnage in sight than the railroads can handle before the end of the year. An argument that should impress those who put on long faces when they speak of the future.

When the people of Nebraska get a "sufficiency" of the present legislature all they will have to do is to get up a smallpox scare in Lincoln and an adjournment will take place in a "jiffy."

Rev. "Billy" Sunday has originated some new forms of expression. In one of his "sermons" at Kankakee he delivered himself of the following: "I am the warm uncompromising enemy of the devil. I have fought him for nineteen years and I'll fight him until hell freezes over and then I'll buy a pair of skates and fight him on the ice."

The gall of some people is bigger than an average pumpkin. Recently a man who has never spent a cent with this paper wrote and asked whether we wouldn't "kindly" mention that he was going to have a public sale on a certain date. We'll not do it "kindly" but we will financially.

St. Louis has made an early start to capture both of the national political conventions in 1908. There is no reason why the next president should not be nominated in Omaha, if the citizens of the metropolis will put their best efforts forth in time, and go after one or the other of the conventions, or even both.

Right You Are.

Walt Mason, in the Beatrice Express, speaks a truth or two about the operation of the pure food bill which has occurred to us a number of times, and ought to be remembered by those who labor under the delusion that the pure food law means a great deal.

Mr. Mason says: "The pure food inspectors, when they get fairly to work pay special attention to those groceries which are exposed for sale in front of grocery stores. So far we don't see where the pure food law is going to do much good in protecting the people from the common eatables which are sold in cans and bottles. Take a bottle of ketchup, for instance; but the manufacturer prints a guarantee on the label, stating that the ketchup is made of the finest tomatoes, and is absolutely pure, but it doesn't seem that such a guarantee now is worth more than it was worth in the past. Restaurant and hotel men get hold of empty bottles bearing the guarantee labels of responsible firms, and then fill them with cheap stuff they buy in jugs, and this cheap stuff is made of anything from pumpkins to wheat straw. Anything that can be boiled can be used for that sort of ketchup."

Got 'Em Bad in Lincoln.

A music dealer in this town tells us that he has just placed an order for 25,000 talking machine records. Whether or not all of these potted tunes are to be sold in Lincoln, only the music dealer can say. But think of what 25,000 records will mean in Lincoln's good old summer time, then add the thousands that other dealers will sell, and imagine the result.

Dwell, if the subject is not too painful, upon the B flat possibilities of the long, hot evenings when windows are thrown high and doors stand wide. From across the way will come the refrain of that syncopated speculation, "If the Man in the Moon were a Coon," and out of a vibrating funnel in the next block will issue a counter irritant in the form of "The Holy City."

Lincoln, next summer, with all its records turned loose at once, will sound like the jangle of a Midway. Here shall we have one huge penny-in-the-slot parlor, with Salt Creek for a western boundary and Bryan's homestead echoing back the strains on the east, and with a flood of popular pieces breaking the evening silence all the way from the penitentiary to Belmont.

Open up your windows, ye Lincolites, and let the whole world hear, some fair night next July, that touching ballad, "The Feather on My Sweetheart's Summer Hat."—Lincoln Star.

Headache

Can be cured only by a remedy that will remove the cause.
