Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Files Motion for New Trial.

Through his attorney A. N. Sullivan, C. Lawrence Stull, the defendant in the criminal case of State vs Stull, who was found guilty by a jury after being out a short time of assault to commit great bodily harm upon Jesse Green, filed a motion with district clerk today asking for a new trial. Among the divers reasons upon which a new trial is sought are the following: "the verdict given appears to be given under the influence of passion or prejudice; verdict is not sustained by sufficient evidence; and for misconduct of county attorney for not calling Virgil Delezene, duly subpoenaed as a witness for the state, after the said Delezene had made a statement of what he knew about the affray, which is the basis of the charge in the information, and directed the said Delezene to go home and defendant nor his attorney did not know that he had been so directed by the county attorney as shown by his affidavit."

The penalty for the crime of which Stull was found guilty by jury is from one to five years in the penitentiary, but sentence has not yet been passed by the district court.

Accident Across the River.

Chas. Grant, foreman of the rirapping crew now at work at Henton Station, met with an accident that very nearly cost him his life last Tuesday. The crew had been dynamiting the river bank to prepare for the rirap work, and Grant had placed a charge of dynamite and the explosion did not follow as promptly as expected. Thinking the fire on fuse had died out Grant went up to examine it and the explosion came just as he reached the spot and he was hurled about ten feet bruising him about the face and filling his eyes with sand and dirt.

Dr. Bacon was taken to the scene of the accident on a hand car and looked after the injuries of Mr. Grant. It was feared at first that he would have to be taken to a hospital, but the doctor now thinks he can be properly cared for where he is. His eyes were in such a bad shape that it looked as though he would lose them both, Dr. Bacon at last report says he can save one of them and that there is a possible show for the other one. There were about thirty men in the crew but none of the others were injured.—Mills County Republican.

The Silver Trowel.

The celebrated silver trowel, of which so much has been said in Masonic circles, will be on exhibition in Omaha next Thursday, March 7. This trowel is on its journey around the world and is only permitted to remain so long in any one place. The grand lodge officers will be on hand, and a supper will be served early in the evening. We understand quite a number from this city and vicinity will attend.

Our watches are good and our prices reasonable. Crabill.

NEBRASKA'S ANNIVERSARY

The State Senate Officially Recognizes Fortieth Birthday of the State.

A special from Lincoln says: "The Nebraska senate today officially recognized the fortieth anniversary of the admission of Nebraska to the union by the appointment of a committee to draft suitable resolutions bearing upon the subject. Heading the committee is Senator Charles Saunders of Douglas county, son of Governor Saunders, who called the constitutional convention.

"The motion appointing the committee was made by Senator King of Polk county, who in his preliminary remarks briefly summarized the events leading up to the admission of the state, calling attention to the fact that on February 8, forty years ago, President Johnson vetoed the bill admitting Nebraska, that the congress passed it over his veto on February 14, at which time Governor Saunders issued the call for the convention. Senators Root of Cass, Patrick of Sarpy, McKesson of Lancaster, and Wiltse of Cedar were appointed as the other members of the committee.

A New Liquor Bill.

House roll No. 184, an act by Baker of York to prohibit the selling or giving away of liquor to minors under twenty-one years of age, was recommended by the house committee of the whole yesterday morning for passage. Some opposition was manifested, but the vote was 43 to 22 in favor of passage. Lahners of Thayer, asserted that the bill would prevent him from giving liquor to his own boy or his hired man, which he thought would be a restriction of personal liberty. An amendment was adopted to qualify the meaning of the act so that nobody will be amenable to its provisions unless the forbidden act is performed knowingly.—Lincoln News.
