

**"I Had a Cough
That Friends
Feared
Would End
My Life.
I Took
Pe-ru-na
And Am
Well."**

MRS. GRACE JANSON.

Mrs. Grace Janson, 1460 Madison street, Chicago, Ill., writes:
"Typhoid fever left me with a complication of diseases. I had a terrible pain in my left side and had a cough that all my friends feared would soon end my life."

"My doctor came to see me three times a week, but could do me no good. He could not account for the pain in my left side and could give me nothing to relieve me."

"About this time I began taking Peruna and before I had taken one bottle I had hopes of getting better. By the time I had taken the second bottle, my cough was entirely gone and I felt like a new being."

"I took just three bottles of Peruna and am entirely well and feel better than I have felt for years. I thank God and Dr. Hartman for my recovery."

MANY cases of chronic catarrh result from a settled cold.

Women are especially liable to colds. These colds occur more frequently during the wet, sloppy weather of winter and spring than any other time of the year. Often they are not considered serious and are allowed to run on, or they are treated in such a way as to only palliate the symptoms, while the cold becomes more deep-seated and the patient finally awakens to the fact that she has a well-developed case of catarrh.

**WOMEN SHOULD
BEWARE OF
CATCHING COLD.**

By reason of their delicate structure the lungs are frequently the seat of a cold, especially if there is the slightest weakness of these organs. The treatment of catarrh of the lungs is also more difficult and discouraging than catarrh of any other organ of the body. It would be wise, therefore, to guard against it by every precaution possible.

Peruna has been found a most reliable remedy for coughs, colds and catarrhal diseases, by reason of the fact that it goes at once to the very seat of the trouble.

Mrs. M. F. Jones, Burning Springs, Ky., writes:

"We have been using Peruna for some time and have no hesitancy in recommending it for the thousand and one ailments of humanity."

"No family should ever be without it, for it is an unfailing cure for colds, and it is an excellent remedy to prevent and relieve croup."

**Strong and Vigorous Since Taking
Pe-ru-na.**

Mrs. Laura Benyo, 324 Ann street, Cincinnati, Ohio, writes:

"I am entirely cured of catarrh of the bronchial tubes by Peruna. My chest feels strong and vigorous, and it seems as though I never had catarrh."

"Whenever I am in need of medicine, Peruna will be what I will take. It saved my life. I shall always sing its praises."

One Bottle Brings Relief.

Miss Annie Huelsman, R. R. 2, Wright City, Mo., writes:

"For years I was troubled with catarrh. A friend advised Peruna. With the first bottle I found relief. I kept on taking it and am entirely well."

THOUGHTFUL THINKS

Here's freedom to him that would read.
Here's freedom to him that would write.
There's none ever feared the truth should be heard.
But they whom the truth would indict.
—Robert Burris.

What is the sense in Walter Wellman trying to go to the North Pole in an airship when we have 2-cent fare in Nebraska?

Every man who passes the half-century mark recalls the time in his life when he wants all the friends he can get. Therefore do not be a kicker.

Scratch an individual who is constantly branding other people as dishonest, and under the skin you will find a scoundrel nine times out of ten.

"Had One Wife Too Many" reads a headline in the Buffalo Express. That's the predicament of a good many men, although they have no more than the law allows.

Displeased by the defeat of his pet measure, President Roosevelt is coming to the middle west to preach ship-subsidy doctrine. A difficult campaign with few converts is prophesied.

Dr. Wiley, in his latest exposure of the things we must not eat and drink, says: "We must keep our cell lipped." If we heeded everything we hear about food, we should have to keep them padded.

Instead of using their lungs this summer the baseball umpires will wave their arms like human semaphores. It is hoped that no player called out will try to interfere with the block signals.

A writer in Life goes to some length to show why the salaries of United States Army officers should be increased, but he fails to even suggest that the pay of the private should be more. If an army officer is unable to live on from \$1,800 to \$8,000 a year, he had better take a few lessons from his peers in civil life, many of whom get along very comfortably on \$1,000 and even less, per annum.

It is now up to the railroads to take their medicine at 2 cents per mile. The people no longer sit back, content to allow corporations or any set of men to run things to their notion, but take a hand when called upon to do so. Now if the railroads positively cannot carry passengers at 2 cents per mile, then the people of the several States passing similar laws may take it in hand to run the railroads themselves.

ELKS HOLD HIGH CARNIVAL

Initiate Seventeen Candidates Into Mysterious Realm of the Kings of the Forest.

MANY PARTAKE OF ELABORATE BANQUET

Nebraska City Lodge, the Guest of the Local Order, and Assist in a Grand Good Time, Lasting Several Hours.

In anticipation of a grand social time and a sumptuous feast, members of the antlered tribe from Nebraska City and of this city assembled at an early hour last evening at their stamping grounds in the lodge rooms of the local order No. 739 of B. P. O. E. The visiting Elks to the number of twenty, arrived last evening from Nebraska City and after perambulating about the city, repaired to the Riley Hotel where a few mementos of grazing was indulged in, preceding the "big doin's" that were scheduled to take place, when a large herd of candidates were initiated into the mysterious realm of "the kings of the forest."

Beginning at 8 o'clock, a scene of brotherly feeling prevailed until a late hour, the initiatory work being taken up first and the would-be Elks put through many trying ordeals. The efforts of the candidates to stay astride the "pesky brute," were greeted with much laughter and applause by those who had been through the experience. Following this work, which lasted over two hours, the much exhausted, but joyful new members, were escorted to the feast hall, where three long tables, tastily decorated with cut flowers and ferns and well laden with all the essentials of a fine repast awaiting them.

Over one hundred Elks were seated and partook of the banquet, at which Byron Clark, with much ease, acquitted himself as toastmaster. Those to respond with impromptu toasts were Messrs Henry R. Gering, W. E. Hoag, D. O. Dwyer and T. L. Murphy. The "spread" was under the supervision of Messrs Clifford, Soper, Murphy, Clements and H. A. Schneider, and is reported to have been excellent.

At the conclusion of the feast, several appropriate addresses were made by members of the local lodge, of the newly acquired, and by the visiting order. In the "Greeting" C. A. Rawls gave an excellent talk to the new members, and to the visiting members, of whose order the Plattsmouth lodge is a parent. The response on behalf of the new members was made by Judge H. D. Travis. "Our Babes," the members of the Nebraska City lodge, was the subject of some well timed remarks by G. F. S. Burton. On behalf of the visiting members, A. L. Jackson gave a talk on "Before and After" the organization of a lodge in Nebraska City, stating that they have over one hundred members, and a fine club house. "An Elk," by Matthew Gering, dealing with the ritual, and its teachings, responsibilities and influences upon the members was much appreciated and brought to a conclusion the evening's carnival of fun and brotherly spirit. The music was furnished by the Glenwood Orchestra, and contributed much toward the success of the affair, which is one of the largest in the history of the local order. The new members of the Nebraska City lodge returned home on the midnight Missouri Pacific passenger.

The new members taken into order number 739 of this city were George E. Dovey, D. O. Dwyer, C. F. Guthman, H. D. Travis, J. H. Thrasher, J. V. Egenberger, Michael Hild, J. V. Hatt, W. E. Hoag, C. W. Haney, C. A. Rosencrans, Henry Guthman, Julius A. Pitz, Matthew Jirousek, Chas. Kunsman and Drs. R. L. Newell and Frank L. Tracy of Union.

The following visiting Elks were present: L. F. Jackson, C. M. Derr, G. M. Thomas, F. Qulpring, I. Phifer, W. B. Payne, H. Snyder, F. Schroder, E. K. Rradley, W. A. Hughey, D. O. O'Brien, G. W. Schrimp, M. J. Beansang, H. H. Moore, J. O. Swipzie, of Nebraska City; F. L. Tracy, R. L. Newell, Union; Geo. Horn, Cedar Creek, A. B. Hancock, St. Joe, Mo.

Will Test Two-Cent Law.
A Chicago dispatch of the 5th says: After deciding to contest in the courts any and all 2-cent passenger rate laws in the west, the railroads are quietly preparing to put the new tariffs in effect in Nebraska. The railroads have their tariffs prepared. It is claimed, however, that the temporary submission to the new rates does not mean that there will not be no contest. The fine for a violation of the new law is so severe that the railroads do not care to run the risk of piling up any enormous amounts in fines to await the decision of a contest in the courts. They claim they will put in the rates and will also contest the new law.

Some Meteorological Records.

A destructive hail storm occurred in Connecticut in the afternoon of July 15, 1799. The quantity of hail was enormous, and it is reported that banks of hail remained on the ground a week after the storm occurred.

An unoccupied balloon, fitted with automatically recording instruments, on one occasion ascended to a height of ten and one-half miles, where temperature of ninety degrees below zero was registered.

A tornado occurred in Washington D. C., on August 24, 1814, the day that the British burned the capitol. The greatest preipitation in the United States is in Washington, where the average is 100 miles.

Solid gold and filled watches at Crabbill's. Satisfaction guaranteed.

Death of William Henton.

The intelligence of the death of William Henton at 7 o'clock last evening at his home four miles west of Pacific Junction, was received through a 'phone message to relatives in this city late last night. The deceased is a brother of Mrs. J. W. Johnson of this city, Mrs. Joe Adams and Mrs. Wm. F. Gillispie of Mynard, and a son of Mrs. Caroline Henton, who makes her home with her daughter, Mrs. Gillispie. He grew to manhood, has married twice, having four children by each wife, and has passed away to be laid to the last long rest in the hills of his childhood near Henton Station, where he was born forty-six years ago next May. The small station above referred to, was named in memory of the deceased's father. All the children, of whom the eldest is twenty-three years of age, and the youngest five months old, together with the second wife, survive to mourn the loss of a devoted husband and father.

The funeral will occur from the late home tomorrow, the exact hour not being designated as yet.

THE ASSOCIATION WINS OUT

The Supreme Court Says Assessors Cannot Tax Associations on Mortgages.

The decision of the Lancaster county district court striking from the tax list an assessment of \$20,000 on mortgages against the Nebraska building and loan association of Lincoln was affirmed by the supreme court yesterday, says the Lincoln Journal. The court holds that the law of 1889 defining the manner in which and by whom shares in a building and loan association shall be listed for assessment, is not unconstitutional and was not repealed by the revenue law of 1903. It is further held that an assessment of the amount of mortgages taken to the association, which the assessor assumes are unpaid, cannot be upheld. The assessor found the face value of mortgages of the association to be \$170,587 and by taking the number of shares listed by shareholders assumed that \$100,000 were unpaid and he assessed the association on \$20,000. The association appealed to the county board of equalization which ruled against it. The district court ruled in favor of the association and struck the assessment from the tax lists. From this decision the county board of equalization appealed to the supreme court. The decision of the lower court is affirmed.

Depart for Washington State.

Mr. and Mrs. Wm. Neville and two sons, Wm. H. and Chas. D., departed last night on the Burlington train No. 13, for Chehalis, Washington, where they will make their home in the future. The Neville family have resided in this city for many years and have a host of friends who regret to learn of their departure. The son, John D. and daughters, Mrs. F. L. Mary and Miss Agnes, have been located in Chehalis for some time, and the removal of the father, mother and brothers from this city to the west, re-unites the entire family again. The Journal wishes the Neville family a prosperous life in the western city that they have chosen for their home. On Sunday evening Mrs. T. L. Murphy entertained the Neville family, before their departure for the west.

At the Helm.

The Nehawka Register came out last week greatly improved in appearance and filled with local matter. O. J. O'Day is an old hand at the business which is fully demonstrated. The attitude of the Register, politically, will be independent, as will be seen by the editor's salutatory, from which we take the following extract:

"We expect to take part in county and state politics; but will be thoroughly non-partisan, and if the democrats or republicans put up bad men we'll try to help defeat them; but good men like Jesse Root, Judge Travis, Attorney Rawls, "Billy" Wheeler, Carrol Quinton, Clerk Rosencrans, if they have administered their trust well should be retained; because a man's honesty and capability and not his political beliefs should be the requisite qualifications for office. This is a big age and we can afford to be big; the world has no place for small tissue-paper fellows."
