

Catarrh, the Bane of the World Pe-ru-na, the Standard Remedy.

HOT WEATHER CATARRH.
Affects the Stomach, Kidneys, Bowels, Pelvic Organs.

COLD WEATHER CATARRH.
Affects the Head, Throat, Lungs, Bronchial Tubes.

Catarrh is recognized all over the civilized world as a formidable disease. In the United States alone, two hundred thousand people have catarrh annually. In other countries the ratio of victims is as great. For many years Pe-ru-na has held the foremost place as a standard remedy for catarrh. Pe-ru-na is well-known in both the western and eastern hemispheres.

TO KEEP THEM AT HOME

Why Boys Flock to Large Cities in Preference to Remaining at Home.

Most small towns are short of young men. As a rule there are plenty agreeable girls who would not object to matrimony; there are plenty of old people and enough babies to go around. But the boy—oh, where is he? The boy, the young man, has gone to the city, where he imagines there are opportunities. To him the old home town is dull and stupid. He sees no future of himself there. Both for social and financial considerations he rushes off to the great city. Very frequently he finds that he is lonelier there than at home—nearly always so; and even more frequently he finds that riches do not grow on ten story walls.

But still he goes to the city. In going there the boy simply follows his daddy's dollars. For years his daddy and his mother and his big sisters and his Aunt Mary Ann have been mailing their money to the big city for Mail Order bargains.

Result: Home merchants don't thrive, grass grows in the streets, no jobs are to be had, no opening for a new business, and the young man goes to the city because it is a place where people have traded at home and built up their own community and provided opportunities for outsiders as well as for themselves.

If you want to keep your boy at home, build up your town so that he can build up himself among his home folks and be home all the time.

Died of Cancer of the Stomach.

Oscar W. Arvidson died at his home in this city Thursday afternoon, March 21, 1907, at a little after 2 o'clock of cancer of the stomach. He was born in Sweden December 16, 1848. He leaves a wife and three children to mourn his sudden death. The funeral will be held from the M. E. church Sunday at 2 o'clock and will be under the auspices of the Ancient Order of United Workmen, of which he was a member. Interment in River View cemetery.—Louisville Courier.

Returns from Oklahoma.

Mr and Mrs James Sage returned Saturday night from Oklahoma, where they have been looking at the country. Some time since Mr. Sage purchased a tract of land near Minco, and on this trip he bargained for two hundred acres more, within two miles of the one he now owns. He says he met several of the Cass county people, among whom were Adam Schafer and Mike Swartzfisher, and had the pleasure of taking dinner with the latter. They seem to be doing well and are well pleased with the country.

Funeral of Mrs. O'Donnell.

The remains of the late Mrs. Sarah O'Donnell, who passed away at her home in Union, were brought to this city Tuesday morning. The last sad tributes were observed at St. John's church at 10 o'clock, Rev. W. F. Bradley officiating. Interment was made in the Holy Sepulcher cemetery.

Pull Together

The American game tug-of-war demands that all participants pull together, so not to give chance to their opponents to win the game. A family, a society, a nation can only be successful, if all pull together, and even our body can be healthy, only if all organs work in harmony. Let one organ stop its work and you are immediately in a grave danger. It is therefore important to keep in mind that even the slightest indisposition should not be overlooked. Triner's American Elixir of Bitter Wine should be your first thought as soon as you do not feel as well as usual, because it acts directly on the digestive system and brings all organs of the body to a harmonious activity. In all derangements of the stomach and of the intestines, in nervousness, weakness, paleness and in all diseases showing these symptoms Triner's American Elixir of Bitter Wine is of sterling value, and as a family remedy it has no peer. U. S. Serial No. 346 is the guarantee of its purity. At drug stores. Jos. Triner, 789 So. Ashland Ave., Chicago, Ill.

REMAINS ARRIVE FOR BURIAL

Many Friends of F. A. Campbell Who Died in Belpre, Kan., Pay Last Sad Tribute.

The remains of F. A. Campbell, who for many years was in the train service of the Missouri Pacific between Auburn and Omaha, and who died Friday after a short illness at Belpre, Kan., arrived this morning over the Missouri Pacific, for burial in this city. From the train the casket was conveyed to the home of Mrs. Campbell's mother, now Mrs. Siedenstriker, on Washington avenue, from which place the funeral occurred at 2 o'clock this afternoon.

The services were under the auspices of the Masonic order of this city, the deceased being a member of the lodge in Auburn, Neb. The funeral sermon was delivered by Rev. J. E. Houlgate, pastor of the Methodist church, after which the bier accompanied by quite a number of friends, was taken to the cemetery for interment.

The deceased was for many years engaged in the train service of the Missouri Pacific line in Omaha—the family making their home in this city, where they have many friends. Mr. Campbell has been in poor health for some time and while visiting with his parents in Belpre, Kansas, the last sickness came upon him. He was thirty-eight years of age and is survived by a wife and a number of children. Mr. Campbell during his residence in this vicinity, also joined the Elks in Nebraska City and was a member of the Brotherhood of Railway Trainmen.

Will Go to Cuba.

While in the city to spend Sunday with his family, Fred A. Murphy, who has been employed in the army department of "Uncle Sam" in Omaha for the past seven years, informs the Journal that he has been assigned to foreign service, being ordered to a suburb of Havana on the island of Cuba. Mr. Murphy expects to leave the 9th of April, sailing from Newport News Va., direct to Havana. The friends are glad to learn of his promotion, although they regret that it takes him so far from home. The Murphy family will continue their residence in this city as Mr. Murphy is of the opinion that the foreign duty will not require more than a year's absence from home.

TURNERS AGAIN DEFEATED

Neb. City Comes out on Top at Basketball Game Played to Large Crowd.

The return game of basketball played at Coates' hall Friday evening by the Nebraska City Athletic and the Plattsmouth Turner teams, resulted in another defeat for the latter team. An exceptionally large crowd was in attendance to encourage the home team, who put up a stubborn fight for the honors, but were unable to hold the visitors down, the contest resulting in 21 for Nebraska City, and 15 points for the Turners.

The visitors played a fast game from the very start, the first half ending in their favor by a score of 8 to 5. During the second half the local team made a desperate effort to even up the score, but this was offset by the fierce rushes on the part of the Nebraska City team. The umpire was Wade Miner of this city, and the referee a young man from Nebraska City, who on account of rank decisions, was censured by many of the spectators. The game nevertheless was one of the best attended in this city, and George Hoeyer for the visitors, and Chas. Wilkins and Fred Mann for the locals did excellent work. After the game the Nebraska City boys were entertained at a dance given by the defeated team, and several very enjoyable hours were had before the midnight train carried the victorious visitors home.

Road Drag.

Frank Roberts, who lives on the Gorder farm, three miles southwest of town, has conceived a very simple machine for dragging the roads, which is said to do the work of leveling the roads in a fine order. He calls it the "Missouri Drag," and those who pass his way unite in saying that it does the work complete in every respect. Mr. Roberts invites all to call and see this machine, in the hope that they will make one for their own use. Now is the time for such work, and roads that have been dragged early in the spring, will remain in perfect shape during the entire summer. Road dragging has become a great thing in the western states, and those who have had great experience in this work, say that if farmers will resort to this from time to time each spring, they will soon have the satisfaction of having as good roads in Cass county as in any of the states east of us. Let the farmers call at Mr. Roberts' and take a look at the Missouri Dragger.

Successful Box Social.

The box social given by the pupils and teacher, Miss Josephine Yelinek, at the Beckman school, west of this city, Saturday evening was attended by a large number of people from this city and surrounding country. An exceptional fine program was rendered by the scholars, followed by the sale of the boxes, which sold remarkably well, one bringing \$2.50. The visitors were delightfully entertained, and expressed much appreciation of the excellent program. The neat sum of \$51.50 was realized from the social affair.

New Machine Installed.

Our home enterprise, The Plattsmouth Glove company, continues to forge to the front by improving the mechanical equipment of the plant, and thus enabling them to extend their field of action. Another big addition was made to the factory today, when a new French overstretching machine was installed. This device is designed to put together fine dress gloves, and it is said that there are none like it in the west. A great improvement was made a short time ago when a combination work table fitted with shaft attachments for eight machines was put in the factory. The power for these machines is obtained from a gasoline engine, installed in Knapp's machine shops. The manager, H. M. Craig, is gradually reaching out into new territory, and the "Head-light Gloves" when once used is always asked for by the patrons.

"In 1897 I had a stomach disease. Some physicians said dyspepsia, some consumption. One said I would not live until spring. For four years I existed on boiled milk, soda biscuits and doctors' prescriptions. I could not digest anything I ate; then I picked up one of your Almanacs and it happened to be my life-saver. I bought a fifty-cent bottle of KODOL and the benefit I received from that bottle all the gold in Georgia could not buy. In two months I went back to work, as a machinist, and in three months I was well and hearty. May you live long and prosper."—C. N. Cornell, Redding, Ga., 1906. The above is only a sample of the great good that is daily done everywhere by Kodol for dyspepsia. It is sold here by F. G. Fricke & Co.

Robs the Colonel's Smoke House

A special from Murray to the Omaha World-Herald, under date of March 22, says: "Colonel Seybolt, living three miles west of Murray, awoke last night to find his smoke house in flames. A hurried investigation showed that his summer's supply of meat had been stolen and the building set on fire. An entrance was obtained by prying off boards at the rear of the building. No clue to the thief has been obtained."

THOUGHTFUL THINKS

Here's freedom to him that would read. Here's freedom to him that would write. There's none ever feared the truth should be heard. But they whom the truth would indict. —Robert Burns.

Kansas City gamblers, to elude the police, are playing in ice boxes. Probably games of "freeze out."

The advent of May, 1907, will be fittingly celebrated by the inauguration of improvement work on the Missouri river.

A nation that licked England twice, conquered the red skins, whipped Mexico and gave Spain a drubbing, ought to be able to put the brakes on Harri-man.

According to a government bulletin, the farmers have 44.3 per cent of last year's corn crop on hand. Nothing but absolute rest will eradicate the whole of a corn crop from the farmers' hands.

It wont be much trouble to follow the advice of Henry Clews, who says: "Avoid the man who habitually drinks alone." In most cases the solitary imbibor will do the avoiding.

The Louisville Times is telling tales out of school: "Hugs may be worth \$5000 each in certain parts of New York, but a squeeze on Wall street sometimes costs millions."

Nearly one hundred out of a hundred and nineteen Kentucky counties, have adopted local option. The state, however, may continue to boast of its beautiful women and fine horses.

Don C. Despain, Lincoln, Neb.: Write as many letters as you like, but always burn them before you send them.—Lincoln Star.

If this weather is really fooling us and the peach crop it will be the worse confidence game ever worked off on confiding and innocent human beings.

The Easter hat, bonnet, egg and millinery bill are due about the same week and hustling heads of families are busy as bees preparing for the inevitable.

The man who writes a continued story and opens each chapter with an apology for its writing becomes a bore, even though he appear as a "reformer."

A man in Idaho with eight daughters on his hands has offered \$1,000 each to the man who will relieve him of his burden.

If a woman is to become Dowie's successor in Zion the brethren will find it necessary to change the cut of the prophet's garments.

Secret service men now watch every move of the subtreasury employes. Possibly they think the man who took the money has got the habit.

It is now an even break as to length between day and night. The equinox has its opportunity, but The Journal hopes it will lie quiet and allow this pretty weather to continue.

Jerome is willing to admit that Thaw was insane when he shot Stanford White if the defense will admit that he is crazy now. The lunatic asylum is better than an acquittal, thinks Jerome.

Buttoned-up-the-back gowns are to go, but not necessarily because a professor of something or other has declared that the future woman is to be armless. Fashion doesn't have to have a reason for anything.

Soon the women wearing sunbonnets and half-hand gloves will be seen gathering greens to surprise the head of the household. Nothing tastes better than greens after a long winter of canned goods and "store" meat. "Oh, for hog jowls and crowsfoot greens."

Little things count mighty big in this great country of ours. For instance, in the past year it took \$15,000,000 worth of buttons to keep the clothing on our men, women and children. This does not include hooks and eyes. Those who use led pencils also spend money, the sum raising a bit over \$4,000,000.

The present crop of spring poetry is smaller and gives less evidence of parasitism than for many years. The people afflicted with a desire to write such effusions have shown much consideration for the public and for the publishers, and kindly refrain from asking space to get it out of their systems and into their own scrapbooks.
