Beware of Ointments for Catarrh that Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucus surface. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucus surface of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists. Price 75c per bottle. ### IN JUSTICE ARCHER'S COURT

First Case Under Law Prohibiting Minors from Loafing in Saloons

County Attorney C. A. Rawls appeared in Justice Archer's court yesterday evening with the necessary papers in the form of a written complaint against William Barclay, charging him with selling intoxicating liquors to minors on the 22d day of April. A warrant was immediately issued and served upon Mr. Barclay and duly returned, and Mr. Barclay appeared in court this morning and asked for a continuance until the 15th of May, which was granted. The complaint charges Barclay with five counts and all on the same day, the first being James Bueneke; second, Julius Kalacek; third, Frank Aschenbuner; fourth, Ed Kalacek; and fifth, Frank Chekol.

The above action is brought by County Attorney Rawls under the statute of the state of Nebraska, which provides for a fine of \$25.00 on each count, if the facts in the complaint are proven to be true, and under no circumstances can be reduced or increased, consequently if such facts are proven, the aggregate amount can be no more nor less than \$125.00. The case will come up for hearing in Justice Archer's court on the 15th of May.

Jacob Seybert's Death.

Jacob Seybert, who has been confined to his bed for the past three weeks with a complication of diseases, passed away at 11:45 a. m. yesterday, at the advanced age of 78 years, his last birthday occurring in February last.

The deceased was a native of Virginia, from which state he removed with his family to Cass county in 1868, where he has since resided. It can be said for our old friend that no man possessed more excellent traits of character, and his career through life was that of rugged honesty and integrity. The Journal expected to publish a full obituary of the deceased in this issue but we were unable to secure proper information in time, and will have to defer it to some other issue to be published later.

The funeral occurs from the late home at 10 o'clock tomorrow, the services to be conducted by Rev. Houtgate of this city. Interment will be made in the Eight Mile Grove cemetery.

The Sense for Order.

Without this sense for order nobody can achieve a prominent place in the world. Strangers Arrested.

Complaints reached the police last evening from various sections of First ward of the city of two suspicious looking strangers prowling around a number of residences. The police immediately started in search of the strangers, who were soon located and landed in jail, where they were kept over night. They claimed to have been simply begging for something to eat.

### THE ANTI-PASS LAW TEST

Judge Sullivan's Case as Viewed at the State Capitol by Officials

The Lincoln News in speaking of the case of Judge Sullivan of this city says: "A dozen or more members of the legislature will in all probability be subpoenaed to testify in the test prosecution started at Plattsmouth to determine the application of the new Nebraska anti-pass law. They will be asked to state the intent of the law-making bodies as to that phase of the act which restricts the issuance of free transportation with certain exceptions to 'bona fide employees the major portion of whose time is devoted to the railroad service.'" As there were some members who wanted to make the laws as rigid as possible, and others who aimed to leave loopholes in it, there is a strong probability that the evidence on this point will vary considerably.

"The Plattsmouth prosecution is directed against A. N. Sullivan, the attorney at that point for the Missouri Pacific. Sullivan, like Gov. Sheldon in the house rent case, had the legal proceedings started against himself, with the object to ascertain whether he could accept and use a pass from his company, inasmuch as he does not devote as much as half of his time to its business.

County Attorney Rawls of Cass county, who is conducting the prosecution of Sullivan, has written to the secretary of state's office for a copy of the anti-pass law. It will be sent him and used in the trial of the case as evidence.

"An attempt may be made by the defense to rule out any explanatory testimony by members of the legislature on the ground that the act itself and the ordinary usage of the English tongue are the best guides in this interpretation. Failing in this, it will probably call to the stand members of the legislature who wanted the anti-pass bill so constructed as not to interfere with the privileges of doctors, lawyers and some other classes.

"One sticking point in the case is likely to develop over the significance of the words 'free pass.' The act forbids the railroad companies to issue them except as especially permitted. It will probably be claimed by the defense that a pass given to a local attorney or physician who occasionally serves a transportation company is not 'free' in this sense. Attorney General Thompson, however, has held that 'free' transportation means any that a company issues for any consideration other than the usual cost equivalent."
