"I Am Glad To Write My Endorsement Of The Great Remedy Pe-ru-na. I Do So Most Heartily."

ANY remedy that benefits digestion strengthens the nerves. The nerve centers require nutrition. If the digestion is impaired, the nerve centers become anemic, and indigestion is the result.

Peruna is not a nerve nor a stimulant. It benefits the nerves by benefiting digestion.

Peruna frees the stomach of catarrhal congestions and normal digestion is the result.

In other words, Peruna goes to the bottom of the whole difficulty, when the disagreeable symptoms disappear. Mrs. J. C. Jamison, of Marchant street, Waterville, Cal., writes:

"I was troubled with my stomach for six years. I tried many kinds of medicine, also was treated by three doctors. They said that I had nervous dyspepsia. I was put on a liquid diet for three months.

"I improved under the treatment, but as soon as I stopped taking the medicine, I got bad again. I took the medicine for two years, then I got sick again and gave up all hopes of getting cured.

"I saw a testimonial of a man whose case was similar to mine being cured by Peruna, so I thought I would give it a trial.

"I procured a bottle at once and commenced taking it. I have taken several bottles and am entirely cured.

"I have gained in strength and feel like a different person. I believe Peruna is all that is claimed for it."

Nervines, such as coal tar preparations, are doing a great deal of harm. Sleep medicines and headache powders are all alike,—heart depressants, and should not be used. The nerves would be all right, if the digestion were good. Peruna corrects the digestion.

How to Run a Newspaper.

- When a man goes astray
Keep it out.
- When the critic roasts a play
Keep it out.
- When two men in anger clash:
When a merchant goes to smash:
When the cashier steal the cash—
Keep it out.
- When they quarrel in the church
Keep it out.
- When a teacher wields a birch
Keep it out.
- When nine women fair to see
Whisper something over tea—
Print it? Goodness, gracious me!
"Keep it out!"
- When two statesmen make a deal
Keep it out.
- When another tries to steal
Keep it out.
- Stories thin and stories tall:
Good and bad and big and small—
Anything that's news at all—
Hear 'em shout:
"Keep it out!"

Snowed 32 Years Ago.

In conversation with Judge Archer, he tells us that he distinctly remembers that on the 2nd day of May, thirty-two years ago, Cass county was visited by a heavy snow storm, at which time he was residing near Rock Bluffs, which was the only time until yesterday that snow ever fell in Cass county in May, since 1875. It was on Sunday and will be remembered by many of the old residents.

Have to Use Ladders.

The other day we met one of our lumber dealers going down street with a ladder on his shoulder. We asked him what he wanted with a ladder and he stated that the price of lumber had gone so high that he had to have a ladder to show customers his prices.

MAKE THE TOWN BEAUTIFUL

Timely Suggestions that Should be Accepted by Every Property Owner in Plattsmouth.

The Journal endorses every word of the following from the Lincoln Trade Review, and we hope many of our readers will do the same and act accordingly: "No resolution can be taken by a community that will be more beneficial individually and collectively than a resolution to get together and make one's town more attractive, more cleanly and more desirable in which to live. This is the time to not only resolve but to act along these lines. There is something in the proposition that if a town is looked after in this way it will draw more people to it, but there is infinitely more in the proposition that work of this kind should be done for the good of the whole people now living in it. If your town has a population of two thousand and you can benefit every one by improving the cleanliness and appearance of the place entire. At best you could not reach nearly so many new people no matter how much you do. No where can work be done that will accomplish so much for little outlay as can be done in our prairie cities. Nebraska towns can be made attractive at a minimum expense, practically with no expense if each individual property owner does his part. Let a city get right on sidewalk construction and half the battle for a pretty town is won. Let there be a system of town cleaning that will clean up filthy and filled up alleys and another long step is taken in the right direction. Neither of these require additional expenditure of money, they simply require something that has to be done right and thoroughly. In no way can a commercial club organization do a more appreciative work than by joining hands with its local government to make their town clean and attractive."

FIRST NATIONAL FILES SUIT

Against the Executrix and Heirs of the Estate of Frederick D. Lenhoff.

In the district court Friday a petition of suit was filed by the First National Bank, through their attorney, against the heirs and the executrix of the estate of the late Frederick D. Lenhoff, deceased, and all of the following parties are made defendants in the suit: Katherine E. Lenhoff, as executrix of the estate of Frederick D. Lenhoff, deceased; F. W. Lenhoff, Geo. B. Lenhoff and Matilda Lenhoff, as heirs of the deceased, to recover on a note given by deceased to the Plattsmouth Brick and Terra Cotta company, of which corporation said testator was a stockholder, and was for the sum of \$666.40 with interest, which claim was allowed at the time the estate of the deceased was probated in the county court. Later executrix appealed the matter to the district court of Cass county, where said judgment was confirmed and said claim ordered paid in the sum of \$708.75 with interest and costs which amount is still unpaid.

Plaintiff further alleges that said testator prior to May 5, 1903, was the owner of one-half of lot 6, in block 34, on which is situated a two-story brick building in the city of Plattsmouth, and that on said day for the purpose of defrauding and cheating said plaintiff a deed therefor was placed on record conveying the same to his son, Geo. B. Lenhoff in whose name it now appears on the records, and further alleges that said Geo. B. Lenhoff paid no consideration, the son being charged in conspiracy with the father and mother.

Fred W. Lenhoff and Matilda Lenhoff are both made parties thereto as heirs of the deceased. The plaintiff asks that said deed be set aside and adjudged fraudulent and subject said property to the payment of plaintiff's claim, or any other relief as may be equitable in the premises.

Some Fine Hogs.

August Gorder received two fine Poland China brood sows from Union this morning. They came from the herd of E. M. Smith, and are indeed fine ones, and contain the best strains known to the popular Poland China breed.

Mortgage Record.

The following is the mortgage record for the month of April, as shown by County Recorder H. A. Schneider's books:

| FARM PROPERTY. | |
|----------------|----------|
| Filed..... | \$13,350 |
| Released..... | 20,600 |
| Total..... | \$23,950 |
| CITY PROPERTY. | |
| Filed..... | \$10,905 |
| Released..... | 4,895 |
| Total..... | \$15,800 |

There were five farm mortgages filed and fifteen released. Itching, torturing skin eruptions, disfigure, annoy, drive one wild. Doan's Ointment brings quick relief and lasting cures. Fifty cents at any drug store.

Voluntary Petition in Bankruptcy.

The Lincoln Journal of this morning contains the following: "A voluntary petition in bankruptcy was filed by H. D. Travis of Plattsmouth for William M. Divine, a merchant of Greenwood, in federal court yesterday. It was said the property of Mr. Divine will more than pay the claims, if properly handled; that his business consisting of a \$7,000 stock of goods, is in good shape and that ill health causes him to take this step. His debts are scheduled at \$6,122.94, of which amount the sum of \$3,239 is secured. Judge T. C. Munger entered an order in bankruptcy and referred the case to Referee J. A. C. Kennedy. It is said that Mr. Divine is ailing from consumption."

OUR CITY IN GOOD SHAPE

Not a City in Nebraska That Can Show a Better Financial Standing

HOME FIRST—THE WORLD AFTERWARD

A Decrease of Fifty-five Per Cent on City Taxes in Three Years.

There is not a city in Nebraska that can claim right now a brighter future than Plattsmouth. In the first place, the city is in the best financial condition she has been for many years and many of the older inhabitants say in a better shape as regards taxation, the town has ever been. Another thing, our business men are becoming more congenial with each other, and are more disposed than ever to "pull together" for Plattsmouth.

It is with considerable pride that the Journal points to the excellent condition of our city. There has been a gradual decrease of taxation in the past three years, and today the records show a total decrease of 55 per cent in that time. Not only this, but there is not a single over-draft or registered warrant, with \$23,104 in the city treasury. This is certainly a record of which every taxpayer should feel proud. While we can thus boast of such an excellent financial condition, it is but justice that due credit should be given to Mayor Gering and the members of the council, who have assisted him in the engineering of public affairs. It is indeed a record they can point to with pride.

There is not a city, town or village in the state of Nebraska that can show a better condition financially, and we very much doubt if there is even one with as good showing. Such a state of affairs has much to do with inducing new comers and manufacturing establishments to locate here. No one wants to locate in a town that is head over heels in debt and the rate of interest and taxation beyond that of other cities of Plattsmouth's dimensions.

Under present conditions people are coming to Plattsmouth every day, buying property and locating here, manufacturing establishments have an eye in this direction with a view of locating in the future, and with the coming of the Interurban road, we may expect big things for Plattsmouth. But with all these things in view, let our business men and merchants generally continue to pull together for a "Greater Plattsmouth," and success is bound to crown our efforts.

News from the "Omaha."

The Kansas City Times of May 2, in speaking of the steamer "Omaha," formerly the "Lora" says: "Ten tons of confetti and five tons of fireworks were delivered in Kansas City yesterday by Captain Alex Stewart of the river steamer Omaha. The Omaha left St. Louis a week ago Tuesday and is bound for Omaha, where it is to be used as an excursion boat. Ten tons of farm machinery was delivered in Jefferson City. There are fewer snags in the river now than ever before, said Captain Stewart."

RULING ON SCAVENGER LAW

Judge Jessen Interprets the Rights of County Commissioners to Bid

A special from Nebraska City says: "Judge Paul Jessen handed down an important decision on the new revenue law. It was in the city of W. F. Hair vs F. M. Cook, county treasurer. The suit was instituted some time since to test certain portions of the law. The county commissioners had gone into the treasurer's office after the treasurer had made his sales and raised the bids on a large amount of property which had been bid on below its actual value. The commissioners increased the bids over \$10,000 and they considered their bids were low, when the actual value of the property was taken into consideration. The first question raised was if the commissioners had a right to go to the treasurer and bid on any property on which there was delinquent taxes save on the days of sale. The next was if they did where were they going to get the money, which the law says must be put up by any one bidding over another. All of the members of the bar were present and discussed the matter with Judge Jessen last week and he took the case under advisement. Yesterday he handed down a decision in which he held the commissioners had no right to bid at any time save at sales, only as individuals and ordered the treasurer to accept the bid of Mr. Hair, which had been offered prior to that of the commissioners. All of the property in this city and county on which there were delinquent taxes had been sold last year and the buyers of the certificates are well pleased with the decision, but it will lose to the county many thousands of dollars when if the commissioners were able to have carried out their idea and bought in the property and sold it at private sale. The commissioners may instruct the county attorney to take the matter to the supreme court and have that body pass upon the questions raised."

Funeral of Mrs. Sarah Peterson.

The funeral of the late Mrs. Sarah Peterson occurred Sunday afternoon at 2:30, the services being conducted from the house by Rev. Swanson, of the Swedish Mission church of Wahoo, assisted by Rev. Hougate of this city.

Quite a large number of friends and relatives were in attendance to pay their last sad rites to a noble pioneer lady, a most dutiful wife and loving and affectionate mother. The services were very impressive, the Swedish ladies aid society contributing several very beautiful and appropriate vocal numbers. After the services the remains were conveyed to Oak Hill cemetery followed by a large number of sympathizing friends, where interment was made. Many out of town friends were here to attend the funeral, among whom were Mr. and Mrs. Nels Hawkinson, and Mr. and Mrs. Chas. Bong, of Havelock, Mrs. A. E. Carlson, and daughter, Miss Esther, and the Misses Mayme and Edith Johnson, of Omaha, and Miss Josephine and Sigrid Anderson of Lincoln.

The pallbearers were composed of the following gentlemen: L. C. Larson, John Holstrom, L. G. Anderson, August Anderson, Chas. E. Ryberg and A. Piestrup.

The deceased was a most excellent lady, and being among the pioneer citizens of Plattsmouth was widely known for her many fine traits of character.

A Cold Spring Kills Grasshoppers.

F. M. Timblin of Weeping Water relates an incident showing one period in the history of Nebraska when a freeze toward the end of April was a blessing for the state and saved the country from the grasshoppers. The first grasshopper raid occurred in 1866, the arrival being so late that little damage was done to crops and they left their eggs, however, and did much damage the following year. The second raid occurred in 1874. Then they came in August and cleaned out everything and also did much damage the following spring. The third and last raid was in 1876, when considerable damage was done to crops and the ground was filled with eggs for the succeeding spring. About April 1, 1877, the eggs hatched and millions of hoppers swarmed over Nebraska fields, threatening every growing thing. The farmers were disheartened and it began to look as if the country was never to be free from the pests. A cold rain killed off the first batch but the hoppers were up and coming again when a snow about the middle of April killed more. On the night of April 29, the ground froze hard and finished the good work.
