### Every Man His Own Doctor.

The average man cannot afford to employ a physician for every slight ailment or injury that may occur in his family, nor can he afford to neglect them, as so slight an injury as the scratch of a pin has been known to cause the loss of a limb. Hence every man must from necessity be his own doctor for this class of ailments. Success often depends upon prompt treatment, which can only be had when suitable medicines are kept at hand. The next man who attempts to write animal stories, without first having obtained permission and data from one Theodore Roosevelt, will deserve a medal for bravery and honorable mention for common sense. The president should make close study of the Teddy Bear and write a learned treatise upon that docile creature for Cortelyou's financial kindergarten. This would be popular among officeholders and help along the Taft boom to renominate Roosevelt in 1908.

### Foiled Them All.

The young people when they fall in love, and while they think they are keeping the matter to themselves always give it away in one manner or another. But trust to the old fellow who has had experience to keep the matter of his tender passion a secret until the proper time to spring it upon his friends. The friends of Dr. A. P. Barnes were a trifle mystified when he asked them to have a cigar on his wedding, last evening, when he returned from Omaha, where he and Mrs. E. K. Barkus were united in the holy bonds of matrimony. The Journal joins with a host of friends of the happy couple in wishing them a very pleasant journey through life, and that they may learn from the wisdom of the age, and be cheered by the sallies of youth.
