KEEP THE KIDNEYS WELL

Health is Worth Saving, and Some Platts-mouth People Know How to Save It.

Many Platts-mouth people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger when all diseases and aches and pains due to weak kidneys can be quickly and permanently cured by the use of Doan's Kidney Pills.

Mrs. M. E. Hartman, living at 703 Rock street, Platts-mouth, says: "My father was greatly benefited by the use of Doan's Kidney Pills. For years he did not have good health. Pain in the back owing to kidney trouble caused him considerable suffering and particularly so when on his feet. Learning about Doan's Kidney Pills, I procured a box for him at Gering & Co.'s drug store. He used them as directed and the pain was relieved, his back and kidneys strengthened and there was noticeable improvement in his general health. It is needless to say that the results which he obtained gave him cause to value Doan's Kidney Pills very highly."

PROF. ROUSE GOES TO PERU

He Resigns the Position as Superintendent of the Platts-mouth Schools.

There was a meeting of the board of education this morning at which the following was presented an acted upon:

PLATTS-MOUTH, NEB., June 10, 1907. Board of Education, Gentlemen:— I am offered the chair of elementary education in the Peru Normal school. I desire to accept as soon as released. I therefore tender my resignation to take effect at the end of the school year, July 1, 1907. I thank you for all the kindness you have shown me, and for the most candid support you have given me. Yours Truly, E. L. ROUSE.

The board accepted with much sorrow the resignation. All the friends of Professor Rouse will be glad to know that he has a better position than the one which he occupied here, but their joy will be mingled with sorrow, to lose him as an instructor in the high school here.

We consider that the schools here have never had a better or more competent instructor, than has been proven by experience, and the successful way in which the schools have been conducted, than is found in the departing superintendent of the city schools. Mr. Rouse came here four years ago, and the circle of his friends have grown wider and wider as he has become known, and his ability acknowledged. He has ever been a persistent worker in the school room and on the lecture platform, during whatever vacation there was. Not alone in the school room has he been a help to those under his instruction, for his every day life has been help to those with whom he has mingled. In the Sunday school and church he has exerted a very potent influence for good, as superintendent of the Christian Sunday school he will be missed for he has been an earnest, intelligent worker there.

As a superintendent and an organizer of teachers and intelligent teacher methods, we joyfully recommend him to those who are directly interested in the schools at Peru, and at the same time, we feel that we have lost from our community an intelligent, progressive and patriotic citizen, the best of a neighbor and a royal friend.

THOUGHTFUL THINKS

Here's freedom to him that would read, Here's none ever feared the truth should be heard! But they whom the truth would indict, —Robert Burns.

It's getting so that any honest man resents being called "a reformer."

Mr. Fairbanks sees many reasons why he should be president. Of these the chiefest is that he wants it so badly.

Anyone can make a good resolution between 7 and 9 a. m.; it's the man that makes one between 7 and 9 p. m. that means business.

We have boiled all the weather prophesies down to this conclusion: warm weather will not be here until the cool weather has left us.

Meat has gone so high that many dealers handle only the cheaper cuts. It is certainly accommodating in the cattle to bring to town so many cheap cuts.

A Connecticut man declares that he recently saw an eel eating the family wash from the line. Here's another candidate for the president's Ananias club.

After the umpire has been called robber, thief and lobster a few times, nine out of every ten persons in the grand stand wonder what kind of a salary he gets.

Pennsylvania is for Knox, Indiana is for Fairbanks, Illinois for Cannon, Iowa for Cummins, New York for Hughes, maybe. But whom is the United States for? That's the question.

Weather Man Connor has brought us through the early spring, the middle spring and the last spring safely and now, without any warning, he springs "humidity" on us—the unkind wretch.

If the president will be guided in his action on the Oklahoma constitution simply by the law and the will of the people of the new state, there is no doubt that the forty-sixth star soon will be added to the flag.

Wonder of wonders! Weeping Water has a woman who can deliberately and maliciously and unaffectionately stand up and kill a cat! And with a revolver, too! Wouldn't she make a hit as a vaudeville attraction?

When you've got your fill of fishing, and your sunburns smart and burn, don't you always get to wishing, as at dusk you homeward turn, that you'd listened to the pleadings of your wise, far-seeing wife, and had spent your Sundays reading. I do, you bet your life!

The New Jersey physician who says that kisses should be sterilized does not give a prescription with his warning against microbes. Probably another kiss would do just as well as anything else.

According to the testimony of Orchard at Boise, he must be worse than a ship load of Captain Kidds with a dozen or so Dick Turpins thrown in. In Orchard's confession the dime novel writers have material for many years to come.

Jesse R. Grant, son of General U. S. Grant, declares his intention to become a candidate for the democratic presidential nomination. He probably will make the fact of his being a chip of the old block the main plank in his platform.

Dealers complain of having stocked up on straw hats and the weather man arbitrarily refuses opportunity to unload them upon the hotbeds of the country. Unless Old Sol soon gets calorically busy straw hats can be had for a discordant song.

The country will eagerly await Mr. Roosevelt's comments on the story from Ogden, Utah, of a mother bear that tied up a railroad division by keeping an operator locked up while in search of her cubs. Dr. Long may find material in the story to further his controversy.

The man who crossed a parrot with a guinea hen and produced a talking chicken created a sensation, but he is in danger of being presidentially dubbed a nature fakir. Now, if he will only cross the rough rider with the Big Stick and produce a petrification he will relieve a long felt want and render his country signal service.
