

I Took Pe-ru-na, Hardly Daring to Believe

So Writes Mr. Newhof, of Albany.

Pelvic Diseases in Men.

Many an invalid is dragging out a miserable existence with catarrh of the kidneys, catarrh of the bladder, or both.

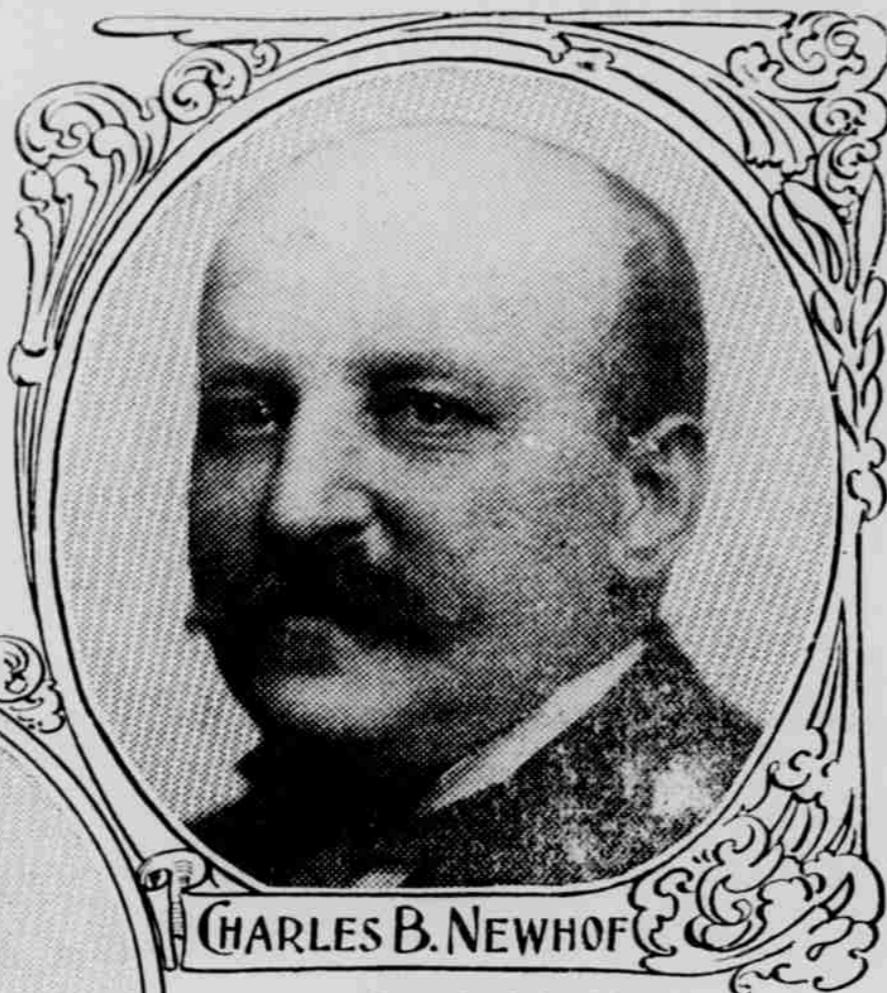

There is no disease equal to catarrh of the bladder in producing complete wretchedness, absolute despair, haggard misery and stubborn weakness.

An army of this sort of victims have one by one discovered that Peruna could be relied upon to relieve such cases.

One man tells another man, and in this way the news spreads until in all parts of the country are to be found men who have been permanently liberated from the thralldom of catarrh of the bladder by a course of Peruna.

Many cases of catarrh of the stomach, kidney and other abdominal organs have reported themselves as cured.

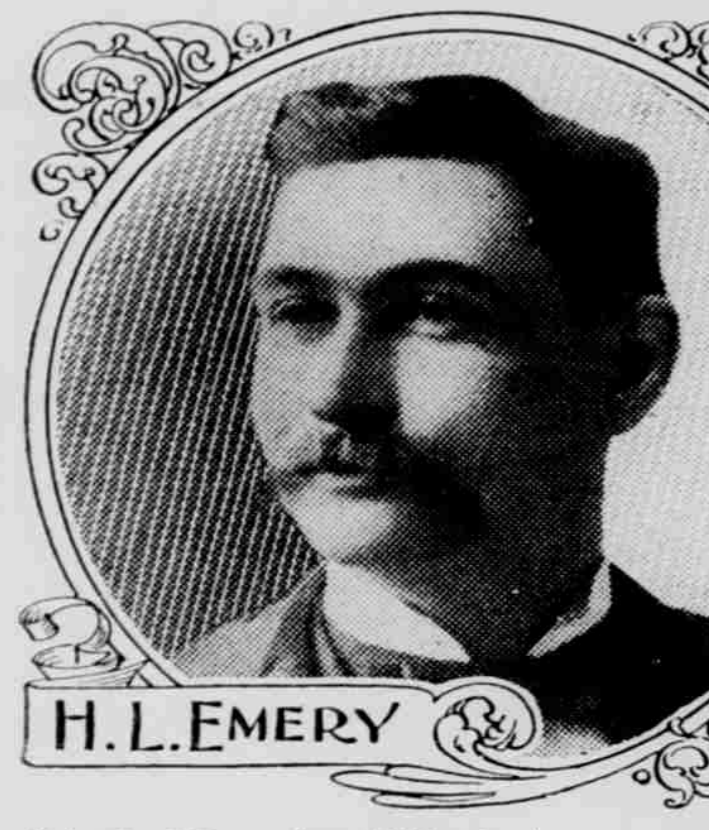

We give below two prominent testimonials which illustrate the benefit of Peruna in these cases.

CHARLES B. NEWHOF

Catarrh of the Bladder.

Mr. C. B. Newhof, 10 Delaware street, Albany, N. Y., President Montefiore Club, writes: "Since my advanced age I find that I have been frequently troubled with urinary ailments. The bladder seemed irritated, and my physician said that it was catarrh caused by a protracted cold which would be difficult to overcome on account of my advanced age. I took Peruna, hardly daring to believe that I would be helped, but found to my relief that I soon began to mend. The irritation gradually subsided, and the urinary difficulties passed away. I have enjoyed excellent health now for the past seven months. I enjoy my meals, sleep soundly, and am as well as I was twenty years ago. I give all praise to Peruna."

H. L. EMERY

Catarrh of Stomach and Kidneys.

Mr. H. L. Emery, Vice Chancellor and Master of Arms, K. P. S., of Omaha, Neb., writes from 205 North Sixteenth street, the following words of praise for Peruna as a tonic. He says:

It is with pleasure I recommend Peruna as a tonic of unusual merit. A large number of prominent members of the different orders with which I have been connected have been cured by the use of Peruna in cases of catarrh of the stomach and head; also in kidney complaints and weakness of the pelvic organs. "Peruna tones up the system, aids digestion, induces sleep, and is well worthy the confidence of sufferers of the above complaints."

Mr. David L. Jagox, Chaplain Clarinda I. O. G. T. and Chaplain G. A. R., 865 Broadway, Oakland, Cal., writes: "I am an old war veteran. I contracted severe bladder and kidney trouble. I spent hundreds of dollars and consulted a host of doctors, but neither did me any good.

"Finally some of my comrades who had been cured by Peruna advised me to try it. I at once bought a bottle, and found it helped me so much that I kept using it for nearly four months.

"Peruna has proven the best medicine I ever used. My pains are gone and I believe myself to be cured. I feel well, and would not be without a bottle in time of need for ten times its cost."

Mr. Robert E. Hanvey, Treasurer Knights of Industrial Freedom, also a well known writer and lecturer, writes

from 11 South Nicholas St., Chicago, Ill., as follows:

"I was in good health until about four years ago, when my back became lame and sore. The pains kept increasing, with severe twitches and slow exhaustive aches. Urine was highly colored and passed with great irregularity. I knew this must be inflammation of the bladder.

"Having read of Peruna I decided to try it. I found relief from the pain within ten days. The aches gradually diminished, and it was a blessed relief I can assure you. Within three months I was well once more. My appetite had returned, nervousness and irritability were things of the past, and for over two years now I have been a healthy man.

"I give all thanks to your Peruna, and believe that it is a blessing to mankind."

BURLINGTON RAISES RATES

Practically Ignoring Maximum Rate Law, to Go in Force July 4

Totally ignoring the maximum rate law which takes effect in Nebraska after July 4, requiring a 15 per cent reduction on building material and other specified commodities, the Burlington railroad has prepared and filed with the state railway commission a rate sheet on lime and cement increasing the tariff on these articles from 1-2 to 1-1-2 cents per 100 pounds on shipments from Plattsmouth and Omaha to various points in Nebraska effective July 12.

The new rate sheet is printed on an interstate form, the excuse for this being that rates are quoted from Council Bluffs and Pacific Junction as well as from Omaha and Plattsmouth. This arrangement has the appearance of a technical one to get around the maximum rate law applying on shipments within Nebraska.

PLATTSMOUTH'S PROSPERITY

Improvements Going On in Every Direction

"Never before in the past ten years has there been so much improving done in any one season as is being accomplished this season," said an old resident. It would really surprise those who have been kicking against the town for years to take a trip over the city and see for themselves. In every direction they will note new houses going up, others being overhauled, old board sidewalks being torn up and concrete or brick taking their place.

It is impossible almost for mechanics to meet the demands, and our dealers in building material say that this has been a great season for them. Property is rapidly increasing in price, and there is not a piece of residence property fit to live in town but what is occupied. Many newcomers are coming in daily and buying small parcels of land near the city to make their future home. And to show how property is advancing we will just cite one instance: A gentleman who owns a small tract of land and residence within the corporate limits of

the city, who now resides in South Dakota, and who had placed a price of \$2,000 upon it two months ago, now refuses to sell it for less than \$2,500. And this is the way property is booming all over town. We say, on with the boom, and a more united community will help make a greater boom.

All stomach troubles are quickly relieved by taking a little Kodol after each meal. Kodol goes directly to the seat of the trouble, strengthens the digestive organs and digests what you eat. It is a simple, clean, pure, harmless remedy. Don't neglect your stomach. Kodol after each meal and see how good it makes you feel. Money back if it fails. Sold by F. G. Fricke & Co.

Laundry Changes Hands.

Henry Kauble, who has been in Omaha for some time, in charge of a laundry, assumes control of the laundry at this place. Robert Ballance, who is now visiting in Denver, having purchased the same. Mr. Kauble is a thoroughly experienced man in the laundry business and will make an excellent man for the place that he is to have charge of. Under the new management this should be a paying business, and we predict they will meet with abundant success. Henry came down from Omaha Sunday, and assumed control Monday morning.

Look at Colorado Lands

A crowd of our prosperous farmers and capitalists, departed on the afternoon Missouri Pacific train for Omaha where they will take a later train for Holly, Colo., where they will inspect lands of the Amity Land Co. This land is all under irrigation, and it is claimed to be so located as to afford excellent opportunities for the shipping of its products to the markets of the mid west. Those going from here are: W. D. Wheeler, H. D. Travis, John M. Leyda, Jacob Treitch, John Fight, John H. Becker and Bennett Christweiser. They expect to be gone four or five days.

Has not Furnished Bond

George Billings who was found guilty of petit larceny, in the police court of Saturday, has, as we go to press, not furnished the bonds necessary to perfect the appeal. And in the premises remains but for a commitment to be issued and the fine and costs to be satisfied by an imprisonment in the city jail. The commitment will be issued this afternoon.

JUST COME TO LIGHT

Why the Judge Remitted the Fines

There is a good story going the rounds, which is told to the Journal for the truth, of an obstreperous young lawyer, not a thousand miles from Plattsmouth, who made himself obnoxious to Judge Jessen at the recent term of court here, and finally the judge ordered District Clerk Robertson to record a fine of ten dollars upon the young barrister. This seemed to cool him for a time, but as a new phase of the case presented itself, he again violated the court etiquette, and received another fine. This occurred the third time during the course of the trial, and at the end the lawyer was indebted to the state in the sum of thirty dollars. Arising and running his eyes over the court room, Mr. Blank said: "Judge, I have the misfortune to be a little short of the sum requisite to pay my fines, and I see no one in the court room save your honor, of whom I could ask the loan of thirty dollars. You know me well, could you accommodate me with the sum?" The judge looked out of the window a moment and said: "Yes, Mr. Blank, I know you, and I will remit all three of the fines, the state is better able to lose the money than I am."

Died at Imogene, Iowa

Mrs. Winnie Edgerton, mother of Frank Edgerton of this place, died last Saturday at Imogene, Iowa, of cancer at the age of 80. She was preceded by her husband by about a year, who is buried at Adams, this state. Frank Edgerton, her son, was at her bedside when she breathed her last, at the home of another brother. The remains were taken to Adams, where the funeral occurred yesterday afternoon.

Bert Barber, of Elton, Wis., say "I have only taken four doses of your Kidney and Bladder Pills and they have done for me more than any other medicine has done. I am still taking the pills as I want a perfect cure." Mr. Barber refers to DeWitt's kidney and bladder pills, which are unequalled for backache, weak kidneys, inflammation of the bladder and all urinary troubles. A week's treatment for 25c. Sold by F. G. Fricke & Co.

That work glove at the Kraft Clothing Co. is the best for wear we ever saw.

THOUGHTFUL THINKS

Here's freedom to him that would read. Here's freedom to him that would write. There's none ever feared the truth, should he (read) But they whom the truth would indite. —Robert Baro.

Did it ever occur to you that this is pretty fair-coin weather for an off year?

Already the political slate makers are beginning to stir things a little.

Harry Orchard has plead guilty to every crime in the calendar but the striking of Billy Patterson.

If Ananias was on earth now, wouldn't he feel cheap to see his record placed beside that of Harry Orchard?

The Kaiser boxed the ears of his cousin, Prince Frederick Henry of Russia, and then ordered him to leave Germany. The Kaiser evidently believes in the effective, old-fashioned sort of chastisement.

Under the new primary law, candidates will have to file their applications to be placed upon the primary ticket August 3. There will be enough patriots to fill the places, no doubt.

Country life has its drawbacks, but it has its great advantages, which overcome them. True, those who live in the country are "Reubs" and "farmers" and "hayseeds" to the cigarette loafer of the town, but the boast of the business men in the world to-day is that they were born on a farm.

Hollins Randolph, who has been chosen to read the Declaration of Independence at Jamestown Exposition on July 4, is an Atlanta attorney, and the great-grandson of Thomas Jefferson. Mr. Randolph is a native of Virginia and a graduate of the University of Virginia, of the class of 1895.

A story of real human interest comes from Geneva, Nebraska. A woman residing there lost her husband in an accident, being left with several children and absolutely no means of support. Friends at once raised \$500 for her by popular subscription. It is said that not one of those asked for contribution refused to give.

Mr. Orchard continues to be a well trained actor. His testimony is given with the air of one who has been assured of immunity from punishment, and who will swear away the lives of others as cheerfully as he testifies to having murdered twenty people for a small money consideration.

The man who gets the estimate of his abilities from the enemies, and not from his friends, has a far better opportunity to show what kind of pluck is in him.

Dollar wheat in May is not the market that the average farmer is looking for. Dollar wheat in September will give our farmers a better opportunity to realize something on the price.

One thing about the water wagon is that while it is over-worked, the working periods are brief and the wagon stands it better than the fellow who keeps climbing on and falling off.

The Beatrice Sun says Harry Orchard should have hung out a sign: "people murdered while you wait, terms reasonable."

If, as reported, Secretary Taft contemplates going on the stump in Ohio, care should be taken to see not old, water-logged and crumbling.

The phrase "silent as an oyster" has no reference to Oyster Bay.

Kansas City has set a pace for the balance of the civilized world. She has just held a man for first degree murder for killing his mother-in-law.

Probably inspired by recent American example, the Czar is using a big stick on the Duma, which he is holding in extra session against its will. Thus is the great Russian bear become a Teddy-bear like the rest.

Another "peace conference" is about to convene at The Hague. As it is over the pomers will proceed to let a few more contracts for battleships.

The president of the society for the prevention of the cruelty to animals gives it out that President Roosevelt is not a true sport. This is equivalent to filling out a blank application for admission to the Ananias club.

The number of people who are pleading guilty to the indictment of "undesirable citizens" enlarges appallingly, from the standpoint of Mr. Roosevelt; but on the theory that misery loves company Mr. Harriman should be fairly comfortable.

GRAIN BROKERS GO BROKE

Omaha Concern Fails, Closing the Plattsmouth Office.

LOCAL LOSSES ARE VERY SMALL

The Managers of the Office Here Suffer the Greatest Loss.

The Nebraska Commission Company, an institution with headquarters at Omaha doing a business in futures of grain and stocks, with branch offices, located at various points over the country, and one at this place, were compelled to close its business, temporarily at least and perhaps permanently. Their Sioux City branch had failed to make its remittances, and was in arrears to the amount of about \$4,300.00, and on account thereof, they were not able to make the remittances which they were called upon to do by their patrons at other points. It has been the custom of the company to carry a bank account in each town to the amount of the business done there, and the man in charge at Hamburg, Iowa, not getting remittances asked for, immediately attached the bank account at that place, and also the books at Omaha, which necessarily closed the business, on last Saturday. At the close of the market today all the companies' business will be closed on the boards and exchanges where they are placed. The Plattsmouth Commission Company, comprised of T. O. Wilson and Richard Hale, of this place were their correspondents here. They tell us that there was very little business on their books, and that there is a small deposit in the local bank here but not sufficient to cover the amount which is due to their customers here. As to whether they get going again or not we do not care to venture an opinion, but this we do know, that should they be able to open their doors for business tomorrow, the temporary closing would cause a doubt in the minds of the traders to that extent that business would be very difficult to obtain in the near future. Wilson and Hale suffer by this closing, though in no way responsible for it, and while they have endeavored to care for the interests of the patrons of the office here, in this case it was not possible to do so.

NEW DEPARTURE IN MILLINEY

Will Continue Trimmer Entire Summer Season.

The results of the millinery trade at the Department Store having proved so satisfactory to Mr. Fanger, and the patronage having greatly increased over that of last season, he has concluded to keep his trimmer during the season. Consequently, Miss Mabel Burch, who has been in charge of the millinery department for the past two seasons has contracted to remain with Mr. Fanger the year round. The Journal believes this is a wise move on the part of Mr. Fanger, from the simple fact that there is more or less hats and bonnets sold the year through, and when the ladies find out his intention to keep an experienced trimmer at the head of the millinery department the entire year—in season and out—they will be well pleased. Miss Burch has given general satisfaction in her work, and this has been to a great extent the cause of the increase in trade the past season. She will always be found in this department.

Later in the season, and immediately before the fall opening, Mr. Fanger expects to go to New York City. He will be accompanied by Mrs. Fanger and Miss Burch. This trip is taken for the sole purpose of securing the latest creation in millinery for fall and winter. Never before has Plattsmouth boasted of a merchant who has tried so hard to please his patrons as Mr. Fanger, and his increase in trade fully denotes this fact.

The peek-a-boo, like Roosevelt's hunting trips, should leave something to the imagination.

We are willing to bet any amount under 45 cents that trouble doesn't come singly to the Kansas man who has eloped with two girls.

A loafer is not so bad; the loafer who not only shirks work, but sit around and finds fault with the work of everybody else is the one that ought to be annihilated.

There is nothing in the world makes a man feel so kindly to a girl who has turned him down to marry the other fellow as the announcement that she has just had twins.

Orchard confesses to having been an assassin, a dynamiter, a sheep thief, a wife deserter, in short weight cheese, but at least he did not belong to the Standard Oil trust.

An Iowa man who had been married four times, committed suicide rather than marry the fifth time. He must have been under the impression that it is against the law to remain a widower.

MOSQUITOES TILL YOU CAN'T REST

The Stories Told Eclipse All the Fish Stories

The warm weather for the past few days has been the means of resurrecting millions upon millions of these pests from their silent slumbers. Thinking, no doubt, that they have been beat out of two months "good biting," they are making up for lost time. Some of our citizens say they never before saw the time when mosquitoes were so numerous, and the stories told by some simply illustrate how vicious they are. Charley Reynolds, Burlington night yard master, states that one of Alf White's horses out in the pasture would be thick with them on his back and the only way he could get relief was to lay down and roll. He would no more than get on his feet when his back would again be covered. Charley said you could actually gather up the dead by the bushel. W. D. Jones, standing by while Charley was telling this story, as he turned to walk away said, "Well I could tell a pretty good mosquito story, but now there is no use for me to try." There is no doubt of the immensity of the pests. People could not sit outside on their porches last night in an comfort at all, and they must be very severe on horses and other animals in pastures.

A Prompt, pleasant, good remedy for coughs and colds, is Kennedy's Laxative Cough Syrup. It is especially recommended for babies and children, but good for every member of the family. It contains no opiates and does not constipate. Contains honey and tar and tastes nearly as good as maple syrup. Children like it. Sold by F. G. Fricke & Co.
